

| Previous Page #  | New Page #        | Section | Revision Description   |
|--|-------------------|---------|--|
| Chapter 1: General (No revisions)  |                   |         |  |
| Chapter 2: Plan Preparation (No revisions)                                   |                   |         |  |
| Chapter 3: Temporary Traffic Signals and Interconnect (No revisions)         |                   |         |  |
| Chapter 4: Supports and Foundations (No revisions)                           |                   |         |  |
| Chapter 5: Vehicular Signals (No revisions)                                  |                   |         |  |
| Chapter 6: Pedestrian Features (No revisions)                                |                   |         |  |
| Chapter 7: Intersection Wiring (No revisions)                                |                   |         |  |
| Chapter 8: Traffic Signal Signs (No revisions)                               |                   |         |  |
| Chapter 9: Vehicle Detection (No revisions)                                  |                   |         |  |
| Chapter 10: Power Service (No revisions)                                     |                   |         |  |
| Chapter 11: Controller / Cabinet (No revisions)                              |                   |         |  |
| Chapter 12: Interconnect (No revisions)                                      |                   |         |  |
| Chapter 13: Underground Facilities (No revisions)                            |                   |         |  |
| Chapter 14: Removal and Reuse of Traffic Signal Installations (No revisions) |                   |         |  |
| Chapter 15: Timing / Phasing (No revisions)                                  |                   |         |  |
| Chapter 16: Pedestrian Hybrid Beacons (No revisions)                         |                   |         |  |
| <b>Chapter 17: Special Conditions</b>  |                   |         |  |
| -  | 17-1 through 17-4 | 17.4    | Added new section on Leading Pedestrian Interval (LPI); subsequent sections renumbered |
