MEGAN N. KILGORE
City Auditor

DARLENE WILDES, CPA
Deputy City Auditor

March 31, 2023

To the Residents of the City of Columbus, Ohio:

The Annual Comprehensive Financial Report (Annual Report) of the City of Columbus, Ohio (the City) for the fiscal year ended December 31, 2022, is hereby presented to its citizens by their City Auditor, statutorily described as the City's chief accounting officer.

The City's Charter states, "The auditor shall be an elector of the City, and be elected for a term of four years . .".

The Charter also sets forth the auditor's powers and duties and states, in part:

The auditor shall be the city's chief accounting officer. The Auditor shall keep, in accurate, systemized detail a record of the receipts, disbursements, assets, and liabilities of the city, and the recorded facts shall be presented periodically to officials and to the public in such summaries and analytical schedules as shall be necessary to show the full effect of such transactions for each fiscal year upon the finances of the city and in relation to each department of the city government, including distinct summaries and schedules for each public utility owned or operated.

This report fulfills these duties and is available universally on the City's website. The website is http://www.columbus.gov. Hard copies are available upon request.

The City's management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

The Auditor of State of Ohio has issued its opinion on the City's financial statements for the year ended December 31, 2022. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the basic financial statements. MD&A complement this letter of transmittal and should be read in conjunction with it.

Profile of the Government

The state legislature established Columbus as a city in 1812. The City is a home-rule municipal corporation operating under the laws of Ohio. The City's Charter, its constitution, can only be amended by a majority of the City's voters. It has been amended many times since its original adoption in 1914, most recently on November 8, 2022. The laws of the State of Ohio prevail when conflicts exist between the Charter and the state constitution and in matters where the Charter is silent.

Columbus, Ohio's capital city, is located in the central part of the state, approximately 150 miles south of Cleveland and 110 miles northeast of Cincinnati. The City's elevation is approximately 777 feet above sea level. Inter and intra state highways I-70, I-71, I-270, and I-670 serve as some of the City's major transportation arteries. The Ohio State University, with 60,540 students on its Columbus campus, is located near the center of the City. Columbus was ranked as the nation's 14th largest city as a result of the 2020 U.S. census rankings.

Some comparative data for Ohio's six largest cities follow. Population estimates for 2000, 2010, and 2020 are from the U.S. Bureau of Census. The respective cities' management provided area data as of 2022.

	Area		Population	
<u>City</u>	<u>2022</u>	<u>2020</u>	<u>2010</u>	<u>2000</u>
Columbus	226.5 sq. mi.	905,748	787,033	711,470
Cleveland	77.9 sq. mi.	372,624	396,815	478,403
Cincinnati	79.7 sq. mi.	309,317	296,943	331,285
Toledo	81.2 sq. mi.	270,871	287,208	313,619
Akron	62.3 sq. mi.	190,469	199,110	217,074
Dayton	56.4 sq. mi.	137,644	141,527	166,179

The Mid-Ohio Regional Planning Commission estimates the City's population at 908,386 at January 1, 2022.

The City's management consists of a Mayor, seven-member Council, City Auditor, and City Attorney. These officials are elected for four-year terms on an at-large basis. The Mayor and four Council members are elected in an odd numbered year. Three Council members, the City Auditor, and the City Attorney are elected in the following odd numbered year. The City's Charter also provides for appointments and elections of successors to these officials if they should, for any reason, vacate their office. All are chosen through a non-partisan election process. A charter amendment to change the total members of City Council from seven to nine, and to change City Council structure from at-large to by place, was approved by voters on May 8, 2018. Such changes take effect in 2023 and applies to elected terms beginning January 1, 2024.

In addition to the elected officials, certain others are major participants in the City's management. The Director of the Department of Recreation and Parks, the Health Commissioner and the Civil Service Executive Secretary are appointed by, and report to, independent Commissions. All Commission members are appointed by the Mayor and are subject to confirmation by the Council. The financial activities of these Commissions (budgets, expenditures, etc.) are subject to approval by the Council and are, therefore, included in this report. The City's Treasurer and Clerk to the Council are appointed by, and serve at the pleasure of the Council.

On November 3, 2020, Columbus voters approved an amendment to the Columbus City Charter to create the Civilian Police Review Board (the CPRB). The powers and duties of the CPRB shall be to receive, initiate, cause investigation of, and recommend resolution of complaints filed with it or initiated by the CPRB alleging misconduct by sworn members of the Columbus Division of Police. Upon completion of an investigation, the CPRB shall make recommendations to the Division of Police regarding resolution of the complaint and may make recommendations pertaining to discipline. This Charter amendment also authorized the creation of a new Department of the Inspector General for the Division of Police. The Inspector General is appointed by and serves, independent of the Department of Public Safety, under the guidance of the CPRB. The Inspector General is empowered to participate fully in criminal or administrative investigations involving Division of Police personnel. This position was appointed in 2022.

The Mayor's cabinet, appointed by him and serving at his pleasure, is not subject to confirmation by the Council. In 2022, the cabinet consisted of the Directors of the Departments of Finance and Management, Public Safety, Public Service, Public Utilities, Education, Development, Building and Zoning Services, Health, Recreation and Parks, Civil Service, Human Resources, Neighborhoods, Technology, CelebrateOne, and Diversity and Inclusion.

The accompanying financial statements comply with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting* Entity, as amended by Statement No. 61, *The Financial Reporting Entity: Omnibus*, Statement No. 39, *Determining Whether Certain Organizations are Component Units* and Statement No. 80, *Blending Requirements for Certain Component Units*. On this basis, the reporting entity of the City includes the following services to its citizens as authorized by its charter: public service (refuse collection, street engineering and construction, traffic engineering and parking, etc.); public safety (fire, police, etc.); development; health; recreation and parks; and public utilities. In addition, the City owns and operates five enterprise activities: a water system, a sanitary sewer system, a storm sewer and drainage system, an electricity distribution system, and a mobility/parking system; financial activities for which are contained in this report. Water and sanitary sewer services are metropolitan in nature and reach far beyond the City's corporate boundaries. The City does not operate schools or hospitals, nor is it responsible for public assistance programs.

Other entities included in this report and further explained in Notes A and Q are:

Related Organizations:

• New Community Authorities

Joint Ventures:

- The Franklin Park Conservatory Joint Recreation District
- The Affordable Housing Trust for Columbus and Franklin County
- The Columbus-Franklin County Finance Authority

Blended Component Units:

- The RiverSouth Authority
- Columbus Next Generation Corporation
- Columbus Board of Health

Information regarding reporting standards and basis of accounting used in the preparation of the City's financial statements can be found in Note A - Summary of Significant Accounting Policies in Notes to the Financial Statements.

The annual budget of the City of Columbus serves as the foundation for the City's financial planning and control. On or before the fifteenth day of November, the Mayor submits to City Council an estimate of the expenditures necessary to conduct the affairs of the City for the fiscal year commencing the following January 1. Budget estimates are publispagehed on the City's website and public hearings are held to obtain taxpayers' comments. Subsequent to January 1, and after publication of the proposed budget ordinances, the budget is legally enacted through adoption of the ordinances. The budget specifies expenditure amounts by Object Class (i.e. personal services, materials & supplies, contractual services, debt principal payments, other, capital outlay, interest on debt, and transfers) for each division within each fund. Transfers of appropriations of \$100,000 or less can be made between budget Object Class within a division and fund without additional City Council action, but with responsible management approval. Transfers in excess of this amount require the approval of both City Council and the Mayor.

Local economy

The City's economy grew steadily through 2022, with many economic indicators returning to or surpassing our pre-pandemic levels. Job growth, while more measured than 2021, steadily grew in the aggregate through 2022. Per the U.S. Bureau of Labor Statistics, jobs in Columbus rebounded to pre-pandemic (our previous peak year: 2019) levels in August 2022. Not all sectors have exceeded 2019 numbers; notably, finance and insurance, real estate, and arts/recreation/leisure jobs remain behind. Hiring remains strong, however, in transportation and warehousing, accommodation and food services, and construction.

Much of the City's economic resiliency comes from our diverse economy. Columbus maintains an enviable blend of large, stable employers, including our hospital systems and governmental entities; globally-recognized firms like JPMorgan Chase, Honda, Nationwide, and Cardinal Health; innovative emerging businesses; and topranked universities and research institutions like The Ohio State University. As we continue to grow – especially into the chip and manufacturing ecosystem – we anticipate benefitting from further foundational diversity.

The 25 largest employers in the Greater Columbus area are shown in the Statistical Section of this report. The Franklin County average annual unemployment rate (3.4%) for 2022 continued to be below the State of Ohio (4.0%) rate and the United States (3.6%) rate. A ten-year history of unemployment rates for Franklin County (by month) from the Ohio Department of Job and Family Services and the Annual Average Rates for Franklin County, the State of Ohio, and the United States is provided in the Statistical Section of this Annual Report – see Table 24.

The City's employee relations are established largely in association with the following labor organizations:

American Federation of State, County, and Municipal Employees (AFSCME), Locals 1632 and 2191.
 (www.afscme.org)

AFSCME has approximately 1,709 members among the City's 5,764 civilian employees. AFSCME has, however, bargaining rights for approximately 2,379 of these employees. The current labor agreements

between the City and AFSCME 1632 were effective April 1, 2021 and continue through March 31, 2024. The current labor agreements between the City and AFSCME 2191 were effective April 1, 2020 and continue through March 31, 2023.

• Fraternal Order of Police (FOP) (<u>www.fop9.org</u>)

FOP has bargaining rights for all of the City's police officers except for the chief, her two assistant chiefs, and her six deputy chiefs. Of the City's other 1,884 police officers, 1,685 are members of the FOP. The current FOP contract was effective December 9, 2020 and continues through December 8, 2023.

• International Association of Firefighters (IAFF) (www.iaff.org)

IAFF has bargaining rights for all the City's firefighters except for the chief and his five assistant chiefs. Membership in the IAFF includes 1,588 of a total 1,670 firefighters. The current contract was effective November 1, 2020 and continues through October 31, 2023.

 Columbus Municipal Association of Government Employees; Communication Workers of America, Local 4502 (CMAGE/CWA). (www.cmage.org)

CMAGE/CWA has approximately 866 members and has bargaining rights for approximately 1,608 of the 5,674 civilian employees. The current contract was effective April 24, 2020 and continues through April 23, 2023.

Under Ohio's Collective Bargaining Act, if members of the police or fire division cannot reach agreement with the City they ". . . shall submit the matter to a final offer settlement procedure." This requirement of Ohio law is referred to as a "no-strike" or "binding arbitration" provision. Other employees are permitted to strike under Ohio law after giving proper notification. There have been no strikes by City employees for over several decades.

Long-term financial planning

The City manages its long term financing of its capital needs through the annual updating of its Capital Improvement Plan (CIP). The CIP schedules capital improvements through the current and succeeding five years. The CIP does not include appropriations or authorizations to expend monies. The current year portion of the CIP, known as the Capital Improvements Budget (CIB), is formalized by ordinance of the City Council after holding public hearings and presented to the citizens as a formal plan. Appropriations for capital projects are authorized at the time bonds are sold or other funding sources are determined. Both the CIP and the CIB are subject to change by the Council.

The CIP contains not only a detailed listing of planned projects but also, in most instances, their funding source or sources. Most capital projects are funded through the use of long-term debt, bonds or monies borrowed via the Ohio Water Development Authority (see Note G). The City uses a ten year forecast of revenues available for debt service and a ten year forecast of current and anticipated debt service amounts in order to determine its debt capacity for non-enterprise type debt. Enterprise type debt capacity is guided by ten year projections of the respective enterprise revenues and costs. The major source of funding for non-enterprise debt service is a dedicated portion of City income tax collections. The City, by local statute, dedicates one fourth of its income tax collections primarily to the payment of such debt service. This financial activity is accounted for in the Special Income Tax Debt Service Fund, a major fund. This one fourth "set aside" for debt service local statute has been in place since 1983, with similar policies in place since 1956. Since the City maintains this income tax "set aside," the City has not levied a property tax rate increase in over 60 years.

Also as a policy, the City seeks voter approval for much of its general obligation planned debt. Since 1956, most recently in 2022, the City has sought voter approval 106 times to issue debt for various purposes, both non-enterprise and enterprise type debt. The voters have given their approval 100 times. Of the City's general obligation debt, its voters have given their direct approval for 84.1 percent of that outstanding at December 31, 2022 (see Note G). General Obligation bonds of the City are rated AAA, Aaa, and AAA by S&P Global, Moody's Investors Services, and Fitch Ratings, respectively. 78.9 percent of the City's general obligation debt is redeemed within 10 years.

The City's Department of Finance and Management forecasts its General Fund revenues and expenditures, also for a period of ten years, with a more focused emphasis on the initial three years.

Relevant financial policies

Columbus' financial stability is largely due to implementing and managing through a series of policy decisions beginning over 60 years ago. The policy which promoted stable growth of the City and its economy through controlled delivery of services with manageable annexation remains substantially in place to this day.

The City's income tax rate, 2.5%, was most recently increased by voters on August 4, 2009. By action of the City Council, one-fourth of revenues obtained from the 2.5% municipal income tax is allocated to the Special Income Tax Debt Service Fund (SIT) and is used primarily to pay debt service for non-enterprise capital improvements. This policy has been consistently in place since 1983. A similar policy with other allocations has been in place since 1956. This policy has greatly assisted the City in addressing its infrastructure needs. The use of the SIT for long-term capital investment has also allowed the City to protect its "Triple A" credit rating.

The City, like the federal and state governments, operates under a system of separation of powers. The legislative branch is manifest in its City Council. The judicial branch exists through municipal court judges with county wide jurisdiction. The executive branch is further divided into the Mayor, the chief executive; the City Attorney, the City's legal advisor and the chief prosecutor; and the City Auditor, the City's chief accountant. Each of these three members of the executive branch is separately elected.

The City Auditor determines and publishes the estimated amount of revenues that the City will receive during a given year. The Council may not appropriate and therefore the Mayor and the total City may not expend a greater amount. The City Auditor, however, cannot dictate the services for which the funds may be appropriated. In its simplest form this check and balance is sometimes described as "the Auditor says how much; the Mayor and Council say what for." This process calls for three separately elected bodies (the Mayor, the Council, and the Auditor) to participate in the financial management and expenditure controls of the City.

Major initiatives

The COVID-19 pandemic continues to influence the City's budgetary priorities. In 2022, departments and divisions citywide addressed ongoing social, fiscal, health, and economic impacts of the pandemic using a range of programs called "Opportunity Rising." This plan names 21 aspirational goals for each of our residents. While many of these areas include significant public and private sector collaboration, these 21 goals comprehensively influence the City's operating and capital budgets, operational plans, and our allocation of resources.

	Economic Stability
Workforce Development	Every Columbus resident is prepared to enter and advance in
·	the workforce
Jobs	Every resident earns a wage to support their household
Business Climate	Every business has equal access to resources and
	opportunities to succeed
Mobility	Every resident lives within a 30 minute commute of work,
	education and healthcare
Financial Security	Every resident achieves and maintains financial security
Childcare	Every family has access to high-quality, affordable childcare
	during the hours they need it
Kindergarten Preparedness	Every Columbus child is prepared to thrive in kindergarten
Digital Inclusion	Every resident can afford and use high-speed, high-capacity
	internet from home
Housing Stability	No resident pays more than 30 percent of their monthly
	income to live in a neighborhood of their choice

Homelessness	Every resident is stably housed
	Health & Wellbeing
Infant Vitality	Every baby reaches his or her first birthday
Chronic Disease Prevention	Healthy choices are easy for everyone to access and afford
Climate	Every resident enjoys the benefit of a sustainable environment
Behavioral Health & Trauma	Timely, affordable behavioral health services are available to
	every resident without stigma
	Safe & Resilient Communities
Crisis Mitigation	Every call for help is served by the right response and use of force
Neighborhood Building	Every neighborhood has the infrastructure, greenspace and programs to support safe and healthy living
Violence Elimination	Every resident lives in a neighborhood free of violent crime
Re-entry	Justice-involved residents are ready to contribute to and accepted by the community
Youth	Every Columbus young person can find safety and engagement in their neighborhood outside school hours
Community Collaboration	Residents collaborate with their city to create the community they wish to live in
Resiliency	Every resident has the resources to quickly recover from community crisis

Awards and acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Columbus, Ohio for its Annual Comprehensive Financial Report for the fiscal year ended December 31, 2021. This was the forty-third consecutive year that the City has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current annual comprehensive financial report continues to meet the Certificate of Achievement program requirements and we are submitting it to GFOA to determine its eligibility for another certificate.

This report represents the forty-fourth (1979-22) Annual Comprehensive Financial Report of the City of Columbus containing financial statements audited by a firm of certified public accountants. This report is available on the City's website. The website is http://www.columbus.gov. Hard copies are available to anyone upon request. This extensive effort of preparation and distribution of this report fulfills the City Auditor's goal of full disclosure of the City's finances.

This report is issued by Megan N. Kilgore, City Auditor. Special thanks and recognition go to Susan Odenweller for her exemplary leadership in the preparation of this report. All members of the City Auditor's staff and many of the City's other employees also contributed to this effort. They all have my thanks and respect for their work.

Respectfully submitted,

Mega N. Klore

INDEPENDENT AUDITOR'S REPORT

City of Columbus Franklin County 90 West Broad Street Columbus, Ohio 43215

To the Auditor and City Council:

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Columbus, Franklin County, Ohio (the City), as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Columbus, Franklin County, Ohio as of December 31, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the City, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note R to the financial statements, during 2022, the financial impact of COVID-19 and the continuing emergency measures will impact subsequent periods of the City. Our opinion is not modified with respect to this matter.

Efficient • Effective • Transparent

City of Columbus Franklin County Independent Auditor's Report Page 2

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, and design and perform audit procedures responsive to those risks. Such procedures
 include examining, on a test basis, evidence regarding the amounts and disclosures in the financial
 statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
 raise substantial doubt about the City's ability to continue as a going concern for a reasonable period
 of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

City of Columbus Franklin County Independent Auditor's Report Page 3

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, required budgetary comparison schedules, and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual nonmajor fund financial statements and schedules and the Schedule of Expenditures of Federal Awards as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules and the Schedule of Expenditures of Federal Awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual financial report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

City of Columbus Franklin County Independent Auditor's Report Page 4

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 31, 2023, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Keith Faber Auditor of State Columbus, Ohio

March 31, 2023

CITY OF COLUMBUS, OHIO

Management's Discussion and Analysis

As management of the City of Columbus (the City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2022. We encourage readers to consider the information presented here in conjunction with our letter of transmittal at the front of this report and the City's financial statements, which follow this section.

Financial Highlights

- > The assets and deferred outflows of the City exceeded its liabilities and deferred inflows at the close of 2022 by approximately \$3.8 billion. Of this amount, the unrestricted balance is a deficit of \$112.4 million. The unrestricted net position of the City's business-type activities is \$554.0 million and may be used to meet the on-going obligations of business-type activities, including the water, sanitary sewer, storm sewer, electricity, and mobility enterprises. The unrestricted net position of the governmental activities is a deficit of \$666.4 million. The deficit unrestricted net position is primarily the result of the City's accounting for pensions and other post-employment benefits (OPEB) under Governmental Accounting Standards Board (GASB) Statement No. 68, Accounting and Financial Reporting for Pensions an Amendment of GASB Statement 27 (GASB 68) and GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions (GASB 75). Combined, GASB 68 and GASB 75 reduced governmental and business-type net position by \$1.3 billion and \$76.0 million, respectively, for the year ended December 31, 2022.
- ➤ The City's total net position increased \$435.3 million in 2022. Net position of the governmental activities increased \$276.1 million or 22.4 percent from 2021. Net position of the business-type activities increased \$159.2 million or 7.4 percent from 2021.
- ➤ The total cost of the City's programs increased \$258.9 million or 14.1 percent. The cost of governmental activities increased \$191.5 million or 13.8 percent and the cost of business-type activities increased \$67.4 million or 14.9 percent.
- As of the close of the current fiscal year, the City's governmental funds reported a combined ending fund balance of \$1.2 billion. The combined governmental funds balance increased approximately \$166.5 million from the prior year's ending fund balance. Approximately \$579.3 million of the \$1.2 billion fund balance is considered restricted at December 31, 2022.
- ➤ The General Fund reported a total and unrestricted fund balance of \$280.4 million at the end of the current fiscal year. The fund balance for the General Fund was 28.9 percent of total General Fund expenditures. There was a \$24.3 million decrease in the total General Fund balance for the year ended December 31, 2022.
- ➤ The City's total debt, long-term liabilities (bonds and notes), increased by \$126.6 million or 2.6 percent during the current fiscal year to \$5.1 billion. The significant transactions contributing to the increase in outstanding debt at December 31, 2022 included:
 - The City's business-type activities issued \$159.5 million in Ohio Water Development Authority revenue obligations for various projects.
 - On May 17, 2022, the City issued \$395.2 million of general obligation bonds for the purpose of funding various project throughout the City; \$307.8 million in governmental activities bonds and \$87.4 million in business-type activities bonds.
 - o On May 17, 2022, the City issued \$29.0 million of general obligation refunding bonds to current refund \$38.8 million in business-type activities bonds issued in 2012.
 - o Governmental and business-type activities paid \$418.8 million on debt maturities in 2022.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances in a manner similar to private-sector business.

The *statement of net position* presents information on all of the City's assets, liabilities, and deferred outflows and deferred inflows of resources, with the difference between them reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *statement of activities* presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the cash flows. Thus, revenue and expenses reported in this statement for some items will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees or charges (business-type activities). The governmental activities of the City include general government, public service, public safety, development, health, and recreation and parks. The business-type activities of the City include five enterprise activities: a water system, a sanitary sewer system, a storm sewer system, an electricity distribution system, and a mobility enterprise.

The government-wide financial statements can be found on Exhibits 1 and 2 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on the near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains 172 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Board of Health, and the special income tax debt service fund, which are considered to be major funds. Data for the other 169 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The basic governmental fund financial statements can be found on Exhibits 3 and 4 of this report.

Proprietary funds. The City maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses enterprise funds to account for its water, sanitary sewer, storm sewer, electricity distribution, and mobility operations. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the City's various functions, including employee benefits self-insurance, worker's compensation, fleet management, information services, mail/print services, land acquisition, and construction inspection. The services provided by these funds predominantly benefit the governmental rather than the business-type functions. They have been included within *governmental activities* in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water, sanitary sewer, storm sewer, electricity distribution, and mobility operations. The water, sanitary sewer, storm sewer, and electricity enterprise funds are considered to be major funds of the City, while the mobility enterprise fund is considered a nonmajor fund. All internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of *combining statements* elsewhere in this report.

The basic proprietary fund financial statements can be found on Exhibits 5-7 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statement can be found on Exhibits 8 and 9 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 57 - 128 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's General Fund and Board of Health budgets. The City adopts an annual appropriation budget for its General Fund and Board of Health. A budgetary comparison statement has been provided for the General Fund and Board of Health to demonstrate compliance with this budget. Also included are three required schedules related to the City's participation in two state pension and OPEB funds. The Schedule of City's Proportionate Share of Net Pension Liability includes a history of the City's proportionate share of the collective net pension liability for each state pension fund. The Schedule of City Contributions to State Pension and OPEB Funds includes a history of contractually required contributions compared to contributions made. The Schedule of City's Proportionate Share of Net OPEB Liability includes a history of the City's proportionate share of the collective net OPEB liability for each state pension fund. Required supplementary information can be found on Exhibits 10-14 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds, internal service funds, and fiduciary funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on Exhibits A-D of this report.

City of Columbus Net Position

(amounts expressed in thousands)

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The City's assets and deferred outflows exceeded liabilities and deferred inflows by approximately \$3.8 billion at the close of the most recent fiscal year.

The largest portion of the City's net position, \$3.7 billion, reflects its investment in capital assets (e.g. land, buildings, improvements other than buildings, machinery and equipment, and infrastructure); less any related outstanding debt used to acquire those assets. The City uses these capital assets to provide services to residents; therefore, these assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net position, \$221.5 million, represents resources that are subject to restrictions as to how they may be used. The investment in capital assets and restricted net position are offset by a deficit unrestricted net position of \$112.4 million. Although the total unrestricted net position is a \$112.4 million deficit, the unrestricted net position of the City's business-type activities is \$554.0 million and may not be used to fund governmental activities. Due to the accounting of pensions and OPEB under GASB 68 and GASB 75, the City has recorded a combined net pension liability and OPEB asset of \$1.3 billion and deferred inflows of \$723.2 million, offset by deferred outflows of \$478.1 million at December 31, 2022. The *net negative* impact applicable to governmental activities and business-type activities was \$1.3 billion and \$76.0 million, respectively.

Overall net position of the City increased \$435.3 million or 12.9 percent in 2022 from the net position at December 31, 2021. Net position for governmental activities increased \$276.1 million, and net position for business-type activities increased \$159.2 million. The increase in net position for business-type activities was the result of the aggregate business-type activities holding expenses to 78.2 percent of total revenue for the year. In 2022, the water enterprise fund increased water charges by 4.0 percent and the sanitary sewer enterprise fund increased sewer charges by 5.0 percent. Total business-type charges for services increased 6.5 percent when compared to 2021. All other revenue in business-type activity decreased \$17.7 million or 431.7 percent as compared to 2021. This is because of the recording of an unrealized loss on investments marked to market in 2022.

Business-type activities expense for 2022 increased \$67.4 million or 14.9 percent from the comparable expenses in 2021. Expenses decreased significantly in 2021 due to a plan design change with the OPERS OPEB plan. OPERS no longer offers a self-insured OPEB plan to its retirees. Instead, retirees receive a monthly fixed stipend based on their eligibility. As a result, the OPERS OPEB 2020 net liability converted to a net asset in 2021 with the offset recognized as a reduction in pension expense. The 2022 expenses returned to levels consistent with years prior to 2021.

There was an increase of \$128.9 million in the business-type activities net investment in capital assets in 2022 due to principal payments on debt exceeding the annual depreciation on capital assets.

The City follows GASB Statement 68, "Accounting and Financial Reporting for Pensions" and GASB Statement 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions," which significantly revises accounting for costs and liabilities related to pensions and other postemployment benefits (OPEB). For reasons discussed below, many end users of this financial statement will gain a better understanding of the City's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB asset/liability to the reported net position and subtracting deferred outflows related to pension and OPEB.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability* or *net OPEB liability*. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB asset/liability to equal the City's proportionate share of each plan's collective:

- 1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service;
- 2. Minus plan assets available to pay these benefits.

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the City is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan as against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the City's statements are prepared on an accrual basis of accounting and include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability and net OPEB asset/liability, respectively, not accounted for as deferred inflows/outflows.

City of Columbus Changes in Net Position (amounts expressed in thousands)

Governmental activities. Governmental activities increased the City's net position by \$276.1 million as compared to a \$369.7 million increase in 2021. Key elements of the changes in net position are as follows:

- Governmental activities expenses increased \$191.5 million or 13.8 percent in 2022. Expenses decreased significantly in 2021 due to a plan design change with the OPERS OPEB plan. OPERS no longer offers a self-insured OPEB plan to its retirees. Instead, retirees receive a monthly fixed stipend based on their eligibility. As a result, the OPERS OPEB 2020 net liability converted to a net asset in 2021 with the offset recognized as a reduction in pension expense. The 2022 expenses returned to levels consistent with years prior to 2021.
- Income tax revenue, which represents 58.1 percent of the City's governmental revenue, increased by \$31.2 million or 3.0 percent on a full accrual basis. This was largely attributable to increased wages in the region.
- > Operating grants and contributions increased \$80.3 million or 33.0 percent. This was due mainly to the City receiving COVID-19 related federal funding.
- Investment income decreased \$42.4 million due to recording an unrealized loss on investments marked to market.
- > Total revenues increased 6.1 percent, while expenses increased 13.8 percent.

Business-type activities. Business-type activity net position increased \$159.2 million as compared to a \$193.9 million increase in 2021. Key elements of changes in net position are as follows:

- ➤ Charges for services increased \$41.3 million or 6.5 percent as water rates increased 4.0 percent and sewer rates increased 5.0 percent in 2022. The business-type activities continued the pattern of cost containment relative to the level of revenues for enterprise activities in 2022. The percent of annual expense to annual revenue was 78.2 percent in 2022.
- > Total business-type activities expenses increased by \$67.4 million or 14.9 percent. Expenses decreased significantly in 2021 due to a plan design change with the OPERS OPEB plan. OPERS no longer offers a self-insured OPEB plan to its retirees. Instead, retirees receive a monthly fixed stipend based on their eligibility. As a result, the OPERS OPEB 2020 net liability converted to a net asset in 2021 with the offset recognized as a reduction in pension expense. The 2022 expenses returned to levels consistent with years prior to 2021.

Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related requirements.

Governmental Funds

The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of December 31, 2022, the City's governmental funds reported combined ending fund balances of \$1.2 billion, an increase of \$166.5 million in comparison with the prior year. Approximately \$645.2 million of this amount constitutes *unrestricted fund balance* or the total of committed, assigned, and unassigned fund balance. The remainder of fund balance is *restricted* to indicate that it is not available for new spending because it has already been restricted by parties outside the City or pursuant to enabling legislation.

A schedule of governmental funds revenues and expenditures for the last ten fiscal years has been provided in the Statistical Section of this Annual Comprehensive Financial Report (ACFR) – see Table 4.

General Fund. The General Fund is the chief operating fund of the City. At December 31, 2022, total fund balance of the General Fund was \$280.4 million. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 24.8 percent of total General Fund expenditures, while total fund balance represents 28.9 percent of total General Fund expenditures.

A schedule of General Fund revenues and expenditures for the last ten fiscal years has been provided in the Statistical Section of this ACFR – see Table 5.

The fund balance of the City's General Fund decreased \$24.3 million during 2022. Key factors of the 2022 results are as follows:

- ➤ Total revenues decreased \$4.8 million or 0.5 percent.
- Investment income decreased \$43.9 million to a negative amount of \$47.1 million in 2022 due to recording an unrealized loss on investments marked to market.
- Income tax revenue, which represents 84.7 percent of General Fund revenues, increased 4.8 percent in 2022. This was largely attributable to increased wages in the region.
- Expenditures increased by \$17.4 million or 1.8 percent. This was largely a function of some expenses that were previously funded by COVID-19 federal funding returning to the General Fund in 2022.

Revenue Narrative:

Brief descriptions of the City's General Fund major revenue components follow.

Income taxes

The City's income tax continues to be its primary source of revenue. The tax applies to all wages, salaries, commissions, and other compensation paid by employers and/or the net proceeds from the operation of a business, profession, or other enterprise activity. The initial tax rate of 0.5 percent, collected in 1948, was increased to 1.0 percent in 1956, 1.5 percent in 1971, and to 2.0 percent in 1983. In a special election on August 4, 2009, the City's voters approved an increase in the rate to 2.5 percent. The new rate was effective October 1, 2009. Income tax rates of cities and villages within the State of Ohio are limited to a maximum of 1.0 percent, unless specifically approved by a majority of the resident voters of the respective city or village. There are 736 political subdivisions, other than school districts in the State of Ohio that now levy a local income tax. Rates range from 0.5 percent to 3.0 percent.

Approximately 81.3 percent of the City's income tax collected in 2022 was via employers withholding the tax from employees' earnings and remitting the tax to the City on a statutorily prescribed schedule. Approximately 14.7 percent of collections originated from business accounts and 4.0 percent from independently employed individual taxpayers. Depending on the amount withheld, employers must remit to the City on a semi-monthly, monthly, or quarterly frequency, with the largest amounts being remitted semi-monthly.

One quarter of the revenue from this tax is accounted for in a Debt Service Fund and is primarily used for servicing debt pertaining to non-enterprise type capital improvements. Three-quarters of income tax revenues are used for General Fund purposes. General Fund income tax revenues on the budget basis represent 2022 collections of \$837.7 million less refunds of \$27.3 million for a net amount of \$810.4 million. Income tax revenues on the modified accrual basis of accounting, net of refunds, were \$810.9 million.

A ten-year history of the income tax revenue and cash collections, net of refunds, appears in the Statistical Section of this report.

Property taxes

Property taxes in Ohio are levied and collected by its 88 counties. The City lies partially within three of these counties: Franklin, Fairfield, and Delaware. After collection, the counties distribute portions of these taxes to the political subdivisions (school districts, cities, villages, townships, etc.) located within their geographic borders. Property taxes for the City represent a tax rate of approximately 3.14 mills (\$3.14 per \$1,000 of taxable valuation) applied to the assessed value of property located in the City. Assessed values represent approximately 35 percent of appraised values. This rate, 3.14 mills, has remained unchanged since 1956.

Increases in this rate can only occur with approval of the City's voters. Revenues from property taxes are used for General Fund operations, including a partial provision, 0.60 mills, for current police and fire pension costs.

Franklin County performs comprehensive reappraisals of real property assessed values every six years, and less formal triennial updates third year in between the six year reappraisals. The last revision in Franklin County was a triennial update completed in 2020. Property taxes levied in 2022 but not collectible until 2023 are accounted for in the General Fund as accounts receivable and deferred inflows at an estimated amount of \$64.5 million.

Table 10 in the Statistical Section of this report includes a history of real property assessed values, where assessed values have risen recently. The total assessed values increased 18.9 percent for tax year 2020, increased 1.5 percent for tax year 2021 and increased 1.8 percent for tax year 2022 for Franklin County.

Overall, property tax revenue increased from \$61.5 million in 2021 to \$62.8 million in 2022.

Additional data on property values and taxes appear in the Statistical Section of this report.

Investment earnings

The City's investment policies are discussed in Note C. This source of revenue is not conducive to year-to-year comparisons. Investment earnings are only deposited to the General Fund after all statutorily directed earnings are deposited to the appropriate funds: enterprise funds, grant funds, etc. Interest earnings in the General Fund decreased from negative \$3.3 million in 2021 to negative \$47.1 million in 2022 due to recording an unrealized loss on investments marked to market.

Licenses and permits

Licenses and permits are issued by the City to regulate activities related to building, health, and other business enterprises. The General Fund revenue from license and permits remained fairly flat, increasing from \$8.5 million to \$9.3 million in 2022.

Shared revenues

Shared revenues in the General Fund include the taxes listed below which are levied and collected by the state or counties and partially redistributed to the City and other political subdivisions. Provided below is a five-year history of the City's share of these revenues as reported in the governmental fund financial statements on a modified accrual basis of accounting.

	(in thousands)						
	2022	2021	2020	2019	2018		
Shared revenues							
Local government fund	\$ 26,294	26,301	19,177	21,408	19,868		
Estate tax	61	27	-	-	28		
Casino Tax	8,442	8,305	5,243	7,375	7,032		
State liquor fees	1,662	804	1,156	1,258	1,286		
Cigarette tax and other	45	54	40	37	50		
Total	<u>\$ 36,504</u>	35,491	25,616	30,078	28,264		

Shared revenues were fairly flat, increasing just \$1.0 million from the prior year.

Charges for services

The City performs certain services for its citizens and other municipalities for which it charges various amounts. These services include impounding, storing, and selling abandoned autos; fire and police protection provided to certain suburbs; and various other services. Additionally, the City's General Fund allocates certain citywide costs initially borne by the General Fund to certain other funds. These costs (pro rata charges) are allocated by charging certain other funds a statutorily approved rate of 4.5 percent, as determined by the City's most recent cost allocation plan, of their gross revenue.

	(in thousands)								
	2022	2021	2020	2019	2018				
Charges for services									
Parking meters and fees	\$ -	-	592	1,142	4,242				
City Attorney charges	2,259	24	1,298	1,301	2,393				
Police services	7,281	5,540	4,433	7,358	6,728				
Fire services	24,078	22,870	21,186	22,170	21,474				
Pro rata charges	34,947	33,426	31,504	31,318	30,091				
All other	1,944	1,817	1,727	1,861	2,268				
Total	\$ 70,509	63,677	60,740	65,150	67,196				

Emergency medical transportation services, which are included in Fire services, were \$19.0 million and \$17.3 million in 2022 and 2021 respectively. Charges for services increased by \$6.8 million, rebounding from pandemic levels. Parking meter revenue has transitioned from the General Fund to the mobility enterprise fund.

Fines and forfeits

This revenue source consists mostly of fines and forfeits imposed by the Franklin County Municipal Court.

			(in t	:housands)		
		2022	2021	2020	2019	2018
Fines and forfeits						
Fines and forfeits	\$	8,606	8,086	7,424	12,318	12,551
Parking ticket revenue		_	5,465	4,210	6,588	5,942
Total	<u>\$</u>	8,606	13,551	11,634	18,906	18,493

Fines and forfeits revenue decreased \$4.9 million in 2022 due to parking ticket revenue moving from the General Fund to the mobility enterprise fund in 2022.

Miscellaneous

Miscellaneous revenues in the General Fund on the modified accrual basis of accounting consist of the following:

		((in thousands)	
	2022	2021	2020	2019	2018
Miscellaneous revenue					
Ohio BWC rebates/dividends	\$ -	-	77,652	13,306	12,617
Electricity kilowatt revenue	3,359	3,313	3,192	3,369	3,320
Refunds and reimbursements	1,732	1,723	7,634	1,627	1,959
Other	930	4,167	2,330	1,410	1,614
Total	<u>\$ 6,021</u>	9,203	90,808	19,712	19,510

Misc revenue decreased \$3.2 million in 2022. As in 2021, no large Bureau of Workers Comp (BWC) rebates were received in 2022.

Expenditure Narrative:

Public safety, primarily police and fire services, continues to be the dominant function of the General Fund. Public safety expenditures were 68.8 percent and 69.5 percent of total expenditures for 2022 and 2021, respectively. Total General Fund expenditures increased \$17.4 million or 1.8 percent in 2022; expenditures exceeded revenues for the year by \$14.3 million. This was largely a function of expenses that were funded by COVID-19 federal funding in 2021 returning to the General Fund in 2022.

General Fund revenue and expenditure trend information over the last ten years is included in the Statistical Section of this report – see Table 5 and Table 6.

Board of Health. Beginning in 2019, the Board of Health (the Board) is reported as a blended component unit after it was determined the Board was a legally separate entity. In addition, the Board is reported as a major fund due to its significance to the City. The Board has a total fund balance of \$16.2 million.

Special income tax debt service fund. The special income tax debt service fund has a total fund balance of \$302.1 million. The net change in fund balance during 2022 in this fund was an increase of approximately \$37.2 million. One quarter of the City's income tax revenue is set aside to meet debt service requirements for governmental activity type debt. Premiums on governmental activities bonds issued are reported in the special income tax fund. The change in fund balance was due to the increase in income tax revenue.

Proprietary funds

The City's proprietary funds financial statements provide the same information found in the government-wide financial statements, but in more detail.

The City operates five enterprise activities: a water system, a sanitary sewer system, a storm sewer system, an electricity distribution system, and a mobility enterprise. These activities are accounted for in separate enterprise funds. Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises—where the City intends that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. The City accounts for its enterprise funds on the full accrual basis of accounting.

The annual charges and rate increases for the average Columbus resident/user of water and sewers over the last ten years are included in Table 14 of the Statistical Section. An average Columbus resident/user is defined as a customer using 12,000 cubic feet of water annually. Water and sanitary sewer charges are designed to provide resources for both capital and operating costs. Storm sewer and electricity charges are designed to provide resources for operating costs (maintenance) and certain, but not all, capital costs.

The City's enterprises are not subject to rate review or determination by the Public Utilities Commission of Ohio or any similar regulatory body. The City's Council has the necessary authority to establish user rates. The rates are reviewed and established by the Council annually. The frequency and amounts of rate setting authority lies solely with the City's Council.

Unrestricted net position at the end of the year amounted to \$190.9 million, \$288.8 million, \$48.9 million, \$20.4 million, and a deficit of \$11.8 million for the water, sanitary sewer, storm sewer, electricity and mobility enterprises, respectively. Net position in the water, sanitary sewer, storm sewer, and mobility enterprise funds increased \$47.8 million, \$13.8 million and \$15.1 million respectively, while electricity decreased \$2.5 million. Other factors concerning the finances of these funds have already been addressed in the discussion of the City's business-type activities.

Water. The City's water enterprise serves the residents of the City and the majority of suburban communities in the Columbus vicinity. The population of the service area is estimated at 1,366,092 million persons. The water enterprise serves 281,983 customer accounts, owns and maintains 2,535 miles of water mains primarily within the City and maintains an additional 1,043 miles of mains beyond the City's borders.

The City obtains its raw water supply from rivers, reservoirs, and wells. The enterprise conducted a regional water resource project which is used as a guide to develop additional water supply, treatment facilities, and distribution components as dictated by increasing demand. Future supply requirements will be addressed through a combination of demand management efforts and upground reservoirs.

The enterprise operates one of the most sophisticated water laboratories in the nation. The lab has maintained its EPA certification since the certification process began in 1976 pursuant to the Safe Drinking Water Act of 1974. On a semiannual basis, the lab must conduct various water study sample tests. The certification covers both equipment and personnel and represents a measure of quality performance. The staff is fully supported with state of the art equipment. Their primary responsibility is to assure that the water enterprise is, and will remain, in compliance with all federal, state, and local requirements.

All bonds of the water enterprise are paid from water enterprise revenues.

Water's net position increased by \$47.8 million in 2022 as compared to \$70.3 million in 2021. The increased cost of materials in 2022 was a contributing factor. In addition, expenses decreased significantly in 2021 due to a plan design change with the OPERS OPEB plan. OPERS no longer offers a self-insured OPEB plan to its retirees. Instead, retirees receive a monthly fixed stipend based on their eligibility. As a result, the OPERS OPEB 2020 net liability converted to a net asset in 2021 with the offset recognized as a reduction in pension expense. The 2022 expenses returned to levels consistent with years prior to 2021.

A ten-year comparison of certain water enterprise data is shown in Table 7 of the Statistical Section.

Sanitary Sewer. The City's sanitary sewer enterprise also serves the metropolitan area with approximately 279,192 customer accounts, both residential and commercial. Included in the total sewer system are 4,500 miles of sanitary sewers, 3,375 miles of storm sewers, and 160 miles of combined sanitary/storm sewers. The costs and related financial activities of sanitary and combined sewers are accounted for in the Sanitary Sewer Enterprise Fund.

When the Jackson Pike plant, one of the City's two treatment plants, reaches capacity the excess automatically flows through connectors to the Southerly plant. The Southerly plant has a design capacity that allows gallons treated to exceed, by approximately 20 percent, the maximum longer term sustainable maximum capacity for shorter periods of time.

All bonds and notes of the sanitary sewer enterprise are paid from sanitary sewer enterprise revenues.

Sanitary Sewer's net position increased by \$84.1 million in 2022 as compared to \$96.0 million in 2021. The increased cost of materials in 2022 was a contributing factor. In addition, expenses decreased significantly in 2021 due to a plan design change with the OPERS OPEB plan. OPERS no longer offers a self-insured OPEB plan to its retirees. Instead, retirees receive a monthly fixed stipend based on their eligibility. As a result, the OPERS OPEB 2020 net

liability converted to a net asset in 2021 with the offset recognized as a reduction in pension expense. The 2022 expenses returned to levels consistent with years prior to 2021.

A ten-year comparison of certain sanitary sewer enterprise data is shown in Table 7 of the Statistical Section.

Storm Sewer. The City's storm sewer enterprise serves the metropolitan area. The City intends that all costs of the storm sewer enterprise be supported by user charges.

The City's storm sewer enterprise owns and maintains 3,375 miles of such sewers and has 199,629 customer accounts, all within the City's borders.

All bonds and notes of the storm sewer enterprise are paid from storm sewer enterprise revenues.

Storm Sewer's net position increased by \$13.8 million in 2022 as compared to \$12.9 million in 2021. Storm sewer operations in 2022 were consistent with 2021.

A ten-year comparison of certain storm sewer enterprise data is shown in Table 7 of the Statistical Section.

Electricity. The City owns and operates an electricity distribution system and accounts for it in the Electricity Enterprise Fund. The system had its origin in the 1890's and generated electricity from burning coal. The initial sole purpose for its existence was to light the streets of the City. In response to environmental concerns, the City ceased generating electricity. The City continued distributing electric power by purchasing all of its needed power from privately owned and other publicly owned utilities. The City intends that all costs of the electric enterprise be supported by user charges except for certain debt service, principal and interest, on bonds authorized by the voters. This net debt service amount in 2022 was \$1.8 million and is included in the enterprise financial statements as a transfer in from the Special Income Tax Debt Service Fund.

Rates charged to customers are determined solely by the City's Council after recommendation by the electricity enterprise management. Council's determination is final and is not subject to review or approval by any other regulatory body. Rates are, however, subject to market driven competition provided by the private electric utility in the area.

Electricity's net position decreased \$2.5 million in 2022 as compared to a \$6.8 million increase in 2021. The increased cost of materials in 2022 was a contributing factor. In addition, expenses decreased significantly in 2021 due to a plan design change with the OPERS OPEB plan. OPERS no longer offers a self-insured OPEB plan to its retirees. Instead, retirees receive a monthly fixed stipend based on their eligibility. As a result, the OPERS OPEB 2020 net liability converted to a net asset in 2021 with the offset recognized as a reduction in pension expense. The 2022 expenses returned to levels consistent with years prior to 2021.

A ten-year comparison of certain electricity enterprise data is shown in Table 7 of the Statistical Section.

Mobility. Mobility enterprise became effective January 1, 2022 via Ordinance 2994-2021 to allow for the holistic management of all the City's mobility assets within a sustainable and long-term self-supporting program. Previously, parking and transportation transactions were accounted for in special revenue funds and the Garage enterprise fund, established for the City's parking garages. Like the Garage Fund, the mobility enterprise fund is non-major. Additional information on the performance of the mobility enterprise fund will be provided in future years.

General Fund Budgetary Highlights

The final amended General Fund budget had total appropriations of approximately \$78.0 million more than the original budget. The total original appropriations, including those for transfers out, were \$1.039 billion, while the final appropriations were \$1.117 billion. The City collected more income tax than had been previously projected following high levels of wage inflation. A ten-year history of fund balances in the various components of the General Fund follows:

Capital Asset and Debt Administration

Capital assets. The City's investment in capital assets for governmental and business-type activities as of December 31, 2022 amounts to \$8.0 billion (net of accumulated depreciation). This investment in capital assets includes land, buildings, systems, improvements, machinery and equipment, park facilities, roads, curbs and gutters, streets and sidewalks, and drainage systems. The total increase in the City's investment in capital assets for 2022 was 3.3 percent (a 2.3 percent increase for governmental activities and a 4.2 percent increase for business-type activities).

Major capital asset events during 2022 included the following:

- Total capital assets, net of accumulated depreciation, increased \$257.7 million.
- Governmental activity capital assets increased by \$74.4 million, or \$241.1 million of acquisitions net of \$130.1 million in depreciation expense and \$36.6 million in disposals and transfers. Significant acquisitions include: \$143.8 million in land, traffic signals and other street improvements; \$25.3 million in park land and improvements; \$10.6 million in donated streets; \$6.3 million in public safety equipment; and \$6.0 million in refuse and public service equipment.

Business-type activity capital assets increased by \$183.3 million, or \$319.1 million of acquisitions and transfers less \$135.7 million in current year depreciation expense less \$0.1 million of disposals. Significant acquisitions include: \$150.2 million in sanitary sewer plant and line improvements; \$93.0 million in water plant and water line improvements; and \$9.3 million in equipment. Also in 2022, the mobility enterprise fund received \$30.6 million in assets transferred from governmental activities, as well as put a \$27.5 million building into service, which was previously in construction in progress (CIP).

Additional information on the City's capital assets can be found in Note F in the Notes to the Financial Statements.

Long-term debt. At December 31, 2022, the City, the primary government, had \$5.1 billion of long-term bonds and loans outstanding with net unamortized premiums and discounts of \$303.1 million. All assessment bonds and notes issued by the City are general obligation bonds and notes. There were \$20 thousand in assessment bonds, all related to business-type activities, outstanding at December 31, 2022. The revenue bonds of the City represent bonds secured solely by specified revenue sources.

Total	\$ 1,838,298	\$ 1,746,147	\$ 3,226,474	<u>\$ 3,191,991</u>	\$ 5,064,772	\$ 4,938,138	

Total long-term bonds and loans outstanding at December 31, 2022 increased \$126.6 million or 2.6 percent as compared to the amount outstanding at December 31, 2021. Key events contributing to the increase in long-term debt balances are as follow:

- > The City's business-type activities issued \$159.5 million in Ohio Water Development Authority revenue obligations for various projects.
- On May 17, 2022, the City issued \$395.2 million of general obligation bonds for the purpose of funding various project throughout the City; \$307.8 million in governmental activities bonds and \$87.4 million in business-type activities bonds.
- > On May 17, 2022, the City issued \$29.0 million of general obligation refunding bonds to current refund \$38.8 million in business-type activities bonds issued in 2012.
- > Governmental and business-type activities paid \$418.8 million on debt maturities in 2022.

The City's general obligation bond ratings by S&P Global, Moody's Investor Services, Inc. and Fitch Ratings are "AAA", "Aaa", and "AAA", respectively. The City's bond ratings were confirmed with the respective rating agencies as shown in the table below.

	,	s Investor vices	S&P	Global	Fitch Ratings

The City is within all of its legal debt limitations. The Ohio Revised Code provides that the net debt (as defined in the Ohio Revised Code) of a municipal corporation, whether or not approved by the electors, shall not exceed 10.5 percent of the total value of all property in the municipal corporation as listed and assessed for taxation. In addition, the unvoted net debt of municipal corporations cannot exceed 5.5 percent of the total taxation value of property. The statutory limitations on debt are measured by the ratio of net debt to tax valuation and expressed in terms of a percentage. At December 31, 2022, the City's total net debt amounted to 4.71 percent of the total assessed value of all property within the City. Unvoted net debt amounted to 0.0 percent of the total assessed value of all property within the City. The City had a legal debt margin for total debt of \$1.210 billion and a legal debt margin for unvoted debt of \$1.149 billion. The aggregate amount of the City's unvoted debt, when added to that of other political subdivisions within the respective counties in which Columbus lies, is limited to ten mills.

Additional information regarding the City's long-term debt can be found in Note G in the Notes to the Financial Statements.

Economic Factors and the 2023 General Fund Budget

The 2023 budget of \$1.162 billion reflects the "Opportunity Rising" phase of the Mayor's Equity Agenda. Every Columbus resident benefits from rising opportunities through the community's rising economic stability, stronger health and wellbeing, and safer more resilient neighborhoods. Priorities include workforce development, digital inclusion, housing stability, infant vitality, violence elimination and neighborhood building.

Historically, the City's revenue estimates have been built upon multi-year analyses and largely predictable trend data. COVID-19 dramatically altered trends and introduced much uncertainty to projections. Remote work and its effect on the City's income tax revenue remains the largest area of uncertainty with the potential for the greatest negative impact locally. While rules for taxing remote work were initially relaxed, the State passed legislation in June of 2021 to allow for refunds of 2021 municipal income tax paid on behalf of remote workers to the municipality where the business was located rather than where the employee was physically working. This led to record high income tax refunds in 2022, with elevated levels continuing in 2023.

The City continues to actively monitor four primary areas: 1) direct and indirect impacts from the local economy; 2) remote work and its impact on City income tax revenue; 3) local employment trends; and 4) income tax refunds due to remote work and a pending Ohio Supreme Court ruling on remote work in 2020. But it should be noted that

the City's economy has shown great resilience in these unprecedented recent years, as well as historically during periods of difficulty. In addition, the City maintains sizeable reserves. While the City does not anticipate needing to access these reserves, the City maintains substantial financial flexibility: the \$280.400 million General Fund balance includes an unassigned amount of approximately \$240.941 million, including \$90.777 million set aside in the City's Economic Stabilization (or "Rainy Day") subfund.

Request for Information

This financial report is designed to provide our residents, taxpayers, customers, investors, and creditors with a general overview of the City's finances and to show accountability for the money it receives. This report is also available on the City's website at www.columbus.gov. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City Auditor's Office, 90 West Broad Street, Columbus, Ohio, 43215.

City of Columbus, Ohio
Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position
December 31, 2022
(amounts expressed in thousands)

(amounts expressed in thousands)		
Total fund balance, governmental funds (Exhibit 3)		\$ 1,224,541
Amounts reported for governmental activities in the Statement of Net Position are different because:		
Capital assets used in governmental activities (excluding internal service fund capital assets of \$51,336) are not financial resources and therefore are not reported in the funds. See Note F for additional details.		3,326,008
Internal services funds (see Exhibit 5) are used by the City to account for the financing of goods or services provided by one department or agency to other City departments or agencies, generally on a cost reimbursement basis. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.		52,230
City income tax revenue related to 2022 (and prior tax years) will be collected beyond the 60 day period used to record revenue in the fund statements. Revenue and a corresponding receivable for this amount are included in the government-wide statements.		91,000
Charges for services related to 2022 (and prior years) will be collected beyond the 60 day period used to record revenue in the fund statements. Revenue and a corresponding receivable for this amount are included in the government-wide statements.		13,463
Grant revenue related to 2022 will be collected beyond the 60 day period used to record revenue in the fund statements. Revenue and a corresponding receivable for this amount are included in the government-wide statements.		12,365
State shared revenue appropriated during the State of Ohio's fiscal year ended June 30, 2023 will be collected beyond the 60 day period used to record revenue in the fund statements. Revenue and a corresponding receivable for this amount are included in the government-wide statements.		32,232
Net pension and OPEB liability/asset is not due and payable in the current period; therefore, the liability and related deferred inflows and deferred outflows of resources are not reported in the governmental funds.		
Balances at December 31, 2022 are:		
Deferred outflows of resources - pension and OPEB		455,317
Deferred inflows of resources - pension and OPEB Net pension and OPEB liability/asset		(627,400) (1,151,594)
Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. All liabilities - both current and long-term - are reported in the statement of net position. Also, during the year the City issued new debt. The deferred amount on refunding were reported in the governmental fund when the debt was issued, whereas these amounts are deferred and amortized, over the remaining life of the new debt, as an adjustment to interest expense in the statement of activities.		(-,,,
Balances at December 31, 2022 are:		
Claims and judgments		(3,162)
Accrued interest on bonds		(21,118)
Accrued vacation and sick leave		(109,221)
Lease payable	(1 4=4 - :	
Bonds and notes payable	(1,653,645)	
Unamortized deferred amount on refunding	11,029	
Unamortized premiums Total long term liabilities (see Note C)	(141,014)	(1 702 620)
Total long-term liabilities (see Note G) Not Position of Covernmental Activities in the Statement of Not Position (Exhibit 1)		 (1,783,630)
Net Position of Governmental Activities in the Statement of Net Position (Exhibit 1)		\$ 1,511,031

The notes to the financial statements are an integral part of this statement.

City of Columbus, Ohio

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities

For the Year Ended December 31, 2022

For the Year Ended December 31, 202 (amounts expressed in thousands)

Net change in fund balances - total governmental funds (Exhibit 4)

\$ 166,452

Amounts reported for Governmental Activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets, which meet capitalization requirements, is allocated over their estimated useful lives and reported as depreciation expense. This amount includes the adjustment for capital outlay expenditures capitalized (\$227,535 of total capital outlay of \$253,760 met the capitalization requirements) offset by depreciation expense (\$126,557) and the disposal of assets (\$6,031) in the current period. In addition, the City had donated capital assets of \$10,287 in 2022 which is not reported in the governmental funds.

105,234

Long-term assets and liabilities previously included in the governmental activities were transferred to business-type during 2022.

(2,651)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. The amount is the net effect of the reversal of prior year items against current year accruals.

18,334

The long-term liability for compensated absences is not recorded in the funds, but is reported in the statement of activities. This amount is the current year change in the liability, reported as an expense in the statement of activities.

939

Bond proceeds provide current financial resources to governmental funds, but increase long-term liabilities in the statement of net position. Repayment of bond principal are expenditure in the governmental funds, but repayment reduces long-term liabilities in the statement of net position. This amount is the amount by which bond proceeds for new bond issues (\$303,665) exceed the repayment of bond principal (\$177,412) in the governmental funds.

(126, 253)

Bond premiums are included as revenue in the funds, but capitalized and amortized over the life of the bonds in the government-wide financial statements.

2,316

Deferred amounts on refunding are included as expenditures in the funds, but are deferred and amortized over the life of the bonds in the government-wide financial statements. This amount represents the amortization in 2022 of deferred amounts on all refundings.

(3,175)

Contractually required pension contributions are reported as expenditures in the governmental funds; however, the statement of net position reports these amounts as deferred outflows.

122,155

Changes in the net pension liability, except for amounts reported as deferred inflows and deferred outflows of resources, are reported as pension expense in the statement of activities.

(2,653)

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

(1,624)

Change in net position of internal service funds reported with governmental activities

(3,013)

Change in net position of governmental activities (Exhibit 2)

276,061

The notes to the financial statements are an integral part of this statement.

NOTES TO THE FINANCIAL STATEMENTS

Notes to the Financial Statements December 31, 2022

NOTE A—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The state legislature established Columbus as a city in 1812. The City is a home-rule municipal corporation operating under the laws of Ohio. The City's Charter, its constitution, can only be amended by a majority of the City's voters. The City operates under the Council–Mayor form of government.

The accompanying financial statements comply with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, Statement No. 39, *Determining Whether Certain Organizations Are Component Units*, Statement No. 61, *The Financial Reporting Entity: Omnibus*, and Statement No. 80, *Blending Requirements for Certain Component Units*, in that the financial statements include all the organizations, activities, functions, and component units for which the City (the reporting entity) is financially accountable. Financial accountability is defined as the appointment of a voting majority of the component unit's board, and either (1) the City's ability to impose its will over the component unit, or (2) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the City. On this basis, the reporting entity of the City includes the folloPwing services as authorized by its charter: public service, public safety, development, health, and recreation and parks. In addition, the City owns and operates five enterprise activities: a water system, a sanitary sewer system, a storm sewer system, an electricity distribution system, and a mobility/parking system. The reporting entity also includes three joint ventures and three component units.

Joint Ventures:

• The Franklin Park Conservatory Joint Recreation District (the Conservatory District) was created by the City (Resolution 109X-90) and Franklin County (Resolution 79-90) in 1990 pursuant to authority contained in Section 755.14(B) of the Ohio Revised Code (ORC). The agreement between the City and the County that created the Conservatory District in 1990 was amended by the City (Ordinance 1794-96) and the County (Resolution 800-96) in August 1996. The amendment increased the number of members of the Board of the Conservatory District from 10 to 17. Eight members of the Board are appointed by the Mayor of the City subject to confirmation by the City's Council and six members are appointed by the County. In addition, the Governor, the Speaker of the House of Representatives and the President of the Senate of the State of Ohio each appoint one member to the Board pursuant to the authority contained in Section 755.14(B)(2) of the ORC. State appointed members are nonvoting members if they also serve as members of the Ohio General Assembly; no member presently serves in both roles. The Mayor of the City, therefore, does not appoint a voting majority of the Board.

The City contributed certain capital assets to the Conservatory District at the time of its inception and has agreed to an annual operating subsidy, but subject to annual appropriation by the City's Council. Revenues, the operating subsidy, received by the Conservatory District in 2022 from the City were \$350 thousand. In addition, the City provided support of \$250 thousand in 2022 for the Conservatory District's capital needs. In the event of the Conservatory District's liquidation, its assets will be transferred to the City.

Because the City's Mayor does not appoint a voting majority of the Conservatory District's Board and multiple governments participate in the board appointment process, the City accounts for and reports the financial activity of the Conservatory District as a joint venture pursuant to GASB Statements No. 14, 39, 61, and 80. The Conservatory District's financial statements may be obtained from The Franklin Park Conservatory Joint Recreation District at 1777 East Broad Street, Columbus, Ohio 43203. Other information about the Conservatory District can be obtained on their website at www.fpconservatory.org.

• The Affordable Housing Trust for Columbus and Franklin County (AHT) was initially created as the Columbus Housing Trust Corporation, with Articles of Incorporation (Articles) filed with the Ohio Secretary of State on August 31, 2000. Amended Articles were then filed for AHT in May 2001. No single government or government official appoints a majority of the Board members. All are jointly appointed. In 2022 the City

Notes to the Financial Statements, continued

provided cash assistance to AHT of \$1.9 million applicable to fiscal year 2022 hotel-motel tax. The City is committed through its legislation to provide a portion of its hotel-motel tax collections to AHT each year into the future.

Since the Mayor does not singularly appoint a voting majority of AHT's board of trustees and multiple governments participate in both the board appointment process and the financial support of AHT, the City accounts for and reports the financial activity of AHT as a joint venture pursuant to GASB Statements No. 14, 39, 61, and 80. AHT's financial statements may be obtained from The Affordable Housing Trust for Columbus and Franklin County, 175 S. 3rd Street, Suite 1250, Columbus, OH 43215. Other information about AHT can be located on their website at www.hztrust.org.

• The Columbus-Franklin County Finance Authority (the Finance Authority) was created by the City (Ordinance 0540-2006) and Franklin County (Resolution 200-06) in March 2006 pursuant to authority contained in Section 4582.21 through 4582.59 of the Ohio Revised Code (ORC). The Finance Authority is governed by a nine-member Board of Directors, each of whom shall serve for a term of four years, of which four (4) shall be appointed by the Mayor of the City, with the advice and consent of City Council, four (4) shall be appointed by the Board of County Commissioners of the County of Franklin, Ohio, and one (1) shall be a joint appointment. The Finance Authority is considered a joint venture of the City and the County. The Finance Authority's financial statements may be obtained from The Columbus-Franklin County Finance Authority, 300 Spruce Street, Suite 220, Columbus, Ohio 43215. Other information about the Finance Authority can be located on their website at www.columbusfinance.org.

Related Organizations:

A New Community Authority (NCA) is a separate public body governed by a board of trustees that may
oversee, coordinate, construct and finance public infrastructure improvements and community facilities.
Ohio Revised Code Chapter 349 provides the authority and procedures for forming and governing an NCA.

Formation of an NCA is initiated by a petition signed by all of the owners of the real property to be included within the boundaries of the NCA. When more than half of the NCA is located within the City of Columbus, the Columbus City Council serves as the "organizational board of commissioners" and approves the petition.

The City is involved with several NCAs of which it appoints the majority of the board of trustees. Those NCAs are not part of the City's reporting entity as there is no financial benefit or burden relationship. The City does not guarantee any NCA debt and does not have access to the NCA's resources. In addition, the City does not have the ability to impose its will on the NCA by removing board members at will or influencing management decisions. The City accounts for and reports the financial activity of the NCAs as related organizations pursuant to GASB Statements No. 14, 39, 61, and 80.

Component units:

• The RiverSouth Authority (RiverSouth) came into existence in 2004 as a result of the following statutes. The Columbus City Council, via ordinance no. 2446-03, approved on November 19, 2003, authorized the City Clerk to initiate the process to create The RiverSouth Authority, a new community authority as provided for under Ohio Revised Code (ORC) Chapter 349. The City Council continued the process by establishing the time and place for a public hearing on the matter via Ordinance No. 451-04 approved on March 17, 2004. The public hearing was held at 5:00 p.m. on Monday, April 19, 2004 in City Council Chambers. The Council, via Ordinance No. 1007-04, approved June 23, 2004, created "The RiverSouth Authority" as a body politic and corporate.

The Board of Trustees of the Authority, pursuant to the creating Ordinance 1007-04, consists of nine members. The City appoints five members including one local government representative. The Developer, The Columbus Downtown Development Corporation, a private entity, appoints the remaining four members. RiverSouth encompasses several square blocks in the core of Columbus's downtown, and, as indicated in the background of the ordinance, all to be developed and redeveloped for the conduct of commercial,

Notes to the Financial Statements, continued

residential, cultural, educational, and recreational activities. Continuing in the downtown area the Authority's boundaries were extended in 2017.

Because the City appoints a majority of the Board of Trustee members of RiverSouth and because of RiverSouth's financial dependency on the City, a component unit relationship is deemed to exist. Because RiverSouth's total debt outstanding is expected to be repaid with City resources, it is reported as if it were part of the City (blended). See Note Q – Component Units – for additional disclosures regarding RiverSouth.

Certain inter-dependent transactions occurred pursuant to the following. Ordinance No. 1009-2004, approved by Council on June 23, 2004, authorized the City's Director of Development to execute a lease agreement and first supplemental lease agreement with RiverSouth whereby the City leased certain land, approximately 1.621 acres, from RiverSouth and recognized certain projects and costs to be undertaken by RiverSouth. The RiverSouth Authority issued new money bonds in 2004 and 2005 to provide funds to pay the costs of acquiring and developing land and acquiring and constructing community facilities. These bonds were authorized by a Master Trust Agreement dated June 1, 2004 between the Authority and U.S. Bank National Association (as Trustee), as supplemented by the First Supplemental Trust Agreement dated June 1, 2004 and the Second Supplemental Trust Agreement dated October 1, 2005.

A portion of the 2004 bonds were refunded in 2012 pursuant to a Third Supplemental Trust Agreement, dated April 1, 2012. The remaining 2004 bonds and certain of the 2005 bonds were refunded in 2014. These bonds were for financing the initial RiverSouth project known as the Lazarus building.

In 2016 the Authority began the project known as the COSI underground garage. The Authority issued \$27.515 million of bonds to pay costs of (1) acquiring and constructing community facilities comprised of an approximately 600-space underground public parking garage and related recreation park (the "Project Facilities"), and (2) issuance of and capitalized interest on the Series 2016 Bonds.

On September 29, 2016, the City and RiverSouth entered into a ground lease, wherein the City, as the fee owner pursuant to a quitclaim deed dated January 3, 1989 and recorded as Vol. 12833, Pg. C10, Franklin County Recorder's Office, leased to RiverSouth an approximate 6.344 acre tract of real property on the Scioto Peninsula for a period of forty (40) years. The City and RiverSouth also entered into a Master Lease Agreement and First Supplemental Lease, both dated September 1, 2016, (collectively the "Lease") to provide for RiverSouth financing the construction of an underground public parking garage and related recreational park. Under the terms of the Lease RiverSouth agreed to issue debt and to lease to the City the Project Land (as defined in the Master Lease, being the 6.344 acre tract), excluding improvements. In exchange the City agreed to pay rent equal to the Bond Service Charges on RiverSouth issued debt commencing January 1, 2018, with initial payment due on June 1, 2018. RiverSouth and City entered into a Second Supplemental Lease on March 1, 2017 wherein RiverSouth also leases to the City the Project (as defined in the Master Lease, thereby additionally leasing the Capital Facilities i.e. improvements) until December 31, 2022, with successive automatic one-year renewals thereafter.

The RiverSouth bonds are payable from the revenues provided by the City and are subject to annual appropriations by City Council. The City provided \$8.9 million in lease payments to RiverSouth during 2022.

As of December 31, 2022 the remaining outstanding RiverSouth bonds were:

	(in thousands)				
Series 2012 (final maturity 2024)	\$	6,245			
Series 2014 (final maturity 2025)		10,265			
Series 2016 (final maturity 2041)		23,960			
	\$	40,470			

The Columbus Next Generation Corporation (CNGC) came into existence in 2012 as a result of Columbus
City Council ordinance no. 1968-2012, approved on October 1, 2012, which authorized the establishment of
a non-profit development corporation. CNGC was formed for the purpose of advancing, encouraging and
promoting the industrial, economic, commercial development including the elimination of blight and creation

Notes to the Financial Statements, continued

of job opportunities pursuant to O.R.C. 1702.01-99. With the City of Columbus as sole member, CNGC filed as a corporation for non-profit with the Ohio Secretary of State on October 10, 2012.

City Council has entered into contracts with CNGC to perform a variety of services to advance economic development, including but not limited to: create economic development plans for specific areas of the City; develop and promote incentives; acquire and develop real estate; and manage various related projects. In 2022 the City provided cash assistance to CNGC of \$2.041 million toward these contracts.

 Beginning 2019 it was determined that the Board of Health was a legally separate entity under GASB Statement 61, The Financial Reporting Entity, updated for GASB 80, Blending Requirements for Certain Component Units.

The Board of Health provides public health services, and is a body politic and corporate. The Mayor of Columbus appoints the Board of Health board members and they are approved by the Columbus City Council. The City provides operating support, approves the budget, and has operational responsibility for the Board of Health. The Board of Health's total debt outstanding is expected to be repaid entirely with resources of the City. Based on the factors, the Board of Health is reported as a blended component unit. It's included as a major fund in the governmental statements due to its significance to the City.

See Note Q for further information on the Board of Health component unit.

The accounting policies and financial reporting practices of the City conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units.

In October 2021, the GASB issued GASB Statement No. 98, *The Annual Comprehensive Financial Report*. This statement establishes the term *annual comprehensive financial report* and its acronym *ACFR*. The new term and its acronym replace instances of comprehensive annual financial report and its acronym in generally accepted accounting principles for state and local governments. These changes were incorporated herein.

In June 2017, the GASB issued GASB Statement No. 87, *Leases*. This statement establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. Statement 87 was evaluated for implementation by the City for the year ended December 31, 2022 and deemed immaterial to the financial statement as a whole. The City will continue to evaluate this Statement each year for future reporting.

In June 2022, the GASB issued GASB Statement No. 101, *Compensated Absences* effective for fiscal years beginning after December 15, 2023, with early application encouraged. This statement provides updated guidance and a unified model for the recognition and measurement for compensated absences, as well as amending certain previously required disclosures. Statement 101 was early implemented by the City for the year ended December 31, 2022, which resulted in additional disclosures in Note B (g).

The following is a summary of the City's significant accounting policies:

(a) Government-wide and fund financial statements

Financial information of the City is presented in this report as follows.

- Management's discussion and analysis introduces the basic financial statements and provides an analytical overview of the City's financial activities.
- · Basic financial statements:
 - Government-wide financial statements consist of a statement of net position and a statement of activities.

Notes to the Financial Statements, continued

These statements report all of the assets, liabilities, revenues, expenses, and gains and losses of the City as a whole. Governmental activities are reported separately from business-type activities. Governmental activities are normally supported by taxes and intergovernmental revenues whereas business-type activities are normally supported by fees and charges for services and are usually intended by management to be financially self-sustaining. Fiduciary funds of the City are not included in these government-wide financial statements; however, separate financial statements are presented for the fiduciary funds.

Interfund receivables and payables between governmental and business-type activities have been eliminated in the Government-wide Statement of Net Position. These eliminations minimize the duplicating effect on assets and liabilities within the governmental and business-type activities total column.

Internal service fund balances, whether positive or negative, have been eliminated against the expenses and program revenues shown in the governmental activities Statement of Activities. Interfund services provided and used are not eliminated in the process of consolidation.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the City and for each function of the City's governmental activities.

Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

• Fund financial statements consist of a series of statements focusing on information about the City's major governmental and enterprise funds. Separate financial statements are presented for the governmental, proprietary, and fiduciary funds. Fund financial statements are designed to present financial information of the City at a more detailed level. The focus of governmental and enterprise fund financial statements is on major funds, each presented separately. Nonmajor funds are presented in an aggregated column. Internal service funds are aggregated and presented on the face of the proprietary fund statements. Fiduciary funds are reported by type.

The City maintains various nonmajor internal service funds which are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the government, generally on a cost reimbursement basis. The largest of these funds account for fleet management services, electronic information services, and employee benefits.

Also maintained by the City are fiduciary funds such as custodial funds used to account for assets held by the government for individuals, private organizations, or other governments.

- Notes to the financial statements provide information that is essential to a user's understanding of the basic financial statements.
- Required supplementary information, such as budgetary comparison schedules, net pension and OPEB liability/asset and pension contribution information, is required by GASB. The City maintains budgetary controls by not permitting expenditures to exceed appropriations at the Object Class level for each division within each fund.

Notes to the Financial Statements, continued

(b) Financial reporting presentation

The accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures (expenses). Fund types are as follows:

GOVERNMENTAL FUNDS

Governmental funds account for most of the City's activities. The following are the City's major governmental funds:

General Fund – The General Fund is the accounting entity in which all governmental activity, except that which is required to be accounted for in other funds, is accounted for. Its revenues consist primarily of taxes, investment income, licenses and permits, intergovernmental shared revenue, charges for services, fines, and other. General Fund expenditures represent costs of general government; public service, including garbage collection; public safety, including fire, police, and communications; certain development costs, and other. Resources of the General Fund are also transferred annually to support services such as public recreation and public health, which are accounted for in separate special revenue funds.

Board of Health Fund – The Board of Health special revenue fund reports the City's health activities including communicable disease investigations, immunization clinics, inspections, and public health nursing services. In addition, the Board of Health issues health-related licenses and permits. Revenues consist of operating support from the General Fund, grants, charges for service, and license and permits.

Special Income Tax Fund – The Special Income Tax debt service fund is used to account for the accumulation of resources for and the payment of general obligation debt; principal, interest, and related expenditures. Revenues consist primarily of a portion of the City's income tax.

The other governmental funds of the City account for grants and other resources to which the City is bound to observe constraints imposed upon the use of the resources.

PROPRIETARY FUNDS

Enterprise Funds—Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises—where the intent of the governing body is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. The City has separate enterprise funds for its water, sanitary sewer, storm sewer, electricity services, and mobility services. The following are the City's major enterprise funds.

Water Fund – The Water enterprise fund accounts for all financial activity related to the City water services. The City collects, purifies, and sells water to City residents and certain suburban areas. Water is collected from surface areas (rivers and reservoirs) and wells. The City has three water treatment plants. Revenues consist primarily of user charges.

Sanitary Sewer Fund – The Sanitary Sewer enterprise fund accounts for all financial activity related to the City's sanitary sewer services. The City collects and treats effluent of City residents and residents of certain suburban areas. The City has two sewerage treatment plants. Revenues consist primarily of user charges.

Storm Sewer Fund – The Storm Sewer enterprise fund accounts for all financial activity related to the City storm sewer services. Revenues consist primarily of user charges used to manage the storm water collection systems.

Notes to the Financial Statements, continued

Electricity Fund – The Electricity enterprise fund accounts for all the financial activity related thereto. The City purchases, but does not generate, and sells electricity to its residential and commercial customers. Revenues consist primarily of user charges.

The Mobility fund, a nonmajor enterprise fund, accounts for City-owned parking garages, on-street parking and curb lane management programs, as well as, other mobility initiatives of the Division of Parking Services. Prior to 2022, this enterprise fund was known as the Garage enterprise fund and was only used to account for two City-owned garages. Effective January 1, 2022, the Mobility enterprise fund was created to account for all parking and mobility related financial activity in a self-supporting fund. City Ordinance 2994-2021 called for the transfer of all assets and liabilities associated with the Parking Meter Program special revenue fund, the Parking Meter Contribution special revenue fund, and the Garage enterprise fund into the newly created Mobility enterprise fund. Revenues consist primarily of charges for services including parking garage fees, parking meter and permit collections and parking ticket fines.

Internal Service Funds—Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the City, generally on a cost-reimbursement basis. The internal service funds account for the City's self-insured employee benefits; workers compensation; fleet management; information services; mail, print and term contracts; construction inspection; and land management services.

FIDUCIARY FUNDS

Custodial Funds—Custodial Funds are used to account for assets held by the City for individuals, private organizations, or other governments. Assets held for other governments mainly include utility charges collected by the City on behalf of other governments. Assets held for individuals include property held in the Police Property Room. Custodial Funds also account for hotel/motel taxes collected within Franklin County, Ohio that are not incorporated by the City, special assessments collected for Special Improvement Districts, and fines and court costs collected by the Franklin County Municipal Court. Custodial funds focus on the additions and deductions from the fiduciary fund's net position.

(c) Measurement focus and basis of accounting

Except for budgetary purposes, the basis of accounting used by the City conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus. The government-wide, proprietary, and fiduciary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the City gives (or receives) value without directly receiving (or giving) equal value in exchange, include income taxes, property taxes, grants, shared revenue (unrestricted, intergovernmental revenue) and donations. On an accrual basis, revenue from income taxes is recognized in the period in which the taxpayer's liability occurs and revenue from property taxes is recognized in the fiscal year for which the taxes are levied. On an accrual basis, revenue in the form of shared revenue is recognized when the provider government recognizes its liability to the City. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The City considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures when payment is due. General capital asset acquisitions are reported as

Notes to the Financial Statements, continued

expenditures in governmental funds. Proceeds of general long-term debt are reported as other financing sources.

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(d) Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed in all funds. On the GAAP basis of accounting, encumbrances do not constitute expenditures or liabilities. There were outstanding encumbrances in the three major governmental funds at December 31, 2022: \$84.6 million in the General Fund, \$14.0 million in the Board of Health and \$72.2 million in the Special Income Tax Fund. In addition, encumbrances in the Other Governmental funds at December 31, 2022 totaled \$515.3 million. Funds may be encumbered when they are collected or in process of being collected.

(e) Cash Equivalents

For purposes of the statement of cash flows, the Proprietary funds consider all highly liquid investments held by trustees, with an original maturity of three months or less when purchased, to be cash equivalents. In addition, all cash and investments with treasurer are also considered to be cash equivalents because they are available to the Proprietary funds on demand.

(f) Investments

In accordance with GASB Statement No. 72, Fair Value Measurement and Application, the City records all of its investments at fair value as defined in the statement. The City does not engage in any form of derivatives or reverse repurchase agreements in the management of its investment portfolio. Only eligible investments with final maturities not greater than five years from time of purchase are permitted. The City's cash and investments are further explained in Note C.

(g) Inventory

Inventory is valued at cost utilizing the first-in, first-out method for enterprise funds and the average cost method for internal service funds. Items considered as inventory in the enterprise funds and internal service funds are accounted for as expenditures when acquired by governmental funds.

(h) Capital Assets

Capital assets, which include property, plant and equipment, and infrastructure (e.g. roads, curbs and gutters, streets and sidewalks, and drainage systems) are reported in the applicable governmental or business-type activity columns in the government-wide financial statements. The City defines capital assets as assets with an estimated useful life of five years or more from the time of acquisition by the City and a cost of \$5,000 or more. Such assets are recorded at historical cost or estimated historical cost (for certain assets acquired prior to 1960). Pursuant to the implementation of GASB Statement No. 34, the historical cost of infrastructure assets (retroactive to January 1, 1979) is included as part of the governmental capital assets reported in the government-wide statements. Donated assets are recorded at acquisition value at the date of donation. Acquisition value is the price that would be paid to acquire an asset with equivalent service potential in an orderly market transaction at the acquisition date.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Notes to the Financial Statements, continued

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant and equipment, and infrastructure are depreciated using the straight line method over the following estimated useful lives:

	Estimated Lives
Description	(years)
Information processing equipment	5-7
Trucks	8
Equipment, furniture, and fixtures	10
Heavy rescue equipment	25
Buildings, infrastructure, water lines, and fire hydrants	40
Sewer mains and certain water assets	75-100

(i) Deferred Outflows of Resources

In addition to assets, the statements of financial position will report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the City, deferred outflows of resources are reported on the government-wide statement of net position for deferred charges on refunding, pension and OPEB.

(j) Deferred Inflows of Resources

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period and will not be recognized until that time. For the City, deferred inflows of resources include property taxes, pension, OPEB, and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of December 31, 2022, but which were levied to finance fiscal year 2023 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the City, unavailable revenue includes delinquent property taxes and income taxes. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. The details of these unavailable revenues are identified on the Reconciliation of the Governmental Fund Balances to Net Position of Governmental Activities. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide statement of net position.

(k) Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension and OPEB liability/asset, deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value. Each year's net pension or OPEB liability liquidation is proportionately funded by the governmental and enterprise funds to which the employee's payroll is charged (see Note K for further information related to pension and OPEB plans).

(I) Insurance

The City assumes the liability for most property damage and personal injury risks. Judgments and claims, including those incurred but not reported as of year-end, are recorded when it is probable that an asset has been impaired or a liability has been incurred and the amount of loss can be reasonably estimated. The City

Notes to the Financial Statements, continued

insures all of its boilers, and covers selected property locations, major buildings and vehicles stored overnight at various locations. The City's boiler and machinery insurance has a maximum loss value of \$100,000,000 with a \$25,000 deductible. The City's property casualty policy for selected non-utility locations has a maximum loss value of \$500,000,000 with a \$250,000 deductible for losses not associated with flooding. The City's property casualty policy for selected public utility locations has a maximum loss value of \$500,000,000 with a \$250,000 deductible for losses not associated with flooding. The City carries \$1,000,000 in base liability per occurrence and \$5,000,000 in excess liability insurance associated with the operation of its compressed natural gas (CNG) fueling station located on its Fleet Management Operations site at 4211 Groves Road, for the CNG fueling station located at 2333 Morse Road, and a fueling center located at 5115 Krieger Court. No losses occurred in the last three years that exceeded insurance coverage.

The City's Division of Police currently operates a fleet of five jet-powered helicopters of which four are insured for a value \$2,600,000 each and one is insured for a value of \$3,400,000. Liability insurance for bodily injury and property damage is carried on all helicopters at \$20,000,000 per loss occurrence and \$1,000,000 per passenger seat. There is no deductible for the liability coverage. All five operating aircraft are insured against casualty loss (physical damage) with a deductible of one (1) percent of the hull value for losses sustained while the unit is in motion. Specified additional accessory equipment used during flight operations is also insured at full value by an endorsement with a deductible of \$1,000 per loss occurrence. Extended engine physical damage coverage is carried at \$300,000 for each engine with a \$10,000 deductible.

Additionally, the City provides medical, dental, vision, and short-term disability coverage for its employees on a self-insurance basis. Expenses for claims are recorded on a current basis based on an actuarially determined charge per employee. The City accounts for such activity in an internal service fund.

A summary of changes in self-insurance medical claims liability follows:

	<u>(in thousands)</u>						
	<u>2022</u> <u>2021</u> <u>2020</u> <u>2019</u>				2018		
Claims liability at January 1	\$ 18,312	\$ 15,558	\$ 15,450	\$ 16,450	\$ 15,700		
Incurred claims, net of favorable settlements	192,096	189,330	177,002	185,077	187,961		
Claims paid	(190,589)	(186,576)	(176,894)	(186,077)	(187,211)		
Claims liability at December 31	\$ 19,819	\$ 18,312	\$ 15,558	\$ 15,450	<u>\$ 16,450</u>		

Claims are accrued based upon estimates of the claims liabilities made by management and the third-party administrator of the City. These estimates are based on past experience and current claims outstanding. Actual claims experience may differ from the estimate. An actuary was used in the determination of the current liability. This claims liability is recorded in the Internal Service Fund as claims and judgments.

The City is partially self-insured for its workers' compensation costs in conjunction with the Ohio Bureau of Workers' Compensation for fiscal years 2013 through 2014. Expenses for claims are recorded on the current basis based on an actuarially determined charge per employee. The City accounts for the activities of this program in an internal service fund. Workers' compensation is fully insured with the Ohio Bureau of Worker's Compensation for claims incurred during fiscal years 2015 through 2022. Premiums for 2023 were prepaid and are included in other assets on the Statement of Net Position.

A summary of changes in self-insurance worker's compensation claims liability follows:

	<u>(in thousands)</u>							
	2022	2021	2020	2019	2018			
Claims liability at January 1	\$ 6,773	\$ 11,525	\$ 16,874	\$ 22,739	\$ 27,189			
Incurred claims, net of favorable settlements	(1,148)	(2,707)	(1,834)	(2,865)	(1,886)			
Claims paid	<u>(2,665)</u>	(2,045)	(3,515)	(3,000)	(2,564)			
Claims liability at December 31	\$ 2,960	\$ 6,773	\$ 11,525	\$ 16,874	\$ 22,739			

Notes to the Financial Statements, continued

(m) Advances from Grantors

Advances from grantors are recorded when cash is received prior to being earned.

(n) Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year. Net pension/OPEB liability is recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits. The governmental net pension/OPEB liability reported on the government-wide financial statements are liquidated from the governmental funds to which the employee's payroll is charged.

City employees are granted vacation and sick leave in varying amounts. In the event of termination, an employee is reimbursed for accumulated vacation and sick leave at various rates.

Vacation accumulated is reported as an expense when earned in the proprietary fund and government-wide financial statements. Sick leave accumulated is reported as an expense when earned and expected to be paid at termination in the proprietary fund and government-wide financial statements. Vacation and sick leave accumulated by governmental fund type employees is not reported as an expenditure in the governmental fund financial statements, as current financial resources are not used. When paid, the compensated absences for governmental activities are paid from the fund to which the employee's payroll is charged. In 2022, 92% of governmental activities compensated absences were liquidated from the General Fund and 2% were liquidated from the Board of Health fund, while 64% of business-type activities compensated absences were liquidated from the water enterprise fund and 24% were liquidated from the sewer enterprise fund.

Payment of vacation and sick leave is dependent upon many factors; therefore, timing of future payments is not readily determinable. However, management believes that sufficient resources will be made available for the payment of vacation and sick leave when such payments become due.

(o) Debt Issuance Costs, Premiums, Discounts, and Deferred Amounts on Refundings

Bond premiums and discounts, as well as deferred amounts on refundings, are capitalized and amortized over the life of the bonds. Debt issuance costs are expensed when incurred.

(p) Interfund Transactions

The City has the following types of transactions among funds:

- 1) Reciprocal interfund loans: Amounts provided by one fund to another with a requirement for repayment.
- 2) Reciprocal interfund services provided and used: Purchases and sales of goods and services between funds for a price approximating their external exchange value.
- 3) Nonreciprocal interfund transfers: Flows of assets between funds without equivalent flows of assets in return and without a requirement for repayment. This includes payments in lieu of taxes that are not payments for, and are not reasonably equivalent in value to, services provided.
- 4) Nonreciprocal interfund reimbursements: Repayments from the funds responsible for particular expenditures or expenses to the funds that initially paid for them.

(q) Budgetary Information

Annual budgets are adopted for all governmental funds other than blended component units and capital projects funds on a basis other than GAAP in that revenues are recorded when received in cash and

Notes to the Financial Statements, continued

expenditures are recorded when encumbered or paid in cash. Capital projects funds adopt project-length budgets at the time bonds are sold or other funding sources are determined. The City maintains budgetary controls by not permitting expenditures to exceed appropriations at the object level for each division within each fund and subfund.

(r) Net Position

Sometimes the City will fund outlays for a particular purpose from both restricted and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. Since the City does not have a formal policy for flow of net position, it considers restricted net position to have been depleted before unrestricted net position.

At December 31, 2022, \$83.619 million of the City's \$220.265 million in governmental activities restricted net position on the Statement of Net Position were restricted by enabling legislation, as defined by GASB Statement No. 46, *Net Assets Restricted by Enabling Legislation*. The governmental activities amount restricted for "Other purposes" of \$136.646 million included the following: \$85.695 million for mobility options; \$13.729 million for building, housing and economic incentives; \$6.385 million for protection and enforcement; \$4.514 million for municipal court/justice; \$2.742 million for life enrichment; \$11.248 million for wellness and prevention; and \$12.333 million for sustainability.

Net investment in capital assets, a component of net position, is not spendable. The balance represents the portion of net position related to the reported capital assets and those liabilities and deferred resource flows resulting from their acquisition. The balance is calculated as follows (in thousands):

			1	Business
	Go	vernmental		type
		A <i>ctivities</i>		<i>ctivities</i>
Capital Assets:				
Land and construction in progress	\$	343,284	\$	170,077
Other capital assets, net of accumulated depreciation		3,034,060		4,416,581
Adjustments:				
Notes, demand, and bonds payable Add back:		(1,838,298)		(3,226,474)
RiverSouth, component unit debt		17,862		26,997
Outstanding debt with no underlying asset		-		772
Deferred outflow - refunding		11,277		24,059
Unspent bond proceeds		402,114		353,305
Payables from restricted assets		(13,116)		(9,855)
	\$	1,957,183	\$	1,755,462

(s) Other Significant Accounting Policies

Pursuant to local statute and determined by an internal cost allocation plan, certain costs initially borne by the General Fund are then billed as direct charges to other funds of the City. Revenues from these charges are accounted for in the government-wide Statement of Activities as general government and in the governmental funds Statement of Revenue, Expenditures, and Changes in Fund Balances General Fund as charges for services. The corresponding expenses appear as function/program costs in the Statement of Activities.

Notes to the Financial Statements, continued

The City, in its proprietary funds, accounts for all recurring type revenues, including all revenues which the City controls through statutory pricing or regulatory authority, as operating revenues and all recurring type expenses as operating expenses. Non-recurring revenues such as gains on sales of assets and revenues over which the City has minimal or no control, primarily interest earnings, are accounted for as non-operating revenues. Interest expense and other non-recurring expenses, over which the City has minimal or no control, are reported as non-operating expense.

The City complies with all restrictions governing the use of restricted assets. Such restrictions do not offer discretion regarding use of these resources in an unrestricted manner. Where capital funds, usually bond proceeds, are available capital assets are acquired from such resources. Capital assets can be, however, and to a lesser amount are, acquired from unrestricted resources.

NOTE B—COMMITMENTS AND CONTINGENCIES

(a) Litigation

The City is a defendant in a number of lawsuits pertaining to matters that are incidental to performing routine governmental and other functions. The City has recorded a liability for claims deemed to be probable and measurable. Based on the current status of all the remaining legal proceedings, it is the opinion of management that ultimate resolution of such will not have a material effect on the City's financial statements.

(b) Federal Grants

Under the terms of federal grants, periodic audits are required and certain costs may be questioned as not being appropriate expenditures under the terms of the grants. Such audits could lead to reimbursements to the grantor agencies. While questioned costs may occur, ultimate repayments required of the City have been infrequent in prior years.

(c) Franklin County Convention Facilities Authority (CFA) – Convention Facility

The CFA is a separate and distinct entity created under the laws of Ohio. In June 1990, the CFA issued lease revenue bonds for the purpose of constructing a convention facility in downtown Columbus. Also in June 1990, the City and the County of Franklin, Ohio (the County) entered into a lease/sublease arrangement with the CFA pursuant to which the City and the County leased the convention facility as tenants in common from the CFA. The City and the County subleased the facility back to the CFA. The lease requires that the City and the County each pay rent to the CFA in an amount equal to one half of the debt service on the revenue bonds. Under the sublease, the CFA is required to pay rent to the County and the City in an amount equal to such debt service. Such sub rental payments are expected to be derived from the hotel/motel excise tax levied by the CFA, and if such tax is insufficient, from earnings on, and the principal amount of, certain reserve funds created in connection with the issuance of the revenue bonds. If the foregoing amounts are insufficient, the City agreed in the lease to apply that portion of the hotel/motel tax levied by the City and currently paid by the City to a convention and visitor's bureau to the payment of rentals under the lease. If, after the application of the foregoing amounts, additional amounts are required to meet the City's and the County's obligations under the lease, such amounts will be paid by the City and the County, in equal shares, from their general resources, provided that their respective legislative bodies have appropriated funds for such purpose. No such payments were necessary prior to or during 2022. The lease will terminate as to the City and the County if their respective legislative bodies fail to appropriate amounts required for rentals thereunder. In 2014, approximately \$160 million of new bonds were issued to support the expansion of the Convention Center. These bonds also carry the City's debt service pledge. A portion of the 2007 bond series were refunded as part of this debt issue. On September 22, 2020, the CFA issued \$202,705 million in tax and lease revenue anticipation refunding bonds to advance and current refund portions of the CFA's outstanding convention center bonds, as well as replenish and increase funding in the CFA's Rental Reserve Fund, further capitalize the Debt Service Reserve Fund and pay costs of issuance. As a result of this transaction the total amount of these revenue bonds outstanding at

Notes to the Financial Statements, continued

December 31, 2022 was \$243.689 million net of premiums and deferred amounts of refunding of negative \$8.476 million, or a gross amount of \$252.165 million.

(d) Franklin County Convention Facilities Authority (CFA) - Nationwide Arena

In February 2012, the CFA issued lease revenue bonds for the purpose of acquiring the Nationwide Arena, which is located in the Arena District. In connection with such acquisition, and to provide funds for a portion of the acquisition price, the City and Franklin County have entered into a lease-sublease arrangement (the "Arena Lease") with the CFA pursuant to which the City and the County has each agreed to pay a portion of its respective "casino tax receipts" (defined below) to the CFA, which will, in turn, pledge such payments to the payment of debt service on indebtedness incurred by the CFA to acquire the Nationwide Arena. Pursuant to Section 6, Article 15 of the Ohio Constitution, the State is required to collect a tax on each of the casinos authorized by that section and distribute such moneys (the "casino tax receipts") to each host county and City in which a casino is located. The Columbus casino opened October 2012. Under the Arena Lease, 25 percent of the City's annual casino tax receipts was paid to the CFA through 2015. After 2015 the percentage of annual casino tax receipts payable under the Arena Lease increases by one percent each year to a maximum of 32 percent beginning in 2022. The City paid \$4.410 million to CFA in 2022 under the Arena Lease, which represented 32 percent of the City's annual casino tax receipts.

The Arena Lease is anticipated to be effective for 26 years (through 2037), subject to extension or earlier termination upon certain circumstances. No additional general funds of the City will be pledged or encumbered to the payment of any of the City's obligations under the Arena Lease and any of the City's payment obligations under the Arena Lease will be subject to annual appropriation being made by City Council and will be payable solely from, and only to the extent of, any casino tax receipts. In 2019, the City entered into an amended economic agreement, which allow for certain TIF revenue to pay down the Arena securities. On January 30, 2020, the CFA issued a \$51,500,000 Second Lien Convention Facilities Authority Arena Lease Refunding Revenue Bond, Series 2020 to refund \$61,479,023 (including outstanding principal and accrued interest) of outstanding Series 2012 Second Lien Arena Lease Revenue Bonds. The Series 2020 refunding bond matures on December 15, 2029. The principal amount of the refunding bond which is outstanding after the maturity date shall bear interest at the rate of four percent per annum until the principal amount thereof is paid. Such obligation will be paid from funds held by the CFA.

(e) Franklin County Convention Facilities Authority (CFA) - Hotel

Under a Cooperative Agreement among the CFA, the County of Franklin, Ohio and the City, dated January 1, 2010, the City has committed to provide funding from two revenue sources to assist the Authority in paying the debt service on bonds issued by the CFA to finance the construction of a new hotel. The City's payment obligation consists of making annual payments to the CFA of all City Hotel-Motel Excise Tax collections levied on the new hotel and to maintain a fund of \$1.4 million from the incremental parking meter receipts resulting from increases in the City's parking meter charges after 2009 which funds would be available for debt service, if needed. This \$1.4 million is included in the Mobility enterprise fund. The City paid \$1.06 million to CFA from the City Hotel-Motel Excise Tax collections in 2022 under the Cooperative Agreement.

In 2019, the CFA issued approximately \$151.815 million in Hotel Project Revenue Bonds and \$91.765 million in Lease Appropriation Bonds to support the expansion of the convention hotel. The Hotel Project Revenue Bonds are paid solely from certain revenues received by the Authority and moneys held in Project Revenue Bonds Special Funds. The Hotel Project Revenue Bonds are secured by and are payable from Net Operating Income and moneys and investments in the CFA Bond Fund and the Phase II CFA Hotel Project Funds prior to those amounts being available for rent payments by the Authority to the City and County with respect to the Lease Appropriation Bonds. The Lease Appropriation Bonds are payable solely from limited rent payments from the City and the County and amounts in certain funds and accounts established under the trust indenture for the Lease Appropriation Bonds. The City and County each agreed to rent payments equal to one half the debt service on the Lease Appropriation Bonds, if hotel revenues are insufficient. The obligation of each of the City and the County to make such rent payments during each fiscal year is subject to appropriation by the respective

Notes to the Financial Statements, continued

governing bodies. The total amount of these Lease Appropriation Bonds outstanding at December 31, 2022 was \$91.765 million, net of bond premiums of \$17.183 million, for a total gross amount of \$108.948 million.

(f) Electricity Purchase Power Agreement

The City's Electricity Enterprise celebrated its 123rd year of operation in 2022. The Enterprise served 434 industrial customers, 3,144 commercial customers and 13,863 residential customers for a total of 17,441 in 2022. The Enterprise received approximately \$21.4 million (25.4 percent) of its operating revenue from other funds of the City for electric power. The Enterprise purchases and resells power. It does not generate power.

The City's Electricity Enterprise received the bulk of its power supply in 2022 from American Municipal Power (AMP). Agreements are in place for AMP to provide power supply for the Enterprise through December 31, 2025. As a municipal system in a border state of the Great Lakes, the Enterprise continues to receive a small allocation of hydroelectric power from the New York Power Authority. This allocation has been utilized by the City since the 1980's.

(g) Compensated Absences and Termination Benefit Arrangement

In June 2022, the GASB issued GASB Statement No. 101, *Compensated Absences* effective for fiscal years beginning after December 15, 2023, with early application encouraged. This statement requires that liabilities for compensated absences be recognized for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. A liability should be recognized for leave that has not been used if (a) the leave is attributable to services already rendered, (b) the leave accumulates, and (c) the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. GASB Statement No. 101 establishes guidance for measuring a liability that has not been used, generally using an employee's pay rate as of the date of the financial statements. In addition, certain salary-related payments that are directly and incrementally associated with the payments for leave should be include in the measurement of the liability.

Historically, the City has accounted for compensated absences in accordance with GASB Interpretation No. 6; Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statement, which closely follows the guidance provided in GASB Statement No. 101. As such, the implementation of this statement for the year ended December 31, 2022, does not materially change the compensated absences liability reported on the City's financial statements and restatement of net position is not deemed necessary.

Accrued vacation and sick leave are accumulated to City employees at varying amounts and are attributable to services already rendered. At the time of the employee's termination, such accruals are paid to the employee at varying rates from the fund to which the employee's payroll is charged. Except for the unused portion of an employee's prior year's sick leave accrual, which is recorded in the fund that ultimately disburses this accrual to the employee after year end, all other accrued vacation and sick leave applicable to governmental activities is not reflected in the fund financial statements because it is not liquidated with expendable available financial resources.

NOTE C—CASH AND INVESTMENTS

Investment Policies: The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. At December 31, 2022, fair value was \$94,772,505 below the City's net cost for its investment. At December 31, 2021, fair value was \$445,108 above net cost.

Notes to the Financial Statements, continued

The City pools its cash, except for that held by revenue bond trustees, fiscal and escrow agents, and certain debt service and custodial fund cash and investments, for maximum investing efficiency. Earnings on the pool are allocated to individual funds at the discretion of the City Council after meeting revenue bond indentures and other requirements. All statutory requirements are met in distributing earnings of the pool to various funds.

The City Codes, Chapters 325 and 321, respectively, provide for a Treasury Investment Board and a Depository Commission. Both consist of the City Treasurer, who serves as chairman and represents the City Council; the City Auditor, an independently elected official; and the Director of the Department of Finance and Management, representing the Mayor; hence a check and balance process via the separation of powers.

Pursuant to these code sections, the City does not purchase any form of derivatives. The City does invest in STAR Ohio, an external investment pool managed by the State Treasurer's Office that allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the Securities Exchange Commission as an investment company, but has adopted GASB Statement No. 79, *Accounting and Financial Reporting for Certain External Investment Pools and Pool Participants*. Investments in STAR Ohio are valued on the basis of the amortized cost valuation technique. For the years ended December 31, 2022 and 2021, there were no limitations on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates.

Management of STAR Ohio states that its policy also prohibits investing in derivatives and/or engaging in the use of reverse repurchase agreements. Average days to maturity of the STAR Ohio portfolio at December 31, 2022 and 2021 was 32 and 51 days, respectively. The City is prohibited from using reverse repurchase agreements and does not leverage its investment portfolio in any manner.

Investments shall be made only through financial institutions and investment advisors approved by the Treasury Investment Board to provide investment services to the City. The approved security broker/dealers must be registered with the State of Ohio Securities Division and maintain an office in the state of Ohio.

The City's investment code limits its investments to those governmental type investments noted below. Only eligible investments with the remaining terms not greater than five years until final maturity are purchased by the Treasurer. Investments with a remaining term of greater than five years may be purchased only with the specific approval of City Council and if the security is an assessment bond or note issued by the City of Columbus, Ohio. Average days to maturity of the City's investments with the Treasurer at December 31, 2022 was 521.46 days (643.05 days at December 31, 2021).

Investments as permitted by Chapter 325 of the Columbus City Code are:

A. Bonds, notes, or other obligations of the United States government or its Agencies for which the faith of the United States is pledged for the payment of principal and interest thereon. They are:

Obligations of the United States government:

- United States Treasury Bills
- United States Treasury Notes
- United States Treasury Bonds
- United States Treasury Strips

Obligations guaranteed by the United States government:

Federal government agencies:

- Department of Housing and Urban Development
- Farmers Home Administration
- Federal Agricultural Mortgage Corporation
- General Service Administration
- Government National Mortgage Association
- Maritime Administration
- Washington Metropolitan Area Transit Authority

Notes to the Financial Statements, continued

- B. Bonds, notes, debentures, or other obligations issued by any of the federal government-sponsored enterprises listed below. They are:
 - Federal Farm Credit System
 - Federal Home Loan Banks
 - Federal Home Loan Mortgage Corporation
 - Federal National Mortgage Association
- C. The Ohio State Treasurer's Asset Reserve Funds (STAR Ohio) pursuant to Ohio Revised Code 135.45;
- D. Bonds or other obligations of the City of Columbus, Ohio;
- E. Obligations of the State of Ohio or any municipal corporation, village, county, township, or other political subdivision of the State of Ohio, as to which there is no default of principal or interest and which have been approved as to their validity by nationally recognized bond counsel;
- F. Certificates of deposits (collateralized as described below) in eligible institutions applying for moneys as provided in Chapter 321 of Columbus City Codes;
- G. Repurchase agreements which are collateralized with legally authorized securities as defined in Section 325.010 of Columbus City Code and held in third-party safekeeping designated by the City Treasurer and in the name of the City of Columbus; and
- H. Others as provided for in Ohio R.C. 135.14 for interim deposits.

Safeguarding activities call for the City's investments with the Treasurer, except for investments with STAR Ohio, investments held by revenue bond trustees, fiscal and escrow agents, and certain debt service and custodial funds, to be held in book entry form at federal reserve banks in the accounts of certain member banks-agents of the City who hold the investments in the City's name.

The revenue bond agreement of the Sanitary Sewer Enterprise requires certain cash and investments to be maintained and managed by trustees. The trustee, bank trust departments, invests these monies at the direction of the City Auditor pursuant to the revenue bond agreements.

All of the City's deposits and investments comply with State statutes, City ordinances, and applicable bond indentures.

Deposits: Custodial credit risk is the risk that, in the event of a bank failure, the City's deposits may not be returned. The City's policy is to place deposits with major local banks (as defined by Chapter 321 of the City Code) approved by the Depository Commission. All deposits, except for deposits held by fiscal and escrow agents or trustees, are collateralized with eligible securities in amounts equal to at least 105 percent of the carrying value of the deposits. Such collateral, as permitted by Chapter 135 of the ORC and Chapter 321 of the Columbus City Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system in the name of the respective depository bank, and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at a Federal Reserve Bank in the name of the City.

At December 31, 2022, the carrying amount of all City deposits, exclusive of money market funds in the amount of \$6,720,835 held by bond trustees, was \$101,737,779. Based on the criteria described in GASB Statement No. 40, *Deposits and Investment Risk Disclosures*, as of December 31, 2022, \$1,192,872 of the City's bank balance of \$97,577,179 was exposed to custodial risk as it was uncollateralized and uninsured.

The money market funds, amounting to \$6,720,835 while held by bond trustees as the City's agents and in the City's name, are also considered uncollateralized and uninsured. However, their disposition and availability are governed by bond ordinances and indentures.

Notes to the Financial Statements, continued

Investments: As of December 31, 2022, the City had the following investments and maturities (amounts in thousands):

				Inve	stment Matu	rities	
	F	air Value					Greater
		(Level 2	6 months	7 to 12	13 to 18	19 to 24	than 24
		Inputs)	or less	months	months	months	months

Not included in the fair value totals above is STAR Ohio, an external investment pool, which was recorded at amortized cost totaling \$286.4 million at December 31, 2022.

Interest Rate Risk. As a means of limiting its exposure to fair value losses arising from rising interest rates, the City's investment policy generally limits investment portfolio maturities to five years or less.

Credit Risk. The City's investments in FAMCA, FFCB, FHLB, FHLMC, and FNMA Coupon Notes were rated AA+ and Aaa by Standard & Poor's and Moody's Investor Services, respectively. The City of Columbus Assessment Bonds are general obligations of the City. The City's general obligation bond ratings by Standard & Poor's, Moody's Investor Services, and Fitch Ratings are AAA, Aaa, and AAA, respectively. Standard and Poor's has assigned STAR Ohio an AAA money market rating. The City's policy regarding credit risk is manifest in the types of investments the City is permitted to purchase as prescribed by the City Code, as described above.

Concentration of Credit Risk. The Treasury Investment Board guidelines do not place a limit on the amount which may be invested in any one issuer. Of the City's total investments, 32.9 percent are US Treasury Notes, 18.5 percent are FFCB Notes, 14.2 percent are FHLB Notes, 7.2 percent are FNMA Notes, 4.7 percent are FHLMC Notes, and 0.4 percent FAMCA Notes. All other investments not explicitly guaranteed by the U.S. government are 22.1 percent of the City's total investments, consisting mainly of commercial paper, Various Purpose Municipal Bonds, Federal Government Obligation Fund and STAR Ohio.

Custodial Credit Risk. Safeguarding activities per the City Code call for the City's investments with the Treasurer, except for investments with STAR Ohio, investments held by revenue bond trustees, fiscal and escrow agents, and certain debt service and custodial funds, to be held in book entry form at federal reserve banks in the accounts of certain member banks-agents of the City who hold the investments in the City's name. The City's investments in US Treasuries, FAMCA Notes, FFCB Notes, FHLB Notes, FHLMC Notes and FNMA Notes are held by Fifth-Third Trust at the Federal Reserve in Fifth-Third Trust's name.

The Community Development Act fund, a nonmajor governmental fund, reported negative cash of \$66 thousand as of December 31, 2022. This deficit resulted from an accrual adjustment for fair value of pooled cash and cash equivalents. The General Fund is liable for any deficit in the fund and will provide transfers when cash is required, not when accruals occur.

Housing and Urban Development (HUD) loans include Community Development Act (CDA) loans of \$20.1 million, Home Investment Partnerships (HOME) Program loans of \$93.4 million, and various other loans totaling \$6.9 million. Funds received under these programs that are loaned to eligible recipients are recorded as loans receivable. The City has recorded a \$120.4 million allowance for uncollectible HUD loans. Loans provided for certain homeownership programs are forgiven if the homeowner remains in the home for the period of affordability specified in the program rules. Although some loans are repaid because the homeowners have elected to relocate elsewhere, the repayment is limited to net proceeds after payment of the first mortgage and seller closing costs and; therefore, most repayments are minimal.

Enterprise customer and other accounts receivable include unbilled charges for services at December 31, 2022 as follows:

	(in	thousands)
Water enterprise Sanitary sewer enterprise	\$	22,983 28,930
Storm sewer enterprise Electricity enterprise		3,901 2,719
Total unbilled charges for services	\$	58,533

NOTE F—CAPITAL ASSETS

Capital assets; those assets with an estimated useful life of five years or more from the time of acquisition by the City and a cost of \$5,000 or more, are primarily funded through the issuance of long term bonds and loans. Land and construction in progress are not subject to depreciation.

A summary of capital assets and changes occurring in 2022 follows.

New Note Issue – Series 2022 Various Purpose Limited Tax Note

On November 15, 2022, the City sold \$24.300 million in limited tax notes (federally taxable), a direct placement note, along with cash reserves to retire \$27.200 million of outstanding 2021 limited tax notes in the Mobility Fund, which were due to mature on November 17, 2022. The 2022 notes mature on November 15, 2023.

New Ohio Water Development Authority

During 2022, the City received \$110.396 million in loan proceeds from the Ohio Water Development Authority (OWDA/EPA) for sanitary sewer projects, \$45.579 million in loan proceeds for water projects and \$3.490 million in loan proceeds for storm water projects. OWDA loans are direct borrowings.

Blended component unit - Lease revenue bonds		6,030
Total	\$	177,412

Notes to the Financial Statements, continued

Long-Term Notes

Except for the TIF notes, all other notes payable are backed by the full faith and credit, i.e. general obligations, of the City. Notes may be issued in anticipation of long-term bond financing and are refinanced until such bonds are issued. There are, however, long-term notes for which the debt service will be paid from current resources. Those notes are as follows.

State Infrastructure Bank (SIB): The City currently has one SIB loan, totaling \$6.255 million, which is administered and funded by the Ohio Department of Transportation. The loan, for the Hamilton Rd. S-Curve project, provides funds for roadway improvements. The SIB is a direct borrowing.

Ohio Public Works Commission (OPWC): OPWC extends both grants and direct placement loans to the City. In certain OPWC commitments, the agreements with OPWC provide for cash received by the City to be first considered as grant receipts. Monies received by the City after the grant commitment has been fulfilled by OPWC are then considered loans. Only the loan portion needs to be repaid by the City.

Notes in the amount of \$4.596 million accounted for as Governmental activities represent the amounts due on 18 loans from the Ohio Public Works Commission (OPWC) for infrastructure improvements. These notes are non-interest bearing and have serial maturities, with final maturities July 1, 2052. Initial repayments of the loans began in January 2000. OPWC has committed to additional non-interest bearing loans as shown in the following table. Cash is provided to the City by OPWC only to the extent of project completion. Only that portion of the loan commitment actually paid to the City is recognized as a liability by the City. Repayments of these loans are made from the Debt Service Fund. OPWC loans are considered Governmental activities obligations.

Grant and loan commitments and loans outstanding at December 31, 2022 were as follows (in thousands):

Notes to the Financial Statements, continued

Future debt service requirements on the OPWC loans are shown as Future Debt Service for Governmental Activities Non-Proprietary – Notes contained in this Note G.

Debt Agreements:

The OPWC loan, SIB loan, and OWDA loans each contain a provision that in an event of default, outstanding amounts become immediately due if the City is unable to make payment.

Notes (TIF):

On October 31, 2019, the City and NWD Investments, LLC, entered into an Amended and Restated TIF Reimbursement Agreement (the "TIF Agreement"), which was consummated on May 1, 2021. The TIF Agreement authorized an aggregate principal amount of \$19.700 million for the purpose of funding and reimbursing costs of public improvements constructed in connection with various tax increment financing areas.

The obligations are payable solely from certain service payments in lieu of taxes identified in the TIF Agreement. In accordance with the TIF Agreement, the obligations bear interest at a fixed rate of 4.00% per annum, based on a 360-day year of twelve 30-day months, payable on the last business day of each April and each October until the developer is fully reimbursed, in a principal amount not to exceed \$19.700 million. \$15.939 million of public improvements have been spent and are outstanding as of December 31, 2022.

The recording of the \$15.939 million is pursuant to GASB Statement No. 48, Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfer of Assets and Future Revenues.

In the prior year, the City also included is \$1.144 million representing TIF revenues pledged to the Columbus Franklin County Finance Authority for proceeds of bonds issued by the Authority but given to the City for park land acquisition. This TIF Note was fully repaid during 2022.

Arbitrage Regulations

The City has calculated and recorded all liabilities related to federal arbitrage regulations.

(1) The interest rates identified on the City's General Obligation debt above are calculated using the actual coupon rates on each series of bonds or notes. The rates are not representative of the true interest costs to the City. As a result of low interest rates, the market for the sale of the City's bonds and notes has frequently produced bids at a stated coupon rate with a premium payable upon the sale of the securities, which creates a true interest cost (TIC) substantially less than the coupon rate.

Notes to the Financial Statements, continued

Long-Term Debt Payout

Certain characteristics of the City's long-term debt are shown in the following table. This table excludes \$24.300 million of Mobility short-term notes, the \$16.510 million of governmental activities (component unit) lease revenue bonds, and the \$23.960 million of Mobility (component unit) lease revenue bonds.

Although the City's self-liquidity supported variable rate bonds may be payable upon demand (see the Variable Interest Rate Bonds section), the bonds are included in the below table per their respective redemption schedules.

Variable interest rate bonds

The variable interest rate bonds were issued, pursuant to ordinances adopted by Council, in the Sanitary Sewer Enterprise in 2006 and 2008. The 2008 Sanitary Sewer (weekly interest rate mode) bonds are revenue bonds. The 2006 Sanitary Sewer Enterprise bonds are variable rate, weekly interest rate mode, general obligation bonds. The proceeds of the bonds were used to provide funds for certain capital improvements, retire certain bonds previously issued by the City, and pay costs incurred to issue the bonds.

	Outstanding at	
Variable Rate Issues by Purpose	12/31/2022	Source of Liquidity
Sanitary Sewer: Series 2006 G.O. and 2008 Rev. Bonds	\$67,855,000	Self-Liquidity

Interest on the variable interest rate bonds is paid at various times as specified in the trust agreements relating to such bonds, at rates determined by the remarketing agent and the City after reviewing the rates of similar municipal issues. The bonds may be put at the discretion of the holders at a price equal to principal plus accrued interest on any interest payment date or such other dates as specified in the trust agreements. The remarketing agent is authorized to use its best efforts to sell the put bonds at a price equal to 100 percent of the principal amount.

Notes to the Financial Statements, continued

The Sanitary Sewer variable rate revenue bonds (\$51.855 million) and variable rate general obligation bonds (\$16.000 million) carry no letter of credit or liquidity enhancement. If a put bond proves to be unremarketable by the remarketing agent, the City is required by statute to buy the bonds into its own portfolio.

While the City is required to buy the bonds into its own portfolio, the bonds are not considered redeemed or retired.

Section 325 of the Columbus City Code states the following:

If obligations of the City which provide for put arrangements are outstanding and if the remarketing agent for such obligations is otherwise unable to remarket such obligations upon the tender for purchase thereof in accordance with their terms, then to the extent that there are moneys in the treasury of the City available for investment pursuant to C.C. 325.010, the City treasurer shall purchase such obligations for the treasury investment account at a price not in excess of the principal amount thereof plus accrued interest, if any, and retain such obligations in the treasury investment account, until the earlier of their maturity or such time as they are remarketed by the remarketing agent.

If uninvested moneys in the treasury of the City are insufficient to provide for purchase of obligations of the City under the circumstances described in the immediately preceding paragraph of this section, the City treasurer shall convert such other investments made pursuant to C.C. 325.010 to cash to the extent necessary, and at such time as is necessary, to provide sufficient moneys for such purchase.

Obligations purchased by the City treasurer pursuant to this section shall remain outstanding in accordance with their terms and <u>shall not be considered redeemed or retired as a result of the purchase thereof pursuant to this section</u>. [Emphasis added]

It is the City's intention for the bonds to remain outstanding until their maturity and are therefore considered long-term debt by the City. Because this financing arrangement pursuant to the City Code is not an arm's length agreement with an unrelated third party, GASB Interpretation 1 requires the bonds to be reported as a current liability. As such, the variable interest rate self-liquidity bonds have been classified as current demand bonds on the Statement of Net Position; however, the bonds are included in the future debt services schedules per their respective redemption schedules.

For both the 2006 Sanitary Sewer variable rate general obligation bonds and the 2008 Sanitary Sewer variable rate revenue bonds, the City's self-liquidity provision is rated A-1+ by Standard and Poor's, VMIG1 by Moody's Investors Service, and F1+ by Fitch Ratings.

A specific interest rate is not required of the Sanitary Sewer variable rate bonds if purchased into the City's investment portfolio.

Notes to the Financial Statements, continued

The following table reflects the additional interest the City would have to pay if the variable rate bonds were purchased into the City's own portfolio. The assumed incremental interest rate in the table is 3.25 percent (in thousands).

	San	Sanitary Sewer				
	Gene	ral Obligation				
	and	l Revenue				
Year ending December 31:		Bonds				
2023	\$	2,194				
2024		2,064				
2025		1,934				
2026		1,805				
2027		1,685				
2028-2032		6,685				
	\$	16,367				

The City may, at its option, convert the variable rate bonds to a fixed rate. Furthermore, the bonds may be called at the discretion of the City under specified procedures on any interest payment date. These variable rate bonds are not auction rate securities.

Future Debt Service

The following tables summarize the City's future debt service requirements on its outstanding bonds, notes, OWDA/EPA loans and OPWC loan commitments as of December 31, 2022. Future interest assumes rates on variable rate debt at the respective issues' average rates since inception.

Although the City's self-liquidity supported variable rate bonds may be payable upon demand (see the Variable Interest Rate Bonds section), the bonds are included in the below table per their respective redemption schedules (in thousands).

^{*}Exclusive of \$23.960 million RiverSouth Lease Revenue Bonds (see Note Q for RiverSouth future debt service schedule).

The OWDA principal and interest amounts in this table assume all current loan agreements will be fulfilled. The current committed balances are \$382.887 million, \$944.239 million and \$7.819 million for the Water, Sanitary Sewer and Storm Sewer funds, respectively.

Notes to the Financial Statements, continued

Restricted Assets

In conjunction with the issuance of the Sanitary Sewer revenue bonds, the City entered into various trust agreements with commercial banks. These trust agreements require that the City establish funds for the cost of construction and repayment of debt. The restricted asset balances in the Business Type Activities segregate funds held by the City from funds held by trustee in accordance with the trust agreement. In addition, cash related to proceeds of bonds issued for all City capital projects is restricted by bond ordinances. Unspent bond proceeds of \$17.142 million related to the internal service funds is included in the Governmental Activities restricted amount. Restricted assets consisted of the following at December 31, 2022 (in thousands):

					Business T	ype Activities	S	
	Gov	ernmental		Sanitary	Storm			
		ctivities	Water	Sewer	Sewer	Electricity	Mobility	Total
Held by the City:								
Construction funds	\$	402,114	\$ 115,155	183,709	24,202	16,684	13,555	\$ 353,305
For Others as deposits		-	-	2,008	-	-	-	2,008
Held by trustees:								
Debt service funds		-		1,256			-	 1,256
Total restricted assets	\$	402,114	<u>\$ 115,155</u>	186,973	24,202	16,684	13,555	\$ 356,569

Restricted assets consist of cash, cash equivalents, and investments. In addition, these trust agreements require the City to pledge net revenues (defined in the trust agreement as revenues less operating and maintenance expenses) of the Sanitary Sewer Enterprise Fund to the payment of the principal and interest on the respective bonds when due.

In the opinion of management, the City has complied with all bond covenants.

Matured Bonds and Interest

Matured bonds and interest payable include \$629 thousand and \$218 thousand, respectively, at December 31, 2022, and \$629 thousand and \$218 thousand, respectively, at December 31, 2021.

OWDA/EPA

Loans payable to the OWDA/EPA, in the amount of \$1.335 billion, are funded by the Ohio Environmental Protection Agency. \$944.239 million are revenue obligations incurred to help finance sanitary sewerage treatment facilities and are to be repaid from charges for sanitary sewerage services. \$382.887 million are revenue obligations incurred to help finance water enterprise projects and are to be repaid from charges for water services. Finally, \$7.819 million are revenue obligations incurred to help finance storm sewer projects and are to be repaid from charges for storm sewer services.

Notes to the Financial Statements, continued

Voted Debt Authority

Various amounts of debt for various purposes were authorized by the City's voters (voted-unlimited) in November 2013, November 2016, May 2019 and May 2022. The remaining unissued amounts and purposes of these authorizations are shown in the following table.

		(in thousands)								
	Date	Total	Issued in	Issued in	Unissued as of					
	Authorized	Authorized	2013-2021	2022	12/31/2022

Public utilities	2022	550,000	-	-	550,000					
Neighborhood Development	2022	200,000			200,000					
		\$ 4,322,005	\$ 1,673,420	\$ 290,550	\$ 2,358,035					

Bonds identified above as public utilities are accounted for in the respective business-type enterprise funds. Other bonds are accounted for as Governmental Activities.

Legal Debt Margins

The Ohio Revised Code provides that the total net debt (as defined in the ORC) of a municipal corporation, whether or not approved by the electors, shall not exceed 10.5 percent of the total value of all property in the municipal corporation as listed and assessed for taxation. In addition, the unvoted net debt of municipal corporations cannot exceed 5.5 percent of the total taxation value of property. The statutory limitations on debt are measured by the ratio of net debt to tax valuation and expressed in terms of a percentage. At December 31, 2022 the City's total net debt amounted to 4.71 percent of total assessed value of all property within the City and unvoted net debt amounted to 0.0 percent of the total assessed value of all property within the City. The City had a legal debt margin for total debt of \$1.210 billion and a legal debt margin for unvoted debt of \$1.149 billion. The aggregate amount of the City's unvoted debt is also subject to overlapping debt restrictions with other political subdivisions.

Tax Increment Financing Districts (TIFs)

The City, pursuant to the Ohio Revised Code and City ordinances, has established 92 TIFs. A TIF represents a geographic area wherein property values created after the commencement date of the TIF are exempt, in whole or in part, from property taxes. Owners of such property, however, must pay amounts equal to the property taxes, known as "service fees", as though the TIF had not been established. These "service fees" are then dedicated to the payments for various public improvements. Property values existing before the commencement date of a TIF continue to be subjected to property taxes.

Gross "service fee" revenue was \$52.022 million less \$1.017 million in county auditor deductions for a net total of \$51.005 million in 2022 and is presented in the financial statements as "payments in lieu of taxes" in certain Debt Service and Capital Projects Funds since these monies are intended to be used to construct public improvements through payment of principal and interest on bonds issued for that purpose and payments to developers on

Notes to the Financial Statements, continued

reimbursements agreements. Corresponding capital assets are accounted for in the City's infrastructure accounts.

With the exception of one 20-year TIF, most of the City's TIFs have a longevity of the shorter period of 30 years or until the public improvements are paid for. The property tax exemption then ceases; service fees cease, and property taxes then apply to the increased property values. Two of the City's TIFs, Easton and Polaris, have been extended for another 30 years.

Defeased Bonds

A description of the City's advance refunded, defeased, bonds with remaining outstanding amounts follows, exclusive of the component unit's refunded lease revenue bonds: (in thousands)

Notes to the Financial Statements, continued

NOTE H—DEFERRED OUTFLOWS OF RESOURCES

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net assets that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The City only has two items that qualify for reporting in this category. One is the deferred charge on refunding reported in the government-wide and proprietary fund statements of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The second is the deferred outflows related to pensions and OPEB, also reported in the government-wide and proprietary fund statements of net position. Deferred outflows related to pensions and OPEB result from changes in Net Pension Liability and Net OPEB Liability/Asset, respectively, not recognized as a component of current year pension and OPEB expense. This amount is deferred and amortized over various periods as instructed by the pension and OPEB plan administrators.

A summary of the deferred outflows of resources reported in the government-wide and proprietary fund statement of position follows. Internal service fund deferred outflows from refundings, pension and OPEB at December 31, 2022 were \$248 thousand, \$6.787 million and zero, respectively, and are included in governmental activities.

					Business Ty	pe Activities		
	Gov	ernmental		Sanitary	Storm			
		ctivities	 Water	Sewer	Sewer	Electricity	Mobility	 Total
Deferred outflows of resources				<u>(in</u>	thousands)			
Debt refunding	\$	11,277	\$ 5,887	16,606	1,477	89	-	\$ 24,059
Pension		376,559	5,986	6,152	966	1,809	1,094	16,007
OPEB		85,544					<u> </u>	
Total deferred outflows of resources	\$	473,380	\$ 11,873	22,758	2,443	1,898	1,094	\$ 40,066

NOTE I—DEFERRED INFLOWS OF RESOURCES

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The City has nonexchange revenue transactions where a receivable has been recorded because property taxes were levied, but the resources cannot be used until a future period. This item has been reported as deferred inflow on the government-wide statement of net position. In addition, deferred inflows related to pensions and OPEB are reported in the government-wide and proprietary fund statements of net position. Deferred inflows related to pensions and OPEB result from changes in Net Pension and OPEB Liability/Asset not recognized as a component of current year pension expense. This amount is deferred and amortized over various periods as instructed by the pension and OPEB plan administrators.

A summary of the deferred inflows of resources reported in the government-wide and proprietary fund statement of position follows. Internal service fund deferred inflows related to pensions and OPEB at December 31, 2022 were \$22.739 million and \$6.542 million, respectively, and are included in governmental activities.

Notes to the Financial Statements, continued

Nonexchange revenue represents deferred inflows from receivables generated from property tax assessments. These balances are deferred inflows for both the modified and full accrual basis of accounting since the taxes are levied in 2022 but cannot be spent until 2023. Nonexchange revenue includes property taxes due to the City as well as service payments and special assessments passed through the City.

					Business Typ	pe Activities			
	Gov	ernmental		Sanitary	Storm				
	A	ctivities	 Water	Sewer	Sewer	Electricity	Mobility		Total
Deferred inflows of resources				<u>(in</u>	thousands)				
Nonexchange revenue	\$	115,775	\$ -	-	-	-	-	\$	-
Pensions		528,066	19,739	20,993	2,058	4,819	2,080		49,689
OPEB		128,615	7,013	7,077	630	1,613	492	_	16,825
Total deferred inflows of resources	\$	772,456	\$ 26,752	28,070	2,688	6,432	2,572	\$	66,514

On the modified accrual basis of accounting, the City has recorded certain receivables where the related revenue is unavailable or cannot be spent until 2023. Deferred inflows of resources have been reported on the governmental fund balance sheet for the following:

			Gover	nmental Type	Funds			
					Other			
			Board of	Special	Governmental			
	General Health Income Tax Funds							
			-	(in thousands	<u>) </u>			
Income tax (Note L)	\$	68,250	-	22,750	-	\$	91,000

Total deferred inflows of resources	\$	143,933	521	28,761	91,620	\$	264,835	

NOTE J—LEASES

Pursuant to GASB Statement No. 87, *Leases*, a lease is defined as a contract that conveys control of the right to use another entity's nonfinancial asset (the underlying asset) as specified in the contract for a period of time in an exchange or exchange-like transaction. Examples of nonfinancial assets include buildings, land, vehicles, and equipment.

The City is party to several contracts as lessor and as lessee for the use of buildings and land. GASB Statement No. 87 requires a lessee to recognize a lease liability and an intangible right-to-use asset, and a lessor to recognize a lease receivable and a deferred inflow of resources. Management conducted a detailed analysis of all such contracts and determined that the amounts related to these contracts individually and in aggregate are immaterial to the City's financial statements. Therefore, lease payments are expensed when made and lease receipts are recognized as revenue when received. The City will evaluate these contracts each year for financial reporting consideration.

Notes to the Financial Statements, continued

NOTE K-PENSION AND OPEB PLANS

DEFINED BENEFIT PENSION PLANS

Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the City's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the City's obligation to fund this liability to annually required payments. The City cannot control benefit terms or the manner in which pensions are financed; however, the City does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable. The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting.

Police and fire-sworn personnel participate in the statewide Ohio Police and Fire Pension Fund (OP&F). Substantially all other City employees participate in the statewide Ohio Public Employees Retirement System (OPERS). Both OP&F and OPERS are cost sharing multiple-employer public employee retirement systems administered by their respective Retirement Boards. The OP&F Board consists of six members elected by representative groups and three statutory members. The OPERS Board consists of seven members elected by representative groups, one statutory member, and three appointed members. The total payroll for the City's employees for the year ended December 31, 2022 was \$824.738 million. Of this amount, \$405.866 million was covered by OP&F, \$373.207 million was covered by OPERS, and \$45.665 million was not subject to pension benefit calculations.

Police and Fire (OP&F)

Plan Description - City full-time police and firefighters participate in OP&F, a cost-sharing, multiple-employer defined benefit pension plan administered by OP&F. OP&F provides retirement and disability pension benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information and required supplementary information and detailed information about OP&F fiduciary net position. The report may be obtained by visiting the OP&F website at www.op-f.org or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Upon attaining a qualifying age with sufficient years of service, a member of OP&F may retire and receive a lifetime monthly pension. OP&F offers four types of service retirement: normal, service commuted, age/service commuted

Notes to the Financial Statements, continued

and actuarially reduced. Each type has different eligibility guidelines and is calculated using the member's average annual salary. The following discussion of the pension formula relates to normal service retirement.

For members hired after July 1, 2013, the minimum retirement age is 52 for normal service retirement with at least 25 years of service credit. For members hired on or before July 1, 2013, the minimum retirement age is 48 for normal service retirement with at least 25 years of service credit.

The annual pension benefit for normal service retirement is equal to a percentage of the allowable average annual salary. The percentage equals 2.5 percent for each of the first 20 years of service credit, 2.0 percent for each of the next five years of service credit and 1.5 percent for each year of service credit in excess of 25 years. The maximum pension of 72 percent of the allowable average annual salary is paid after 33 years of service credit.

Under normal service retirement, retired members who are at least 55 years old and have been receiving OP&F benefits for at least one year may be eligible for a cost of living allowance adjustment. The age 55 provision for receiving a cost of living adjustment (COLA) does not apply to those who are receiving a permanent and total disability benefit and statutory survivors.

Members retiring under normal service retirement, with less than 15 years of service credit on July 1, 2013, will receive a COLA equal to either three percent or the percent increase, if any, in the consumer price index (CPI) over the 12-month period ending on September 30 of the immediately preceding year, whichever is less. The COLA amount for members with at least 15 years of service credit as of July 1, 2013 is equal to three percent of their base pension or disability benefit.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	Police	Firefighters
2022 Statutory Maximum Contribution Rates		
Employer	19.50%	24.00%
Employee	12.25%	12.25%
2022 Actual Contribution Rates		
Employer:		
Pension	19.00%	23.50%
Post-employment Health Care Benefits	0.50%	0.50%
Total Employer	19.50%	24.00%
Employee	12.25%	12.25%

Employer contribution rates are expressed as a percentage of covered payroll. The City's contractually required contribution to OP&F for pension and OPEB combined was \$87.725 million for 2022.

OPERS

Plan Description - City employees, other than full-time police and firefighters and seasonal employees opting out of pension benefits, participate in OPERS. OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While City employees may elect the member-directed plan and the combined plan, substantially all employee members are in OPERS' traditional plan; therefore, the following disclosure focuses on the traditional pension plan.

Notes to the Financial Statements, continued

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting https://www.opers.org/financial/reports.shtml, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional plan as per the reduced benefits adopted by SB 343 (see OPERS ACFR referenced above for additional information):

Group A

Eligible to retire prior to January 7, 2013 or five years after January 7, 2013

Group B

20 years of service credit prior to January 7, 2013 or or eligible to retire ten years after January 7, 2013

Group C

Members not in other Groups and members hired on or after January 7, 2013

State and Local

Age and Service Requirements:

Age 60 with 60 months of service credit or Age 55 with 25 years of service credit

23 years or 3

2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30

Formula:

State and Local

Age and Service Requirements:

Age 60 with 60 months of service credit or Age 55 with 25 years of service credit

Formula:

2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30

State and Local

Age and Service Requirements:

Age 57 with 25 years of service credit or Age 62 with 5 years of service credit

Formula:

2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35

Final average salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a benefit recipient has received benefits for 12 months, an annual COLA is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a three percent simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at three percent.

Notes to the Financial Statements, continued

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

2022 Statutory Maximum Contribution Rates	State and Local
Employer	14.00%
Employee	10.00%
2022 Actual Contribution Rates	
Employer:	
Pension	14.00%
Post-employment Health Care Benefits	0.00%
Total Employer	14.00%
Employee	10.00%

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The City's contractually required contribution for pension and OPEB combined was \$52.249 million for 2022, which includes \$2.707 million contributed to an OPERS' defined contribution plan.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of December 31, 2021 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation of December 31, 2021 for OPERS and as of January 1, 2021 rolled-forward to December 31, 2021 for OP&F. The City's proportion of the net pension liability was based on the City's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	 OP&F	OPERS	Total
		(in thousands)	
Proportion of the Net Pension Liability			
Current Measurement Date	14.60%	2.26%	
Proportionate Share of			
Net Pension Liability	\$ 912,065	\$187,734	\$ 1,099,799
Pension Expense	\$ 59,551	\$ (35,141)	\$ 24,410

Notes to the Financial Statements, continued

At December 31, 2022, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	OP&F		<u>OPERS</u>		 Total
			(in th	ousands)	
Deferred Outflows of Resources					
Difference between proportionate share and actual					
employer contributions	\$	1,474	\$	696	\$ 2,170
Change in proportionate share		23,556		2,834	26,390
Differences between expected and					
actual experience		26,787		10,082	36,869
Change in assumptions		166,857		25,050	191,907
City's contributions subsequent to the					
measurement date		85,688		49,542	 135,230
Total Deferred Outflows of Resources	\$	304,362	\$	88,204	\$ 392,566
Deferred Inflows of Resources					
Difference between proportionate share and actual					
employer contributions	\$	1,156	\$	-	\$ 1,156
Differences between expected and					
actual experience		48,442		5,253	53,695
Change in proportionate share		43,282		2,174	45,456
Net difference between projected and					
actual earnings on pension plan investments		242,621		234,827	477,448
Total Deferred Inflows of Resources	\$	335,501	\$	242,254	\$ 577,755

Contributions subsequent to the measurement date of \$135.230 million are reported as deferred outflows of resources related to pension as they will be recognized as a reduction of the net pension liability in the subsequent fiscal period, December 31, 2023 rather than in the current fiscal period. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized as an addition/ (reduction) in pension expense as follows:

'	OP&F OPERS		Total		
			<u>(in t</u>	housands)	
Fiscal Year Ending December 31:					
2023	\$	(9,989)	\$	(30,180)	\$ (40,169)
2024		(65,801)		(80,442)	(146,243)
2025		(29,302)		(55,277)	(84,579)
2026		(25,957)		(37,608)	(63,565)
2027		14,222		(51)	14,171
2028-2030				(34)	 (34)
Total	\$	(116,827)	\$	(203,592)	\$ (320,419)

Actuarial Assumptions - OP&F

OP&F's total pension liability as of December 31, 2022 (December 31, 2021 measurement date) is based on the results of an actuarial valuation date of January 1, 2021, and rolled-forward using generally accepted actuarial procedures. The total pension liability is determined by OP&F's actuaries in accordance with GASB Statement No. 67, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Notes to the Financial Statements, continued

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of January 1, 2021, are presented below:

Actuarial Cost Method Entry Age Normal (Level Percent of Payroll)
Investment Rate of Return 7.50 percent
Projected Salary Increases 3.75 percent to 10.50 percent
Payroll Increases 3.25 percent
Inflation Assumptions 2.75 percent
Cost of Living Adjustments 2.20 percent per year simple

Rates of death for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120%.

Age	Police	Fire
67 or less	77%	68%
68-77	105	87
78 and up	115	120

Rates of death for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale.

Age	Police	Fire
59 or less	35%	35%
60-69	60	45
70-79	75	70
80 and up	100	90

The most recent experience study was completed as of December 31, 2016.

Notes to the Financial Statements, continued

The long-term expected rate of return on pension plan investments was determined using a building-block approach and assumes a time horizon, as defined in the OP&F's Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes. A summary of best estimates of the long-term expected geometric real rates of return for each major asset class as of December 31, 2021 (measurement date) are summarized as follows:

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Cash & Cash Equivalents	0.00 %	0.00 %
Domestic Equity	21.00	3.60
Non-US Equity	14.00	4.40
Private Markets	8.00	6.80
Core Fixed Income *	23.00	1.10
High Yield Fixed Income	7.00	3.00
Private Credit	5.00	4.50
U.S. Inflation Linked Bonds *	17.00	0.80
Midstream Energy Infrastructure	5.00	5.00
Real assets	8.00	5.90
Gold	5.00	2.40
Private Real Estate	12.00	4.80
Total	125.00 %	

^{*}Levered 2x

OP&F's assumed long-term discount rate of 7.50 percent is supported by the 30-year expected rate of return, as calculated by their investment advisor.

OP&F's Board of Trustees has incorporated the "risk parity" concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return, and creating a more risk-balanced portfolio based on their relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.25 times due to the application of leverage in certain fixed income asset classes.

Discount Rate

The total pension liability was calculated using the discount rate of 7.50 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the longer-term assumed investment rate of return 7.50 percent. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, a long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Notes to the Financial Statements, continued

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.50 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent), or one percentage point higher (8.50 percent) than the current rate.

		centage Point Decrease		Current count Rate		Percentage nt Increase		
	(6.50%)		23334				((8.50%)
			(in th	(in thousands)				
City's proportionate share								
of the net pension liability	\$	1,352,581	\$	912,065	\$	545,226		

Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability in the December 31, 2021, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Cost Method Investment Rate of Return Future Salary Increases, including inflation Wage Inflation Cost of Living Adjustments Individual Entry Age
6.90
2.75 percent to 10.75 percent
2.75 percent
Pre 1/7/2013 Retirees: 3.00 percent, simple
Post 1/7/2013 Retirees: 3.00 percent, simple
through 2022, then 2.05 percent, simple

Pre-retirement mortality rates are based on 130% of the Pub-2010 General Employee mortality table (males and females) for State and Local Government divisions and 170% of the Pub-2010 Safety Employee Mortality tables (males and females) for the Public Safety and Law Enforcement divisions. Post-retirement mortality rates are based on 115% of the PubG-2010 Retiree Mortality Tables (males and females) for all divisions. Post-retirement mortality rates for disables retirees are based on the PubNS-2010 Disables Retiree Mortality Tables (males and females) for all divisions. For all of the previously described tables, the base year is 2010 and mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scales (males and females) to all of these tables.

The most recent experience study was completed for the five year period ended December 31, 2020.

The long term expected rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

Notes to the Financial Statements, continued

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table below displays the Board-approved asset allocation policy for 2021 and the long-term expected real rates of return:

		Weighted Average
		Long-Term Expected
	Target	Real Rate of Return
Asset Class	Allocation	(Arithmetic)
Fixed Income	2 4 .00	1.03 %
Domestic Equities	21.00	3.78
Real Estate	11.00	3.66
Private Equity	12.00	7.43
International Equities	23.00	4.88
Risk Parity	5.00	2.92
Other investments	4.00	2.85
Total	100.00 %	4.21 %

Discount Rate

The discount rate used to measure the total pension liability was 6.9 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following table presents the City's proportionate share of the net pension liability calculated using the current period discount rate assumption of 6.9 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percent lower (5.9 percent) or one percent higher (7.9 percent) than the current rate:

		1 Percentage Point Decrease		Current Discount Rate		ercentage t Increase		
	(5.90%)		(6.90%)		(6.90%)		(7.90%)
			(in thousands)					
City's proportionate share								
of the net pension liability	\$	511,931	\$	187,734	\$	(81,837)		

Notes to the Financial Statements, continued

Defined Benefit OPEB Plans

Net OPEB Liability/Asset

The net OPEB liability/asset reported on the statement of net position represents a liability/asset to employees for OPEB. OPEB is a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for OPEB is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net OPEB liability/asset represents the City's proportionate share of each OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each OPEB plan's fiduciary net position. The net OPEB liability/asset calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the City's obligation for this liability to annually required payments. The City cannot control benefit terms or the manner in which OPEB are financed; however, the City does receive the benefit of employees' services in exchange for compensation including OPEB.

GASB 75 assumes the liability is solely the obligation of the employer, because they benefit from employee services. OPEB contributions come from these employers and health care plan enrollees which pay a portion of the health care costs in the form of a monthly premium. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. Any change to benefits or funding could significantly affect the net OPEB liability/asset. Resulting adjustments to the net OPEB liability/asset would be effective when the changes are legally enforceable. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net OPEB liability/asset* on the accrual basis of accounting. Any liability for the contractually-required OPEB contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual basis of accounting.

Police and Fire (OP&F)

Plan Description - The City contributes to the OP&F sponsored health care program, a cost-sharing multiple-employer defined postemployment health care plan administered by OP&F that provides various levels of health care to retired, disabled and beneficiaries, as well as their dependents. On January 1, 2019, OP&F changed the way it supports retiree health care. A stipend-based health care model has replaced the self-insured group health care plan that had been in place. OP&F has contracted with a vendor who can assist eligible retirees in choosing health care plans that are available where they live (both Medicare-eligible and pre-65 populations). A stipend funded by OP&F is available to these members through a Health Reimbursement Arrangement and can be used to reimburse retirees for qualified health care expenses. The health care coverage provided by OP&F is considered an Other Postemployment Benefit as described in GASB Statement No. 75.

The Ohio Revised Code allows, but does not mandate OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees (Board) to provide health care coverage to eligible participants and to establish and amend benefits is codified in Chapter 742 of the ORC.

OP&F issues a publicly available financial report that includes financial information and required supplementary information for the Plan. That report may be obtained by writing to OP&F, 140 East Town Street, Columbus, Ohio 43215-5164. That report is also available on OP&F's website at www.op-f.org.

Notes to the Financial Statements, continued

Funding Policy - The ORC provides for contribution requirements of the participating employers and of plan members to the OP&F (defined benefit pension plan). Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently, 19.5 percent and 24 percent of covered payroll for police and fire employers, respectively. The ORC states that the employer contributions may not exceed 19.5 percent of covered payroll for police employer units and 24 percent of covered payroll for fire employer units. Active members do not make contributions to the OPEB Plan.

The OPEB Plan is financed through a combination of employer contributions, recipient premiums, and investment returns. As employer contributions to the OPEB Plan are not required by state law, the Board approves the amount of required employer contributions to the Plan that will be designated for the OPEB Plan, which was 0.5% of employer contributions for the year ended December 31, 2021. OP&F does have one special funding situation that is included in the required calculations.

The City's contributions to OP&F allocated to health care for police employer contributions and firefighter employer contribution for the years ended December 31, 2022, 2021, and 2020 were \$1,118,000 (police) and \$919,000 (fire) \$1,054,000 (police) and \$862,000 (fire), and \$988,000 (police) and \$835,000 (fire), respectively.

OPERS

Plan Description - OPERS administers three separate pension plans: The Traditional Pension Plan – a cost sharing multiemployer defined benefit pension plan; the Member-Directed Plan – a defined contribution plan; and the Combined Plan – a cost-sharing multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

The OPERS health care plans are reported as other post-employment benefit plans (OPEB) based on the criteria established by the Governmental Accounting Standards Board (GASB). Periodically, OPERS modifies the health care program design to improve the ongoing solvency of the plans. Eligibility requirements for access to the OPERS health care options has changed over the history of the program for Traditional Pension Plan and Combined Plan members. Prior to January 1, 2015, 10 or more years of service were required to qualify for health care coverage. Beginning January 1, 2015, generally, members must be at least age 60 with 20 years of qualifying service credit to qualify for health care coverage or 30 years of qualifying service at any age. Beginning 2016, Traditional Pension Plan and Combined Plan retirees enrolled in Medicare- A and B were eligible to participate in the OPERS Medicare Connector (Connector). The Connector, a vendor selected by OPERS, assists eligible retirees in the selection and purchase of Medicare supplemental coverage through the Medicare market. Retirees who purchase supplemental coverage through the Connector may receive a monthly allowance in their health reimbursement arrangement (HRA) account that can be used to reimburse eligible health care expenses. Upon termination or retirement, Member-Directed Plan participants can use vested retiree medical account (RMA) funds for reimbursement of qualified medical expenses. Members who elect the Member-Directed Plan after July 1, 2015 will vest in the RMA over 15 years at a rate of 10% each year starting with the sixth year of participation. Members who elected the Member-Directed Plan prior to July 1, 2015 vest in the RMA over a five-year period at a rate of 20% per year. Health care coverage is neither quaranteed nor statutorily required. Additional details on health care coverage can be found in the Plan Statement in the OPERS 2021 Annual Comprehensive Financial Report.

OPERS maintains one health care trust, the 115 Health Care Trust (115 Trust), which was established in 2014 to initially provide a funding mechanism for the HRA, as the prior trust structure, the 401(h) Health Care Trust (401(h) Trust) and the Voluntary Employees' Beneficiary Association Trust (VEBA Trust), could not legally support the HRA. In March 2016, OPERS received two favorable rulings from the Internal Revenue Service (IRS) allowing OPERS to consolidate health care assets into the 115 Trust. The 401(h) Trust was a pre-funded trust that provided health care funding for eligible members of the Traditional Pension Plan and the Combined Plan through December 31, 2015, when plans funded through the 401(h) Trust were terminated. The VEBA Trust accumulated funding for RMAs for participants in the Member- Directed Plan through June 30, 2016. The 401(h) Trust and the VEBA Trust were closed as of June 30, 2016 and the net positions transferred to the 115 Trust on July 1, 2016. Beginning 2016, the 115 Trust, established under IRC Section 115, is the funding vehicle for all health care plans.

Notes to the Financial Statements, continued

The Ohio Revised Code permits, but does not require, OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

OPERS issues a stand-alone financial report. Interested parties may obtain a copy by visiting https://www.opers.org/financial/reports.shtml#ACFR, by writing to OPERS, 277 East Town Street, Columbus, OH 43215-4642, or by calling 614-222-5601 or 800-222-7377.

Funding Policy - The Ohio Revised Code provides the statutory authority requiring public employers to fund health care through their contributions to OPERS.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2022, State and Local employers contributed at a rate of 14.0 percent of earnable salary, which is the maximum employer contribution rate permitted by the Ohio Revised Code. With the assistance of the System's actuary and Board approval, a portion of each employer contribution to OPERS may be set aside for the funding of post-employment health care coverage. For 2022, no portion of the employer contribution rate was allocated to health care for the Traditional Pension Plan and the Combined Plan. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the Member-Directed health care accounts for 2022 was 4.0%. Active member contributions do not fund health care.

The portion of the City's contribution used to fund OPEB for 2022, 2021, and 2020 were zero in each year.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability/asset was measured as of December 31, 2021, and the total OPEB liability/asset used to calculate the net OPEB liability/asset was determined by an actuarial valuation as of December 31, 2020 rolled-forward to December 31, 2021 for OPERS and as of January 1, 2021 rolled-forward to December 31, 2021 for OPEF. The City's proportion of the net OPEB liability/asset was based on the City's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

	OP&F	OPERS	Total
		(in thousands)	
Proportion of the Net OPEB Liability (Asset)			
Current Measurement Date	14.60%	2.33%	
Proportionate Share of			
Net OPEB Liability (Asset)	\$160,018	(\$72,950)	\$87,068
OPEB Expense (Revenue)	\$10,290	(\$64,540)	(\$54,250)

Notes to the Financial Statements, continued

At December 31, 2022, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	OP&F			PERS		Total

Actuarial Assumptions - OP&F

The total OPEB liability is determined by OP&F's actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Notes to the Financial Statements, continued

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

The total OPEB liability is based on the results of an actuarial valuation dated January 1, 2021 and rolled-forward to December 31, 2021 using generally accepted actuarial procedures. The total OPEB liability used the following assumptions:

Actuarial Cost Method

Long-Term Return on Plan Assets

7.50 percent

Dec. 31, 2021 Discount Rate

Dec. 31, 2021 Municipal Bond Index

Salary increases, including price inflation

Projected Depletion Year of OPEB Assets

Entry Age Normal (Level Percent of Payroll)

7.50 percent

2.84 percent

2.05 percent

3.75 to 10.50 percent

2037

Healthy Mortality rates were based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted and projected with the Buck Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120%.

Age	Police	Fire
67 or less	77%	68%
68-77	105	87
78 and up	115	120

Disability Mortality rates were based on RP-2014 Disability Mortality Tables rolled back to 2006, adjusted and projected with the Buck Modified 2016 Improvement Scale.

Age	Police	Fire
59 or less	35%	35%
60-69	60	45
70-79	75	70
80 and up	100	90

The most recent experience study was completed for the five year period ended December 31, 2016.

The long-term expected rate of return on OPEB plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes.

Notes to the Financial Statements, continued

A summary of best estimates of the long-term expected geometric real rates of return for each major asset class as of December 31, 2021 (measurement date) are summarized as follows:

	Target		Long-Term Expected Real Rate of Return
Cash & Cash Equivalents	0.00	%	0.00 %
Domestic Equity	21.00		3.60
Non-US Equity	14.00		4.40
Private Markets	8.00		6.80

^{*} levered 2x

Discount Rate The discount rate used to measure the total OPEB liability at December 31, 2021 was 2.84 percent. The projection of cash flows used to determine the discount rate assumed that contributions from employers and from members would be computed based on contribution requirements as stipulated by state statute. Projected inflows from investment earnings were calculated using the longer-term assumed investment rate of return of 7.50 percent. Based on those assumptions, OP&F's fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, a municipal bond rate of 2.05 percent at December 31, 2021 and 2.12 percent at December 31, 2020 was blended with the long-term rate of 7.50 percent, which resulted in a blended discount rate of 2.84 percent.

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate The net OPEB liability is sensitive to changes in the discount rate. The following table presents the net OPEB liability of OP&F, what OP&F's net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (1.84%) and higher (3.84%) than the current discount rate (2.84%).

		1 Percentage Point Decrease		Current Discount Rate		centage Point Increase
	((1.84%)		(2.84%)		(3.84%)
		_	(in thousands)			
City's proportionate share						
of the net OPEB liability	\$	201,147	\$	160,018	\$	126,211

Notes to the Financial Statements, continued

Actuarial Assumptions - OPERS

The total OPEB liability/asset is based on the results of an actuarial valuation dated December 31, 2020 and rolled-forward to December 31, 2021 using generally accepted actuarial procedures. The total OPEB liability/asset used the following assumptions:

Actuarial Cost Method Single Discount Rate Investment Rate of Return Municipal Bond Rate Wage Inflation Future Salary Increases

Health Care Cost Trend Rate

Individual Entry Age
6.00 percent
6.00 percent
1.84 percent
2.75 percent
2.75 percent to 10.75 percent
(includes wage inflation of 2.75 percent)

5.50% initial, 3.50% ultimate in 2034

Pre-retirement mortality rates are based on 130% of the Pub-2010 General Employee mortality table (males and females) for State and Local Government divisions and 170% of the Pub-2010 Safety Employee Mortality tables (males and females) for the Public Safety and Law Enforcement divisions. Post-retirement mortality rates are based on 115% of the PubG-2010 Retiree Mortality Tables (males and females) for all divisions. Post-retirement mortality rates for disables retirees are based on the PubNS-2010 Disables Retiree Mortality Tables (males and females) for all divisions. For all of the previously described tables, the base year is 2010 and mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scales (males and females) to all of these tables.

Actuarial assumptions used in the December 31, 2021 valuation are based on the results of an actuarial experience study for the five year period ended December 31, 2020.

The allocation of investment assets within the Health Care portfolio is approved by the Board as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. The System's primary goal is to achieve and maintain a fully funded status for benefits provided through the defined pension plans. Health care is a discretionary benefit. The table below displays the Board-approved asset allocation policy for 2021 and the long-term expected real rates of return.

		Weighted Average Long-Term Expected
	Target	Real Rate of Return
Asset Class	Allocation	(Arithmetic)
Fixed Income	34.00 %	0.91 %
Domestic Equities	25.00	3.78
REITs	7.00	3.71
International Equities	25.00	4.88
Risk Parity	2.00	2.92
Other investments	7.00	1.93
Total	100.00 %	3.45 %

The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

Discount Rate A single discount rate of 6.00% was used to measure the OPEB liability/asset on the measurement date of December 31, 2021. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-

Notes to the Financial Statements, continued

exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on an actuarial assumed rate of return on the health care investment portfolio of 6.00% and a municipal bond rate of 1.84%. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through 2121. As a result, the actuarial assumed long-term expected rate of return on health care investments was applied to projected costs through the year 2121, the duration of the projection period through which projected health care payments are fully funded.

Sensitivity of the City's Proportionate Share of the Net OPEB Liability (asset) to Changes in the Discount and Health Care Cost Trend Rate The following table presents the OPEB asset calculated using the single discount rate of 6.00%, and the expected net OPEB asset if it were calculated using a discount rate that is 1.0% lower or 1.0% higher than the current rate.

		ercentage t Decrease	Current Discount Rate			centage Point ncrease
	((5.00%)		(6.00%)		7.00%)
			(in	thousands)		
City's proportionate share						
of the net OPEB asset	\$	(42,929)	\$	(72,998)	\$	(97,954)

Changes in the health care cost trend rate may also have a significant impact on the net OPEB asset. The following table presents the net OPEB asset calculated using the assumed trend rates, and the expected net OPEB asset if it were calculated using a health care cost trend rate that is 1.0% lower or 1.0% higher than the current rate.

			Currer	nt Health Care		
	1 P	ercentage	Cost	Trend Rate	1 Pero	entage Point
	Poin	Point Decrease		Assumption		ncrease
		<u> </u>	(in	thousands)		_
City's proportionate share						
of the net OPEB asset	\$	(73,786)	\$	(72,998)	\$	(72,061)

Retiree health care valuations use a health care cost-trend assumption that changes over several years built into the assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2022 is 5.50%. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is the health plan cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries' project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.50% in the most recent valuation.

There are no postemployment benefits provided by the City other than those provided through OPERS and OP&F.

Notes to the Financial Statements, continued

NOTE L— TAXES

Income Taxes

Based on the results of a special election in August 2009, the City's income tax rate was increased from 2 percent to 2.5 percent. This rate was effective as of October 1, 2009. The City levies tax on substantially all income earned within the City. In addition, residents of the City are required to pay City income tax on income they earn outside the City. However, a credit is allowed for income taxes paid to other municipalities.

Employers within the City are required to withhold income tax on employees' compensation and remit this tax to the City semimonthly, monthly, or quarterly, depending upon the amounts withheld. Corporations and other individual taxpayers are required to pay their estimated tax quarterly and file a declaration annually.

For the governmental fund financial statements, the City recognizes as revenue income tax received within 60 days after year end applicable to taxpayer liabilities for periods prior to the year-end net of an allowance for income tax refunds. These taxes are considered both measurable and available whereas all other income taxes are recognized as revenue when received. The City has consistently followed this practice for many years.

Receivables and deferred inflows of resources have been recorded in the General and Special Income Tax Funds in the amount of \$68.2 million and \$22.8 million, respectively, for the estimated income tax due to the City for 2022 and prior tax years, but not collected within the available period.

Property Taxes

Property taxes include amounts levied against all real and public utility property located in the City.

Real property taxes and public utility taxes collected during 2022 were assessed against the value listed as of January 1, 2021, the lien date. One half of these taxes were due January 31, 2022 with the remaining balance due on June 21, 2022.

Assessed values on real property are established by state law at 35 percent of appraised market value. A revaluation of all property is required to be completed every sixth year. The last revaluation in Franklin County was completed in 2017. The assessed value upon which the 2022 levy was based was approximately \$20.480 billion (\$19.953 billion, \$171 million, and \$356 million for Franklin County, Fairfield County, and Delaware County, respectively). The assessed value for 2022 including real and public utilities, upon which the 2023 levy will be based, is approximately \$20.892 billion (\$20.313 billion, \$225 million, and \$354 million for Franklin County, Fairfield County, and Delaware County, respectively).

Ohio law prohibits taxation of property from all taxing authorities within a county in excess of 1 percent of assessed value without a vote of the people. Under current procedures, the City's share is .314 percent (3.14 mills) of assessed value. Increases in the property tax rate are restricted only by voter willingness to approve such increases.

The County Treasurers collect property taxes on behalf of all taxing districts in the counties, including the City of Columbus. The County Auditors periodically remit to the City its portion of the taxes collected. Property taxes may be paid on either an annual or semiannual basis. Current tax collections for the year ended December 31, 2022 were 89.0 percent (96.7 percent in 2021) of the tax levy in Franklin County.

Property taxes levied in 2022 but not due for collection until 2023 are recorded in the General Fund as taxes receivable and deferred inflows of resources at December 31, 2022 in the amount of \$64.499 million.

Notes to the Financial Statements, continued

NOTE M—TAX ABATEMENTS

Pursuant to Governmental Accounting Standards Board (GASB) Statement No. 77, *Tax Abatement Disclosures*, the City is required to disclose certain information about tax abatements as defined in the Statement. For purposes of GASB Statement No. 77, a tax abatement is a reduction in tax revenues that results from an agreement between one or more governments and an individual or entity in which (a) one or more governments promise to forgo tax revenues to which they are otherwise entitled and (b) the individual or entity promises to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the City or the citizens of the City. The City has entered into such agreements. A description of each of the City's abatement programs where the City has promised to forgo taxes follows:

Community Reinvestment Area (CRA) Program

The Ohio Community Reinvestment Area program is an economic development tool administered by municipal and county governments that provides real property tax exemptions for property owners who renovate existing or construct new buildings. Community Reinvestment Areas (CRA) are areas of land in which property owners can receive tax incentives for investing in real property improvements. In order to use the Community Reinvestment program, a city, village, or county petitions to the Ohio Development Services Agency (ODSA) for confirmation of a geographical area in which investment in housing has traditionally been discouraged. Once the area is confirmed by the Director of ODSA, communities may offer real property tax exemptions to taxpayers that invest in that area.

The City determines the type of development to support by specifying the eligibility of residential, commercial and/or industrial projects. The City negotiates property tax exemptions on new property tax from investment for up to one hundred percent (100%) for up to fifteen years based on the amount of investments made to renovate or construct buildings within a CRA. Taxes are abated as the increase in assessed value resulting from the investment is not included (or included at a lesser amount) in the assessed value used for property tax computation for the taxpayer. For commercial projects, job retention and/or creation is also required. Agreements must be in place before the project begins. Provisions for recapturing property tax exemptions, which can be used at the discretion of the City, are pursuant to ORC Section 9.66(C)(1) and 9.66(C)(2).

Enterprise Zone Program

The Ohio Enterprise Zone Program is an economic development tool administered by municipal and county governments that provides real and personal property tax exemptions to businesses making investments in Ohio. Enterprise zones are designated areas of land in which businesses can receive tax incentives in the form of tax exemptions on eligible new investment. The Enterprise Zone Program can provide tax exemptions for a portion of the value of new real property investment when the investment is made in conjunction with a project that includes job creation. Existing land values and existing building values are not eligible. The zone's geographic area is identified by the local communities involved in the creation of the zone. Once a zone is defined, the local legislative authority participating in the creation must petition the Director of ODSA. The Director must then certify the area for it to become an active Enterprise Zone. Local communities may offer tax incentives for non-retail projects that are establishing or expanding operations in the State of Ohio. Tax incentives are negotiated at the local level, and an enterprise zone agreement must be in place before the project begins.

In 2022 there were 110 active Enterprise Zone agreements within the City's three designated zones. Business located in an Enterprise Zone may negotiate exemptions on new property tax from investment for up to seventy-five percent (75%) for 10 years. For commercial projects, job retention and/or creation is also required. Taxes are abated as the increase in assessed value resulting from the investment is not included (or included at a lesser amount) in the assessed value used for property tax computation for the taxpayer. Agreements must be in place before the project begins. Pursuant to the terms of such agreements, if the actual number of employee positions created or retained by the business in any three-year period during which the agreement is in effect is not equal to or greater than 75 percent of the number of employee positions estimated to be created or retained under the agreement, the business shall repay the amount of taxes on property that would have been payable had the property not been exempted. In addition, the City may terminate or modify the exemptions from taxation granted under the agreement if the terms of the agreement are not met.

Notes to the Financial Statements, continued

Tax Increment Financing Districts

Tax Increment Financing (TIF) is an economic development mechanism available to local governments to finance public infrastructure improvements such as roadways, bridges, ditches, and water and sewer lines. A TIF works by locking in the taxable worth of real property at the value it holds at the time the authorizing legislation was approved. Payments derived from the increased assessed value of any improvement to real property beyond that amount are directed towards a separate fund to finance construction of public infrastructure defined within the TIF legislation. While the property holders continue to pay their full property taxes, the incremental payments above the base value are called paid-in-lieu of taxes (PILOT). ORC 5709.40-5709.43 provides authority to municipalities to redirect funds for such improvements.

PILOT payments from City TIF districts are either retained by the City or they are redirected to developers listed in TIF legislation. When the PILOT payments are retained by the City the funds are used to pay down City TIF or General Obligation debt or pay for City TIF project expenditures. City funded TIFs are not within the scope of GASB Statement No. 77 as no tax revenue is forgone. When the TIF district is developer funded, the City uses PILOT payments to reimburse the developer for their private infrastructure investment as agreed to in the TIF legislation. Developers are reimbursed when there is adequate PILOT payments deposited into their respective TIF funds and after submitting the required reimbursement request. Payments redirected to the developers are included in the tax abatement disclosure.

School District Revenue Sharing

Pursuant to ORC 5709.82, compensating school district for revenue lost due to tax exemptions, the City is required to pay affected school districts 50 percent of the municipal income tax revenue attributable to tax abated projects where the annual new employee payroll for a project is one million dollars or more, in a given tax year, during the CRA or Enterprise Zone abatements. This municipal income tax revenue sharing with the affected school districts is based on the new employee wages paid in a tax year, during the years of tax exemption, and also on the wages of the construction workers. The City's obligation to pay the incentive each year is expressly contingent upon the passing of an ordinance appropriating and authorizing the expenditures of monies sufficient to make such payments after the City has verified the Columbus businesses met the eligibility requirements of their respective CRA and Enterprise Zone abatements. The school district revenue sharing paid in 2022 was based on 34 tax abated projects.

Job Creation Tax Credit Program

Pursuant to ORC 718.15, *Tax credit for businesses that foster new jobs in Ohio*, a city, by ordinance, may grant a refundable or nonrefundable credit against its tax on income to taxpayers to foster job creation in the city. Tax credits granted under this section of the ORC are measured as a percentage of the new income tax revenue the City derives from new employees of the taxpayer and are for a term not to exceed fifteen years. Tax credits are applied against the taxpayer's annual income tax filing. It is required that the City and the tax payer enter into an agreement specifying all of the conditions of the credit prior to passage of the ordinance granting the credit.

The City currently has Job Creation Tax Credit agreements with ten Columbus businesses (taxpayers). The tax credit percentage and term of the specific agreements is based upon the amount of new investment and the number of jobs created as a result of identified project. Job Creation Tax Credit agreements include specific language for refund of the credits should the terms of the agreement not be met by the taxpayer.

Columbus Downtown Office Incentive Program

The Columbus Downtown Office Incentive (DOI) Program is a one of the development tools used to implement the Columbus Downtown Business Plan. The boundaries of downtown Columbus are defined in Columbus City Code Title 33 Section 3349.03. To qualify for the program private sector Columbus businesses must meet the minimum employment requirement of adding 10 new employees. The jobs must be newly created positions or moved from outside of Columbus to downtown. The terms of the incentive are one to eight years based on the number of new eligible positions created. The availability of the incentive is contingent on the one time approval of the incentive for a company by City Council. The City's obligation to pay the incentive each year is expressly contingent upon the passing of an ordinance appropriating and authorizing the expenditures of monies sufficient to make such payments after the City has verified the Columbus businesses met the eligibility requirements. In 2022, payments were made to six DOI projects for which employers met the requirements of their DOI agreements as authorized by Columbus City Ordinance 1847-2022.

Notes to the Financial Statements, continued

Job Growth Incentive Program

The Job Growth Incentive (JGI) Program is one of the development tools used to encourage new job creation. Individual agreements are approved by Columbus City Council. In exchange for investing in adding eligible new full-time permanent positions and retaining existing positions, approved Columbus businesses receive cash payments equal to an agreed upon percentage of the income tax on eligible new employees for a fixed number of years based on the number of new positions created. The availability of the incentive is contingent on the one time approval of the incentive for a company by City Council. The City's obligation to pay the incentive each year is expressly contingent upon the passing of an ordinance appropriating and authorizing the expenditures of monies sufficient to make such payments after the City has verified the Columbus businesses met the eligibility requirements. In 2022, payments were made to 16 active projects for which employers met the requirements of their JGI agreements as authorized by Columbus City Ordinance 1851-2022.

A summary of the taxes forgone on the City's abatement programs for the year ended December 31, 2022 follows (in thousands):

Program Name	Taxes Abated	Source	A	mount
Job Growth Incentive	Income Tax	Columbus Development Department	\$	10,606
School District Revenue Sharing	Income Tax	Columbus Development Department		2,866
Downtown Office Incentive	Income Tax	Columbus Development Department		300
Job Creation Tax Credits	Income Tax	Columbus Income Tax Division		1,027
Tax Increment Financing	Property Tax	Franklin County Auditor		4,921
Community Reinvestment Area	Property Tax	Franklin County Auditor		2,974
Enterprise Zone Agreements	Property Tax	Franklin County Auditor		325
Total taxes abated			\$	23,019

NOTE N—FUND BALANCE

Fund balance for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the City is "bound to honor constraints on the specific purposes for which amounts in the fund can be spent" in accordance with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*.

The components for reporting the City's fund balance are restricted, committed, assigned and unassigned. At December 31, 2022, the City had no significant fund balance which is considered nonspendable, as defined by GASB Statement No. 54. Restricted fund balance includes those amounts that are restricted by parties outside of the City and pursuant to enabling legislation. Committed fund balance describes the portion of fund balance that has been limited by use by approval of City Council. City Council is the City's highest level of decision making. Fund balance commitments are established, modified, or rescinded by City Council action through passage of an ordinance. Assigned fund balance includes amounts that have an intended use by City Council. City Council demonstrates its intent for use of assigned amounts through passage of appropriation legislation, resolution, or ordinance. The unassigned fund balance represents the residual net resources. The General Fund is the only fund that reports a positive unassigned fund balance amount.

On April 11, 1988, City Council passed ordinance 0860-1988 which established an Economic Stabilization subfund within the General Fund. Per the ordinance, funds in the Economic Stabilization subfund can only be expended upon authorization of City Council. Such expenditures "shall be solely for the purpose of continuing basic City services during times of economic recession or unexpected revenue loss by the City". City Council authorizes transfers into the Economic Stabilization subfund as funds are deemed available. The balance in the Economic Stabilization subfund at December 31, 2022 was \$90.777 million and is included in the unassigned fund balance of the General Fund.

The City considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The City does not have a formal policy for its use of unrestricted fund balance amounts; therefore, it considers committed amounts used first, followed by assigned

Notes to the Financial Statements, continued

amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

A summary of fund balance as of December 31, 2022 by category with specific purpose information follows (in thousands):

Notes to the Financial Statements, continued

The following deficit fund balances existed at December 31, 2022 (in thousands):

	Deficit Fund Balance	
Governmental Activities		
Other Governmental Funds:		
RiverSouth	\$	(180)
HOME Program		(1,322)
General Government Grants		(3,233)
Community Development Act		(3,729)
Recreation & Parks Grants		(1,670)
Transportation Improvement Program		(171)
Federal State Highway Engineering		(2,373)
Pen West West TIF		(80)
Internal Service Funds:		
Information Services		(949)
Construction Inspection		(406)
Land Acquisition		(458)

These deficits will be eliminated by future charges for services, grant billings and future TIF service payments. A portion of these deficits are the result of the accounting for net pension and OPEB liabilities in the internal service funds for which there is no repayment schedule.

Fund balance deficits may be budgeted for and exist on the City's budgetary basis of accounting for certain funds. These fund balance deficits exist because encumbrances are recorded against certain accounts receivable that are not recognized as revenue on the budget basis of accounting.

NOTE O-MISCELLANEOUS REVENUES

For the year ended December 31, 2022, miscellaneous revenues in the fund financial statements consisted of the following (in thousands):

Transfers are used to move revenues from the fund with collection authorization to the General Bond Retirement fund as debt service principal and interest payments become due and to move unrestricted revenues to finance various programs that the City must account for in other funds in accordance with budgetary authorization, including amounts provided as subsidies and/or matching funds for various grant programs. Transfers from business-type activities represent legally authorized transfers to fund the business-type activity portion of certain governmental activities' capital projects.

Notes to the Financial Statements, continued

NOTE Q—COMPONENT UNITS

As described in Note A, the City has three blended component units. The significant accounting disclosures for the component units follow.

THE RIVERSOUTH AUTHORITY (RiverSouth)

RiverSouth is a community authority created by the City of Columbus pursuant to Chapter 349 of the Ohio Revised Code as a body corporate and politic. RiverSouth was created to govern the redevelopment and revitalization of a new community referred to as the RiverSouth District. The Downtown Development Corporation, a not-for-profit corporation, has been appointed developer of the new community.

Significant Accounting Policies and Disclosures for RiverSouth:

The financial statements of the RiverSouth Authority have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Cash – At December 31, 2022, the carrying amount of the Authority's cash was \$13 thousand. These funds are on deposit with a trustee and will be used for the Authority's expenses. Also, the amount is deposited with a U.S. Government Money Market Fund, and has been rated Aaa by Standard and Poor's and is considered a cash equivalent. While the funds are uncollateralized and uninsured, their disposition and availability are governed by bond resolution and the various trust agreements between the Authority and U.S. Bank.

Bonds Payable – As of December 31, 2022, \$40.470 million of RiverSouth bonds remain outstanding. This total par amount includes three separate bond issues: \$6.245 million of 2012 bonds; \$10.265 million of 2014 bonds and \$23.960 million of 2016 bonds. The 2012 and 2014 bond series are included in governmental activities. The 2016 bond series is included in the mobility fund of the business-type activities. These bonds are payable from the revenues provided by the City and are subject to annual appropriations of City Council as described in Note A.

The revenues and receipts assigned by the Trust Agreement are primarily composed of certain rental payments to be paid to RiverSouth under the Lease with the City. The rental payments paid by the City to RiverSouth are from monies specifically appropriated for such purpose and are to be the primary source of money to pay debt service. The obligation of the City to make rental payments is expressly made subject to the availability of annual appropriations for such purpose. Notwithstanding the requirement for annual appropriations of rental payments for the payment of debt service, the City has agreed that all such rental payments required to pay debt service will be included in the estimated budgets of the City. RiverSouth and the City contemplate that the supplemental agreements will make provision for rental payments to be paid to RiverSouth in amounts adequate to meet the debt service on outstanding bonds. Neither the project land nor the capital facilities to be financed with the bond proceeds are pledged to secure payment on the bonds. The first rental payments from the City were paid December 1, 2007. Final maturities of the bonds occur in 2041.

Notes to the Financial Statements, continued

Principal and interest requirements to retire the RiverSouth's outstanding debt at December 31, 2022 are:

		(in thousands)

2038-2041		6,695	6	<u>83</u>			
Total	\$	40,470	\$ 12,3	<u>21</u>			

See Notes A and G for further disclosures related to RiverSouth and its relationship and transactions with the City. Complete financial statements of RiverSouth may be obtained by contacting the Chief Financial Officer, Columbus Downtown Development Corporation, 150 S. Front Street, Suite 210, Columbus, Ohio 43215.

THE COLUMBUS NEXT GENERATION CORPORTATION (CNGC)

The Columbus Next Generation Corporation (CNGC), a non-profit development corporation, was established in October 2012. Under various contracts, CNGC performs a variety of services to advance economic development, including but not limited to: create economic development plans for specific areas of the City; acquire and develop real estate; and manage various related projects. In 2022, the City provided cash assistance to CNGC of \$2.041 million toward these contracts.

At December 31, 2022 the carrying amount of CNGC cash was \$1.821 million. The City's cash assistance was CNGC's primary revenue source in 2022 and it was used for general operating expenses of the corporation.

COLUMBUS BOARD OF HEALTH

The Columbus Board of Health (Board) is organized under Ohio Revised Code 3709.36. Prior to 2019, the activities of the Board were accounted for by the City within two special revenue funds and one capital projects fund. Having met the requirements of GASB Statement 61, updated for Statement 80, the activities of the Board are now reported as a blended component unit starting in 2019 displayed as a major special revenue fund on the City's governmental statements.

At December 31, 2022 the carrying amount of the Board's cash was \$18.113 million.

NOTE R – COVID-19 PANDEMIC

The COVID-19 pandemic continues to influence the City's budgetary priorities. Through 2022, departments and divisions citywide addressed ongoing social, fiscal, health, and economic impacts of the pandemic using a range of programs, including: human services; youth programming; childcare initiatives; vaccine incentives; small business support; workforce development; rental and utility assistance; and numerous other economic support programs.

Federal Stimulus. The City has been a direct recipient of federal stimulus measures, which provide support for public health, state and local governments, businesses, and individuals. While some of the supports have been exhausted, certain recovery funds remain or are anticipated to provide future benefits to the Columbus economy. The City has been a direct recipient of the below programs:

Notes to the Financial Statements, continued

Federal Aid – Coronavirus Aid, Relief, and Economic Security Act (CARES Act)

The City received \$157 million in CARES Act funding. The City has allocated and expended the full \$157 million of these funds in the following categories:

- \$80 million for direct spending for COVID-19 expenditures such as medical expenses for testing, Emergency Medical Service response, and personal protective equipment (PPE);
- \$51 million for human services such as shelter for those experiencing homelessness, food and rental assistance; and
- \$26 million for economic impact such as small business assistance and technology for teleworking.

Federal Aid - The American Rescue Plan Act of 2021 (ARPA)

As of December 31, 2022, the City has received a total of \$187 million of ARPA funds. The City has allocated \$96.1 million of these funds and has made actual expenditures of these funds in the amount of approximately \$69.5 million.

Federal Aid – Emergency Rental Assistance Program (Consolidated Appropriations Act, 2021 & ARPA)

As of December 31, 2022, the City has received a total of \$61.7 million of Emergency Rental Assistance funds. The City has allocated \$61.6 million of these funds and has made actual expenditures of these funds in the amount of approximately \$57.5 million.

Impact of Remote Work. The City Auditor's Office has developed behavioral and technical modeling to monitor remote work trends and their corresponding impacts on income tax collections. Through the end of 2022, revenue declines resulting from remote work were largely masked by strong wage inflation, fiscal stimulus, and net job gains. Job growth, while slower than in 2021, rebounded in the third quarter of 2022 to overtake 2019's previous peak of total jobs. The City's Official 2023 Revenue Estimate anticipates additional investment in key local sectors, particularly industries supporting emerging businesses in technology, healthcare, biotech, and innovative sciences. As such, it is anticipated that growth in jobs — both on-site and remote — will occur concurrently and largely compensate for any near-term impacts of remote work.

Predicting long-term trends of remote work and the length of time it will take for employers to implement income tax withholding processes is difficult. Through the publication of this ACFR, income tax refunds (tax year 2022) resulting from remote work have remained below projections, but we expect that it will take some time for collections to fully reflect remote work.

Tax Litigation. On July 2, 2020, a complaint, The Buckeye Institute, et al. v. Megan Kilgore, Columbus City. Auditor, et al., Franklin C. P. No. 20CV004301, was filed with the Franklin County Court of Common Pleas naming as defendant the City Auditor and the Ohio Attorney General in a declaratory judgment action seeking a declaration that Section 29 of House Bill 197 of the 133rd General Assembly ("H.B. 197") is an unconstitutional violation of due process rights as secured by the Fifth and Fourteenth Amendments to the U.S. Constitution, as well as Art. I, Sec. 1 of the Ohio Constitution. Section 29 of H.B. 197, which became effective on March 27, 2020, provides that, notwithstanding R.C. 718.011 of the Revised Code, and for purposes of Chapter 718 of the Revised Code during the period of the state emergency declared by Executive Order 2020-01D, issued on March 9, 2020, and for 30 days after the conclusion of that period, an employee that performs personal services at a location, including the employee's home, to which the employee is required to report because of the emergency declaration shall be deemed for municipal income tax purposes to have been performing personal services at the employee's principal place of work. In 2021, a second complaint, J. Eric Denison v. Megan Kilgore, Columbus City Auditor, et al., Franklin C.P. No. 21CV000848 was filed with the Franklin County Court of Common Pleas also naming as defendant the City Auditor and the Ohio Attorney General in a declaratory judgment action seeking the same declaration for Section 29 of H.B. 197. As Mr. Denison was found to have been entitled to a refund of city taxes irrespective of the emergency order, that matter was dismissed as moot once those moneys were refunded. The Franklin County Court of Common Pleas granted the City Auditor's motion to dismiss the original Buckeye Institute's lawsuit in April 2021

Notes to the Financial Statements, continued

finding that the General Assembly acted within its constitutional power when enacting Section 29. Thereafter, the Buckeye Institute appealed the court's decision to the Tenth District Court of Appeals, Franklin No. 20AP193.

On November 30, 2021, the Tenth District Court of Appeals upheld the trial court's decision finding that the General Assembly acted constitutionally in enacting Sec. 29 of HB 197, the temporary municipal income tax provision as well.

In early 2022, the Buckeye Institute filed a jurisdictional appeal with the Ohio Supreme Court seeking reversal of the Tenth District Court of Appeals decision. On March 29, 2022 the Ohio Supreme Court declined to accept the jurisdictional appeal in the case.

On June 7, 2022, the Ohio Supreme Court did accept for review the jurisdictional appeal in another case *Schaad v. Alder*, Case No. 2022-0316, one of the Buckeye Institute's four other municipal cases challenging Ohio's pandemic-based policies. The issues in the *Schaad* case share some of the same questions presented in the Buckeye Institute v. Kilgore, et. al. case. In *Schaad v. Alder*, the Ohio Supreme Court will consider whether taxpayers can claim refunds for municipal income taxes paid during calendar 2020 to their employers' principal place of work municipality, as opposed to the municipality of their home office or residence. Currently, the outcome of this case only applies to income taxes paid in 2020; the Ohio General Assembly has already taken action to allow employees to seek refunds for the days they worked from home in 2021. The Eighth District Court of Appeals stayed a case pending before it pending the decision by the Ohio Supreme Court in *Schaad*. Oral argument in the *Schaad* case was heard by the Ohio Supreme Court on March 1, 2023. It is not known at this time when the Ohio Supreme Court may issue their decision.

Regardless of the outcome of the *Schaad v. Alder* case, the City does not anticipate a material negative impact on its ability to meet ongoing operational needs.

Notes to the Required Supplementary Information

December 31, 2022

NOTE A—BUDGETARY DATA [EXHIBIT 10 AND 11]

City Council follows the procedures outlined below in establishing expenditure budget data.

- (1) Prior to November 15, the Mayor submits to City Council an estimate of the expenditures necessary to conduct the affairs of the City for the fiscal year commencing the following January 1.
- (2) Budget estimates are distributed throughout the City (including newspapers and libraries) and public hearings are held to obtain taxpayers' comments.
- (3) Subsequent to January 1, and after publication of the proposed budget ordinances, the budget is legally enacted through passage of the ordinances. The budget specifies expenditure amounts by Object Class for each division within each fund. The objects are (1) personal services, (2) materials and supplies, (3) contractual services, (4) debt principal payments, (5) other, (6) capital outlay, (7) interest on debt, and (10) transfers.
- (4) Transfers of appropriations of less than \$100,000 can be made between budget Object Level One within a division and fund without additional City Council action, but with responsible management approval. Transfers in excess of this amount require the approval of both City Council and the Mayor. Supplemental appropriations must be approved by City Council. During 2022, all appropriations were approved as required. Appropriations for the General Fund and Board of Health expenditures and transfers out, were as follows:

		(in thousand	s)	
	 Original budget	Revisions	Final budget	
General	\$ 1,039,448	78,048	1,117,496	
Board of Health	\$ 41,667	52,837	94,504	

- (5) The City maintains budgetary controls by not permitting expenditures to exceed appropriations at the Object Level One level for each division within each fund.
- (6) Unencumbered appropriations lapse at year-end.

All General Fund and Board of Health expenditures, except for expenditures paid through the county auditor, have annual expenditures budgeted by City Council. Revenues and expenditures paid through the county auditor are estimated by the City Auditor in conjunction with the annual budgeting process. However, this estimate is not included or required in the budget ordinance.

Revenues for the General Fund are estimated by the City Auditor in conjunction with the annual budgeting process. However, this estimate is not included or required in the budget ordinance.

Notes to the Required Supplementary Information (continued)

The City's budgetary process is based upon accounting for certain transactions on a basis other than GAAP. The major differences are:

- (1) Revenues are recorded when received in cash (budget), as opposed to when susceptible to accrual (modified accrual).
- (2) Expenditures are recorded when encumbered or paid in cash (budget), as opposed to when the liability is incurred (modified accrual).
- (3) Encumbrances are recorded as the equivalent of expenditures (budget), as opposed to fund balances (modified accrual).

NOTE B—SCHEDULE OF CITY'S PROPORTIONATE SHARE OF NET PENSION LIABILITY [EXHIBIT 12]

Information regarding the City's proportionate share of net pension liability for 2013 to 2021 has been provided by the Ohio Public Employees Retirement System (OPERS) and the Ohio Police and Fire Pension Fund (OP&F). The net pension liability presented in the City's financial statement as of December 31, 2022 is based on the measurement date of December 31, 2021. Information presented in this exhibit is not available for years prior to 2013.

NOTE C—SCHEDULE OF THE CITY CONTRIBUTIONS TO STATE PENSION AND OPEB FUNDS [EXHIBIT 13]

Contributions included in the schedule of city contributions include both pension and other postemployment benefits (OPEB). The Board of Trustees for both OPERS and OP&F determine the allocation between pension and OPEB plans annually and this allocation may change from year to year. The City pays contractually required employer rates for OPERS and OP&F employees.

OPERS maintains three separate pension plans. The employer contribution rate is the same for all three plans. The City does not know which plan each of its employees participates in at the time of contribution payment; therefore, the contribution schedule includes all OPERS plans combined. Since OPERS allocated all of the employer contributions for the Traditional and Combined Plans to the pension benefit in 2022, there was zero allocated to the OPEB benefit. The difference between the pension contribution after the measurement date from Note K and the employer contribution per this schedule is contributions made to the Member Directed Plan, a defined contribution plan.

NOTE D—SCHEDULE OF CITY'S PROPORTIONATE SHARE OF NET OPEB LIABILITY/ASSET [EXHIBIT 14]

Information regarding the City's proportionate share of net OPEB liability/asset for 2016 to 2021 has been provided by the Ohio Public Employees Retirement System (OPERS) and the Ohio Police and Fire Pension Fund (OP&F). The net OPEB liability/asset presented in the City's financial statement as of December 31, 2022 is based on the measurement date of December 31, 2021. Information presented in this exhibit is not available for years prior to 2016.

City of Columbus, Ohio

Other Governmental Funds

Special Revenue Funds — used to account for revenues derived from specific taxes, grants, or other restricted revenue sources. City ordinances or Federal and/or State statutes specify the uses and limitations of each Special Revenue Fund. The title of the funds is descriptive of the activities involved. RiverSouth and Columbus Next Generation are separate legal entities defined as blended component units of the City for financial reporting purposes; therefore, there is no Schedule of Revenues, Expenditures, and Changes in Fund Balance — Budget and Actual included in this report for RiverSouth and Columbus Next Generation. The Special Revenue Funds are:

City Ordinances

- RiverSouth
- Columbus Next Generation
- Land Management
- Opioid Recovery
- Area Commissions
- Special Purpose
- Mayor's Education Charitable Trust
- Columbus Community Relations
- Housing/Business Tax Incentives
- Hester Dysart Paramedic Education

Internal Service Funds

Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the government, generally on a cost-reimbursement basis. The title of the funds indicates the type of service provided. The Internal Service Funds are:

- Employee Benefits
- Worker's Compensation
- Fleet Management
- Information Services
- Mail, Print, Term Contracts
- Construction Inspection
- Land Acquisition

Combining Statement of Net Position Internal Service Funds December 31, 2022 (amounts expressed in thousands)

Fiduciary Funds - Custodial Funds

Custodial Funds - are used to account for assets held by the City for individuals, private organizations, or other governments. Assets held for other governments mainly include municipal court collections and utility charges collected by the City on behalf of other governments. Assets held for individuals include property held in the Police Property Room. Custodial Funds also account for hotel/motel taxes collected within Franklin County, Ohio that are not incorporated by the City as well as special assessments collected for Special Improvement Districts. They are:

- Short North SID
- Capital Crossroads SID

STATISTICAL SECTION

Statistical Section

This part of the City's annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health. These tables are presented in accordance with Governmental Accounting Standards Board (GASB) Statement No. 44, *Economic Condition Reporting: The Statistical Section*.

<u>Contents</u>	<u>Tables</u>
Financial Trends These schedules contain trend information to help understand how the City's financial performance and wellbeing have changed over time.	1 – 7
Revenue Capacity These schedules contain information to help assess the City's most significant local revenue sources.	8 – 14
Debt Capacity These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	15 – 19 and 39
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.	20 – 34
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	35 – 38

Sources: Unless otherwise noted, the information in these schedules is derived from the annual comprehensive financial reports for the relevant year.

¹ On a budgetary basis, the majority of the expenditure amount above is included in transfers out, as amount is transferred to the related special revenue operating fund. For GAAP reporting purposes, the amount was reclassified to expenditures. Beginning in 2019, Health was considered a component unit and the expenditures are reflected in the Board of Health.

⁽¹⁾ Franklin, Fairfield, and Delaware County do not identify delinquent tax collections by tax year levied. Amounts represent all delinquent tax collections and related penalties and interest within the fiscal year. Delinquent tax amounts collected exclusive of penalties and interest by tax year levied are not available.

Sources: Franklin, Fairfield, and Delaware County Auditors

⁽²⁾ The City of Columbus entered Fairfield County in 1975 and Delaware County in 1991. Because the vast majority of property within the City lies within Franklin County, the above table demonstrates a ten year history of that property within Franklin County, but only current year data for Fairfield and Delaware counties.

- (1) Mid Ohio Regional Planning Commission. Beginning in 2017, MORPC adjusted their methodology to include international migration estimates to closer align with annual census estimates. Similar methodology was used to update prior estimates back to reflect consistency in growth. In 2020, MORPC changed their population estimate protocol. Going forward, population estimates will be provided during the current year. Therefore, the population did not change from 2019 to 2020.
- (2) Provided by Franklin, Fairfield and Delaware County Auditors.
- (3) General Obligation Debt includes long-term notes.
- (4) General Obligation Debt includes short term Mobility Enterprise notes (\$24.3 million in 2022).
- (5) Per capita calculations have been made on total bonded debt. Resources restricted for debt service are not restricted solely for the repayment of principal of debt.
- (6) Total personal income for Columbus MSA per Table 25.

N.A.: Not Available.

Note 1: Operating Indicators statistics were revised in 2019 to better reflect current metrics within the department. Ten year prior data is not available for all indicators.

Note 2: Development reports committed jobs in the year in which the project is legislated. 2021 New Jobs Committed numbers increased due to the OSU Innovation District JGI agreement which includes 12,000 new jobs committed. This agreement and project will take place over a 25 year period making it significantly longer than the Department's standard 5-10 year project lifecycle.

Note 3: Some operating indicators from the Department of Public Service no longer available starting in 2022 due to replacement of 311 software that can no longer track these indicators.

^{(1) 2016} street mile measurements include the addition of 425.1 miles of previously unreported alleys, unimproved alleys and other right of way. Beginning in 2016, street mile measurements are calculated and adjusted annually as enhanced GIS data becomes available. Updates may not reflect actual additions and may be refinements in data calculations.

⁽²⁾ Operating Indicators and Capital Asset statistics were revised in 2019 to better reflect current metrics within the department. Ten year prior data is not available for all indicators.

Table 39

Compliance Information Securities and Exchange Commission Rule 15c2-12(b)(5)(i)(C) and (D)

In the spirit of full disclosure and in compliance with the above Rule, the City is pleased to disclose the following regarding its outstanding obligations.

Description of Material Events during the 2022 calendar year:

- 1. There were no delinquencies of principal and/or interest payments.
- 2. There were no non-payment related defaults.
- 3. There were no unscheduled draws on debt service reserves reflecting financial difficulties.
- 4. There were no unscheduled draws on credit enhancements reflecting financial difficulties.
- 5. There were no substitutions of credit or liquidity providers.
- 6. The City received no adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701-TEB) or other material notices or determinations affecting the tax-exempt status of any of the City's outstanding obligations.
- 7. There were no material modifications to rights of the holders of the City's obligations.
- 8. There were no tender offers.
- 9. The City called certain bonds for optional redemption as a result of the defeasance described below.

May 2022 Current Refunding: On May 17, 2022, the City sold \$29.015 million in various general obligation refunding bonds for the purpose of current refunding \$38.790 million in certain outstanding bonds issued in 2012.

September 2022 Optional Redemption: On September 15, 2022, the Columbus-Franklin County Finance Authority ("the Issuer") optionally redeemed \$1.255 million in Series 2007 Development Revenue Bonds. The Bonds were issued by the Issuer through its Central Ohio Regional Bond Fund Program (the "Bond Fund") in 2007 and secured primarily, and on a parity basis, by bond financing payments paid by all borrowers participating in the Bond Fund and by related bond fund reserves. By virtue of the City's pledge of service payments in lieu of taxes generated from the TIF District to secure bond financing payments on the Series 2007 Bonds, as noted above, the City is an "obligated person" under the Rule.

- (23.) Certain Municipal Income Tax Matter Income Tax Rates

The City's income tax continues to be its primary source of revenue. The tax applies to all wages, salaries, commissions and other compensation paid by employers and/or the net proceeds from the operation of a business, profession or other enterprise activity. The initial tax rate of 0.5%, collected in 1948, was increased to 1.0% in 1956, 1.5% in 1971, to 2.0% in 1983 and to the rate of 2.5% effective October 1, 2009. Income tax rates of cities and villages within the State of Ohio are limited to a maximum of 1.0%, unless specifically approved by a majority of the resident voters of the respective city or village.

- (29.) <u>Debt Summary Projected Additional Debt</u>

To be eligible for capital improvements funding (i.e., from issuance of debt), an asset must have a useful life of at least five years and be considered non-operational. Some examples of capital improvements projects include the purchase of major equipment items, street lighting, street improvements, land acquisition for recreational needs, building construction, and facility rehabilitation. The City's proposed capital improvements program (CIP), for the period 2023 through 2028, provides for approximately \$4.9 billion in funding (funding source to be determined) for various capital improvements for all City divisions. A copy of the current CIP may be obtained by contacting the Department of Finance and Management, City Hall, 90 West Broad Street, Columbus, Ohio 43215.

This Annual Comprehensive Financial Report of the City of Columbus, Ohio will be made available to citizens in the community; city, state and federal officials, schools, libraries, newspapers, investment banking firms, banks, rating agencies, and to any person or organization requesting it. The report will also be distributed via the Municipal Securities Rulemaking Board's Electronic Municipal Market Access (EMMA) system and to the Ohio Municipal Advisory Council. This report is also available on the City's website. The website is: http://www.columbus.gov.

SINGLE AUDIT SECTION

88 East Broad Street Columbus, Ohio 43215 ContactUs@ohioauditor.gov (800) 282-0370

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

City of Columbus Franklin County 90 West Broad Street Columbus. Ohio 43215

To the Auditor and City Council:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Columbus, Franklin County, (the City) as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated March 31, 2023, wherein we noted the financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the City.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Efficient • Effective • Transparent

City of Columbus
Franklin County
Independent Auditor's Report on Internal Control Over
Financial Reporting and on Compliance and Other Matters
Required by Government Auditing Standards
Page 2

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

City of Columbus Franklin County 90 West Broad Street Columbus, Ohio 43215

To the Auditor and City Council:

Report on Compliance for Each Major Federal Program

Qualified and Unmodified Opinions

We have audited the City of Columbus', Franklin County, (the City) compliance with the types of compliance requirements identified as subject to audit in the U.S. Office of Management and Budget (OMB) Compliance Supplement that could have a direct and material effect on each of the City of Columbus' major federal programs for the year ended December 31, 2022. The City of Columbus' major federal programs are identified in the Summary of Auditor's Results section of the accompanying schedule of findings.

Qualified Opinion on AL #16.922 Equitable Sharing Program

In our opinion, except for the noncompliance described in the *Basis for Qualified and Unmodified Opinions* section of our report, the City of Columbus complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on the AL #16.922 Equitable Sharing Program for the year ended December 31, 2022.

Unmodified Opinion on Each of the Other Major Federal Programs.

In our opinion, the City of Columbus complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs identified in the *Summary of Auditor's Results* section of the accompanying schedule of findings for the year ended December 31, 2022.

Basis for Qualified and Unmodified Opinions

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

Efficient • Effective • Transparent

City of Columbus
Franklin County
Independent Auditor's Report on Compliance with Requirements
Applicable to Each Major Federal Program and on Internal Control Over Compliance
Required by the Uniform Guidance
Page 2

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified and unmodified opinions on compliance for each major federal program. Our audit does not provide a legal determination of the City's compliance with the compliance requirements referred to above.

Matters Giving Rise to Qualified Opinion on AL #16.922 Equitable Sharing Program

As described in finding 2022-001 in the accompanying schedule of findings, the City did not comply with requirements regarding Procurement and Suspension and Debarment applicable to its AL #16.922 Equitable Sharing Program major federal program.

Compliance with such requirements is necessary, in our opinion, for the City to comply with the requirements applicable to that program.

Responsibilities of Management for Compliance

The City's Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the City's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, Government Auditing Standards, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, Government Auditing Standards, and the Uniform Guidance, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design
 and perform audit procedures responsive to those risks. Such procedures include examining, on a
 test basis, evidence regarding the City's compliance with the compliance requirements referred to
 above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the City's internal control over compliance relevant to the audit in order
 to design audit procedures that are appropriate in the circumstances and to test and report on
 internal control over compliance in accordance with the Uniform Guidance, but not for the purpose
 of expressing an opinion on the effectiveness of the City's internal control over compliance.
 Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

City of Columbus
Franklin County
Independent Auditor's Report on Compliance with Requirements
Applicable to Each Major Federal Program and on Internal Control Over Compliance
Required by the Uniform Guidance
Page 3

Other Matters

Government Auditing Standards requires the auditor to perform limited procedures on the City's responses to the noncompliance findings identified in our compliance audit described in the accompanying corrective action plan. The City's responses were not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

Report on Internal Control over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the *Auditor's Responsibilities for the Audit of Compliance* section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be material weaknesses.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings as items 2022-001 and 2022-002, to be material weaknesses.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on the City's responses to the internal control over compliance findings identified in our audit described in the accompanying corrective action plan. The City's responses were not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of this testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Keith Faber Auditor of State Columbus, Ohio

CITY OF COLUMBUS, OHIO

Notes to Schedule of Expenditures of Federal Awards December 31, 2022

Note A-General

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) presents the activity of all federal award programs of the City of Columbus, Ohio (the City). The City's reporting entity is defined in Note A to the City's basic financial statements.

The basis for determining when federal awards are expended is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. In addition, expenditures reported on the Schedule are recognized following the costs principles contained in Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, wherein certain types of expenditures are not allowable or are limited as to reimbursement except for expenditures related to CFDA 21.019, Coronavirus Relief Fund (CRF). CRF does not apply the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards but rather applies the U.S. Department of Treasury's guidance. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

The City has not elected to use the 10-percent de minimus indirect cost rate to recover indirect costs as allowed under the Uniform Guidance.

Note B-Basis of Accounting

The accompanying schedule is presented using the cash basis of accounting in which expenditures are recognized when paid.

Note C-Schedule References

- 1. COC ID# represents the City's Microsoft D365 Accounting System classification structure and is used for internal purposes only.
- 2. FAIN/Pass through ID represents the pass through agency's grant identification number or the federal agency's identification number.
- 3. The PASSPORT program is funded by both federal and state Medicaid. The amount presented is the federal portion only.

SCHEDULE OF FINDINGS 2 CFR § 200.515 DECEMBER 31, 2022

1. SUMMARY OF AUDITOR'S RESULTS

(d)(1)(i)	Type of Financial Statement Opinion	Unmodified
(d)(1)(ii)	Were there any material weaknesses in internal control reported at the financial statement level (GAGAS)?	No
(d)(1)(ii)	Were there any significant deficiencies in internal control reported at the financial statement level (GAGAS)?	No
(d)(1)(iii)	Was there any reported material noncompliance at the financial statement level (GAGAS)?	No
(d)(1)(iv)	Were there any material weaknesses in internal control reported for major federal programs?	Yes
(d)(1)(iv)	Were there any significant deficiencies in internal control reported for major federal programs?	No
(d)(1)(v)	Type of Major Programs' Compliance Opinion	Unmodified for all major programs except for Equitable Sharing Program (AL #16.922) which is qualified.
(d)(1)(vi)	Are there any reportable findings under 2 CFR § 200.516(a)?	Yes
(d)(1)(vii)	Major Programs (list):	AL #10.557 – Special Supplemental Nutrition Program for Women, Infants, and Children Child Nutrition Cluster Community Development Block Grants Entitlement Grants Cluster AL #16.922 – Equitable Sharing Program Highway Planning and Construction Cluster AL #21.023 – Emergency Rental Assistance Program AL #21.027 – Coronavirus State and Local Fiscal Recovery Funds Clean Water State Revolving Fund (CWSRF) Cluster Aging Cluster AL #93.323 – Epidemiology and Laboratory Capacity for Infectious Diseases (ELC)
(d)(1)(viii)	Dollar Threshold: Type A\B Programs	Type A: > \$3,000,000 Type B: all others
(d)(1)(ix)	Low Risk Auditee under 2 CFR § 200.520?	No

SCHEDULE OF FINDINGS 2 CFR § 200.515 DECEMBER 31, 2022 (continued)

2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS

None

3. FINDINGS FOR FEDERAL AWARDS

1. Federal Suspension and Debarment Requirements - Noncompliance/Material Weakness

Finding Number: 2022-001

Assistance Listing Number and Title: AL #16.922 Equitable Sharing Program

Federal Award Identification Number / Year: 31-6400223 / 2022
Federal Agency: Department of Justice

Compliance Requirement: Procurement and Suspension and

Debarment

Pass-Through Entity: Direct Award

Repeat Finding from Prior Audit? Yes
Prior Audit Finding Number: 2021-002

2 CFR §2867.10 gives regulatory effect to the Department of Justice for **2 CFR §180.305** which states that Non-Federal entities are prohibited from entering into a covered transaction with parties that are suspended or debarred or whose principals are suspended or debarred, unless the Federal agency responsible for the transaction grants an exception under 2 CFR § 180.135.

2 CFR §180.200 identifies "covered transactions" as non-procurement or procurement transactions at the primary tier, between a Federal agency and a person; or at the lower tier, between a participant in a covered transaction and another person. Procurement contracts for goods and services awarded under a non-procurement transaction (e.g., grant or cooperative agreement) are covered transactions if the contracts are expected to equal or exceed \$25,000 or meet certain other specified criteria outlined in 2 CFR § 180.220. All non-procurement transactions (i.e., subawards to subrecipients), irrespective of award amount, are considered covered transactions, unless exempt by 2 CFR § 180.215.

When a non-Federal entity enters a covered transaction, the non-Federal entity must verify that the entity is not suspended or debarred or otherwise excluded. This verification may be accomplished by checking SAM exclusions (http://sam.gov); collecting a certification from the entity, or adding a clause or condition to the covered transactions with that entity.

Furthermore, the City of Columbus Purchasing Policy Manual - Bid and Proposal Evaluations - Federal Grants - Special Instructions provides "each department will review its Federal grants program policies and procedures for contract routing and update them immediately to include the following: A SAM.gov website review shall be included as the first page with each original contract scanned into Dynamics 365."

The City did not have the proper internal controls in place to verify that all entities, with whom the City had entered covered transactions, had not been suspended or debarred. During testing of the contract expenses for AL #16.922 Equitable Sharing Program Funds grant programs, we noted seven out of

SCHEDULE OF FINDINGS 2 CFR § 200.515 DECEMBER 31, 2022 (continued)

3. FINDINGS FOR FEDERAL AWARDS (continued)

1. Federal Suspension and Debarment Requirements (continued)

eight instances in which the program had a payment to a vendor of more than \$25,000 and no evidence the City checked the SAM exclusions, collected a certification from the entity, or added a clause or condition to the covered transaction with the vendor could be provided.

Failing to have the appropriate controls in place may result in vendors who are suspended or debarred receiving federal funds.

Prior to contracting with vendors that will be paid with federal funds, the City should verify the vendor is not suspended or debarred by checking the SAM exclusions, collecting a certification from the vendor, or adding a clause or condition to the covered transaction with the vendor.

Officials' Response

Refer to the Corrective Action Plan.

2. Supervisor Approval of Time Sheets - Material Weakness

Finding Number: 2022-002

Assistance Listing Number and Title: AL # 14.218 Community Development Block

Grants / Entitlement Grants (CDBG -

Entitlement Grants Cluster)

Federal Award Identification Number / Year: Multiple / 2022

Federal Agency: Department of Housing and Urban

Development

Compliance Requirement: Activities Allowed or Unallowed

Allowable Costs/Cost Principles

Pass-Through Entity: Direct Award

Repeat Finding from Prior Audit?

2 CFR §2400.101 gives regulatory effect to the Department of Housing and Urban Development for **2 CFR §200.303(a)** states that the non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. These internal controls should be in compliance with guidance in "Standards for Internal Control in the Federal Government" issued by the Comptroller General of the United States or the "Internal Control Integrated Framework", issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

Furthermore, **2 CFR §200.430(i)(1)(i)** states "charges to Federal awards for salaries and wages must be based on records that accurately reflect the work performed. These records must be supported by a system of internal controls which provides reasonable assurance that the charges are accurate, allowable, and properly allocated.

During testing of payroll expenses for AL #14.218 CDBG Entitlement Grant Cluster, we noted the City utilized employee-completed time-sheets for allocating payroll expenses to the federal program. However, the City's established internal control procedures did not occur for six out of 40 timesheets. The timesheets did not contain appropriate evidence that the timesheet was reviewed and

SCHEDULE OF FINDINGS 2 CFR § 200.515 DECEMBER 31, 2022 (continued)

3. FINDINGS FOR FEDERAL AWARDS (continued)

2. Supervisor Approval of Time Sheets (continued)

approved by a supervisor with direct knowledge of the employee's activities to support proper allocation to the program. We were able to substantiate the related expenses through additional means to support allocation to the federal program.

Failure to ensure all time sheets are appropriately approved by a knowledgeable supervisor could result in unallowable costs being allocated to a federal program and could ultimately result in a questioned cost.

We recommend the City review established policies and procedures and ensure all timesheets are appropriately reviewed prior to allocation to a federal program.

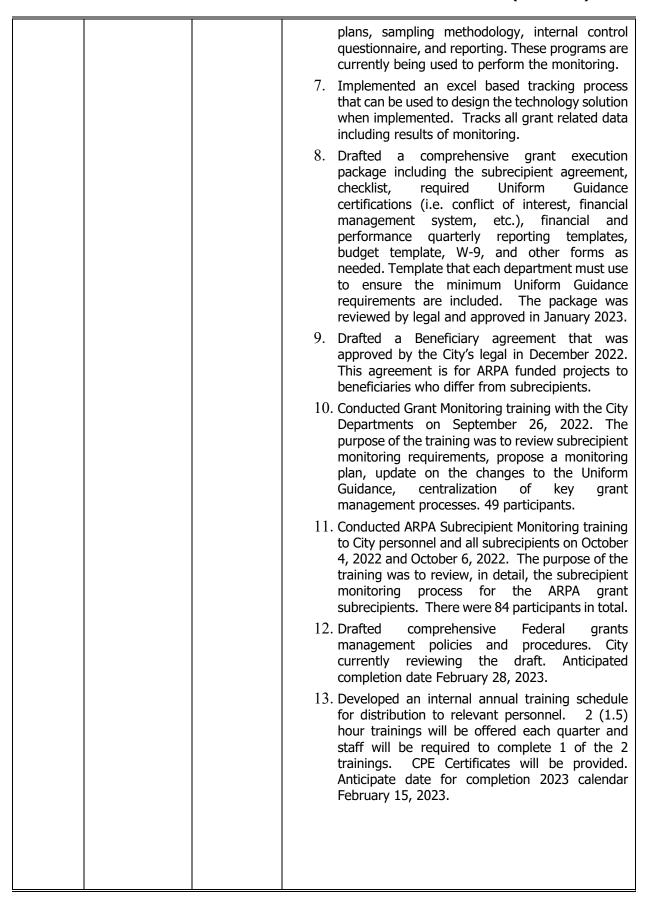

Officials' Response

Refer to the Corrective Action Plan.

City of Columbus MANAGEMENT'S SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS 2 CFR 200.511(b) December 31, 2022

Finding Number	Finding Summary	Status	Additional Information
	_	Partially Corrected	The City has implemented the following procedures relative to ensure subrecipient compliance and monitoring: 1. Hired as a City employee, a full-time Federal Grants Manager Coordinator, Kali Harris 2. Engaged a CPA firm to perform subrecipient monitoring and grants management 3. CPA firm is currently conducting subrecipient financial and programmatic monitoring in compliance with the Uniform Guidance, Treasury Final Rule and compliance guidance, and their approved project included in the subrecipient agreement. The 36 subrecipients were selected as follows: a. 24 ARPA subrecipients, including the 11 tested in the prior audit, with awards in FY 2021.
	authorized purposes.		 b. ARPA and Emergency Rental Assistance (ERA) subrecipients in the "high" risk category based on the risk assessments. c. ARPA subrecipients whose grant period of performance ended. The monitoring will be used to assist in the closeout of the
			award. d. The monitoring activities began in December 2022 with an anticipated completion date of April 30, 2023.
			4. Completed risk assessments, using a risk score card developed by the City's Development Department, for all subrecipients that received ARPA funding.
			 Drafted a comprehensive monitoring plan that includes 1) a risk assessment tool with updated risk factors, scorecard, scoring matrix, and grading scale; 2) the specific monitoring plan based on the risk category, frequency of risk assessment, and monitoring policies and procedures.
			6. Developed comprehensive monitoring work programs for the ARPA and Emergency Rental Assistance Program (ERA) including document request lists, monitoring procedures, testing

MANAGEMENT'S SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS (continued)

MANAGEMENT'S SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS (continued)

		1	
2021-002	ALN No. 21.023 and ALN No. 21.027 Condition: The City did not have controls in place to ensure that vendors and subrecipients were not suspended or debarred or included on the Never Contract with the Enemy listing prior to entering into a contract in all instances.	Partially Corrected	The City took the following steps related to ensuring vendors and subrecipients were not suspended or debarred or included on the Never Contract with the Enemy listing prior to entering into contract in all instances. • An email regarding the requirement and expectation was sent to fiscal personnel, clarifying the process for completing the search and the requirement for documentation. • The City's procurement manual was updated with information pertaining to the expectation and requirement. Additional training on this topic is scheduled to take place in 2023.
2021-003	ALN No. 14.231 Condition: The City did not pay all subrecipient payment requests within 30 days of receiving the completed payment requests.	Corrective Action Taken and Finding is Fully Corrected	NA

City of Columbus

MANAGEMENT'S CORRECTIVE ACTION PLAN 2 CFR § 200.511(c) December 31, 2022

Finding Number: 2022-001

Planned Corrective Action: The City concurs with the finding and will take the following

actions in response:

 Provide training to personnel regarding the requirement and expectation for retention of documentation verifying SAM searches were performed;

 Modify written procurement policies and procedures to incorporate the aforementioned expectation and

requirement;

• Communicate the requirement and policy/procedure change to the Division of Police in writing; and

Develop, document, and implement procedures to ensure

 Develop, document, and implement procedures to ensure provisions pertaining to the Never Contract with the Enemy provisions applicable to federal grants are adhered to.

Anticipated Completion Date:

6/30/2023

Responsible Contact Persons: Ekow Dennis, Deputy Assistant Director, Public Safety

Mitch Clay, Police Fiscal Manager

Finding Number: 2022-002

Planned Corrective Action: The City concurs with the finding and in order to ensure City

personnel time is allocated accurately and for allowable time charged to the CDBG program, the City will continue to utilize employee-completed timesheets which match City pay periods. Each timesheet will be reviewed by the employee's supervisor within seven days of the completion of any pay period. Since there are already policies and procedures established for time keeping for the CDBG program, the Department of Finance and Management will issue a memo for City personnel supervising CDBG funded staff outlining the time keeping procedures to be

followed.

Anticipated Completion Date: 5/31/2023

Responsible Contact Person: Lucie McMahon, Grants Management Coordinator
