

Plat standards update dated November 2, 2020

CHANGES IN DOCUMENT:

Pages 17-19: Minor punctuation and capitalization.

Page 20: Added statement that all existing parcel lines and parcel numbers are to be shown on plat.

Page 20-21: Moved 3 bullet items to the Notification section, to be included on the letter. This provides a clearer statement, that these items are not needed on the plat, but only in the letter confirming that monumenation has been placed.

Page 20: Construction Section to make the notification letter a part of the project acceptance process.

Page 22: Revised item (8), taking out the reference to angular dimensions needing to be stated in decimals.
